**SUPPLEMENTARY INFORMATION:** Northern Arizona University proposes to construct and operate the Merriam-Powell Research Station (MPRS) in collaboration with and on property leased from The Arboretum at Flagstaff. This project is funded by the National Science Foundation (NSF), which is the Federal lead agency for this Environmental Assessment (EA). The proposed research station will provide facilities for visiting researchers, students, instructors, and agency personnel. It will leverage productive collaborations involving NAU researchers and the numerous field research opportunities in Northern Arizona, including the adjacent NAU Centennial Forest. The two alternatives

sites considered for the MPRS were on undeveloped land on the NAU Centennial Forest and adjacent to existing development at The Arboretum at Flagstaff. It is expected that construction will be completed in May of 2006.

A Draft Environmental Assessment (EA) has been prepared that analyzes the potential environmental effects of this proposed action. From the information contained in the Draft EA, the NSF is prepared to find that no significant environmental effects will result from construction of the Merriam-Powell Research Station on the preferred site at the Arboretum at Flatstaff.
