[Docket No. CP93-117-004]

#### San Diego Gas & Electric Company; Notice of Application for Amended Section 3 Authorizations and Presidential Permit

September 23, 2005.

Take notice that on September 13, 2005, San Diego Gas & Electric Company (SDGE), 8330 Century Park Court, San Diego, CA 92123, filed in Docket No. CP93-117-004 an application pursuant to Section 3 of the Natural Gas Act (NGA) and part 153 of the Federal Energy Regulatory Commission's (Commission) regulations, for an order amending previous authorization and Presidential Permit for the siting, construction, and operation of pipeline and metering facilities for the export and import of natural gas at the International Boundary between the United States and Mexico in San Diego County, California. In this application, SDGE seeks authorization to make minor modifications to these facilities to increase the maximum capacity from 350 MMcf of gas per day to 800 MMcf of gas per day, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing is available for review at the Commission in the Public Reference Room. This filing also may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Any questions regarding this application should be directed to Georgetta J. Baker, Sempra Energy, at (619) 699-5064.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party

to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10) by the comment date below. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.
