Three sections of the General Information and Instructions of the FR 2083 will be modified to recognize new sources of available information, provide other practical advice to an applicant, and ensure further consistency with other applications. The Preparation of Application section has been modified to reflect that the Federal Reserve's public Web site now contains substantial filing information, including relevant regulations, which an applicant may find helpful when preparing a membership filing. As in other application filing instructions, the applicant is encouraged to consult with the appropriate Reserve Bank about the informational needs of a specific membership proposal. The section also recognizes a new requirement adopted by the Federal Reserve in May 2003 that an individual associated with a banking proposal may need to submit fingerprint cards as part of the name check process. Also, to ensure proper handling of a filing, applicants are encouraged to clearly identify when expedited processing is being sought. All of the proposed revisions to the Confidentiality and Compliance sections are to ensure consistency with the bank holding company application and notifications forms. The Application for Prior Approval to Become a Bank Holding Company or for a Bank Holding Company to Acquire an Additional Bank or Bank Holding Company (FR Y-3), the Notification for Prior Approval to Become a Bank Holding Company or for a Bank Holding Company to Acquire an Additional Bank or Bank Holding Company (FR Y-3N), and the Notification for Prior Approval to Engage Directly or Indirectly in Certain Nonbanking Activities (FR Y-4) (OMB No. 7100-0121).

Most individual respondent data are not considered confidential. Applicants may, however, request that parts of their membership applications be kept confidential, but in such cases the applicant must justify its request by demonstrating that disclosure would cause "substantial competitive harm" or result in "an unwarranted invasion of personal privacy." Because the confidentiality status of the information submitted will be judged on a case-by-case basis, the forms themselves raise no issues under the Freedom of Information Act, (5 U.S.C. 552).

Abstract: These application forms are required by the Federal Reserve Act and Regulation I. These forms must be used by a new or existing member bank (including a national bank) to request the issuance, and adjustment in, or cancellation of Federal Reserve Bank stock. The forms must contain certain certifications by the applicants, as well as certain other financial and shareholder data that is needed by the Federal Reserve to process the request.

Current actions: On July 26, 2005, the Federal Reserve issued for public comment proposed revisions to the FR 2056 and FR 2086a (70 FR 43146). The comment period ended on September 26, 2005. The Federal Reserve did not receive any comments. There are no changes to four of the six application forms (the FR 2030, 2030a, 2086, and 2087). The changes proposed for the other two forms (the 2056, and 2086a) are generally technical in nature. The FR 2056 and its attachment will be modified to allow for their usage by a mutual savings bank (which currently has no adjustment form) and to ensure that the correct capital and surplus data is provided when the requested adjustment relates to a proposed merger or consolidation. The modifications will allow this form to be used by a member bank that survives the merger or consolidation of two member banks, an adjustment not clearly addressed by the current stock forms. The FR 2086a also will be slightly modified to reflect that it could be used by a member bank that is eliminated during the merger or consolidation of two member banks for

the cancellation of its Federal Reserve Bank stock.
