

**ACTION:** Notice.

**SUMMARY:** The draft environmental assessment (EA) evaluates the effects of submarine fiber optic cables owned by Pacific Crossing, Ltd. in the Olympic Coast National Marine Sanctuary (OCNMS). The EA evaluates eight alternative actions NOAA may take to address impacts associated with the current disposition of the cables. NOAA is soliciting comments and recommendations from the public regarding remediation alternatives and their impacts. The U.S. Army Corps of Engineers (ACOE) is a cooperating agency in this EA.

**DATES:** Comments must be received on or before October 24, 2005.

**ADDRESSES:** Submit written comments on the draft environmental assessment to Carol Bernthal, OCNMS Superintendent (PC-1 Cables Remediation Review), 115 E. Railroad Ave. Suite 301, Port Angeles, Washington 98362 or via e-mail to [carol.bernthal@noaa.gov](mailto:carol.bernthal@noaa.gov). Copies of the draft environmental assessment document can be downloaded from the NMSP Web site at <http://sanctuaries.noaa.gov/library/library.html>.

**SUPPLEMENTARY INFORMATION:** In November 1999, NOAA issued an authorization/special use permit to Pacific Crossing, Ltd. for installation by its contractor, Tyco Submarine Systems, Ltd., of two fiber optic cables through OCNMS. NOAA is considering amending the permit or issuing a new permit to address the condition of the cables. NOAA's goal is to fully achieve the objectives of the terms and conditions of the permit, which would prevent chronic damage to resources, substantially reduce risks to resources and fishers, and restore access to Native Americans to their treaty-reserved fishing grounds. NOAA is evaluating various remedial options to determine which option or combination of options would be most suitable to achieve this goal. The options range from no action to complete removal and reburial of the cables. ACOE, pursuant to Section 10 of the Rivers and Harbors Act of 1899, has permitting authority for obstructions to navigation, and pursuant to Section 404 of the Clean Water Act has permitting authority for the discharge of dredge or fill material in waters of the United States. As a cooperating agency, ACOE is considering modifying the existing Section 10/404 permit it issued for the Pacific Crossing cables to allow the proposed remediation in OCNMS to be performed.

**Amendment to Final Guidelines for the Coastal and Estuarine Land Conservation Program**

**AGENCY:** National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

**ACTION:** Notice; amendment to final guidelines.

**SUMMARY:** The National Oceanic and Atmospheric Administration, National Ocean Service publishes this notice to amend the Final Guidelines for the Coastal and Estuarine Land Conservation Program (CELCP). For those grants issued in fiscal year 2002 only, CELCP may extend the financial assistance award period of grants issued in fiscal year 2002 for two additional years, totaling a maximum award duration of five years.

**FOR FURTHER INFORMATION CONTACT:** For further information, contact: Elisabeth Morgan, 301-713-3155 X166, [elisabeth.morgan@noaa.gov](mailto:elisabeth.morgan@noaa.gov).

**SUPPLEMENTARY INFORMATION:** The Coastal and Estuarine Land Conservation Program was established pursuant to Public Law 107-77 "for the purpose of protecting important coastal and estuarine areas that have significant conservation, recreation, ecological, historical, or aesthetic values, or that are threatened by conversion from their natural or recreational state to other uses." The Final Guidelines for CELCP was published in the **Federal Register** on June 17, 2003 (68 FR 35860). The Final Guidelines stated that the standard financial assistance award period is 18 months, and could be

extended an additional 18 months if circumstances warrant, but may not exceed 3 years. CELCP has noted that several land acquisition projects funded in 2002 will not be completed by the end of fiscal year 2005. These awards were issued during the first year of the Program, prior to the issuance of the Final Guidelines in which the three-year limit was stipulated. For this reason, CELCP is amending the Final Guidelines for the Coastal and Estuarine Land Conservation Program to allow the financial assistance award period for awards issued in fiscal year 2002 to be extended for an additional two years. The maximum award duration for these grants is five years and will end on September 30, 2007.
