

(Trunkline LNG), P.O. Box 4967, Houston, Texas 77210-4967, filed an abbreviated application, pursuant to section 7(c) of the Natural Gas Act (NGA) and part 157 of the Commission's Rules and Regulations, for a Certificate of Public Convenience and Necessity requesting authorization to acquire an undivided 50% interest in a gas turbine power generator and appurtenant facilities located at Trunkline LNG's liquefied natural gas (LNG) terminal near Lake Charles, Louisiana. The application is on file with the Commission and open for public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Trunkline LNG proposes to acquire an undivided 50% ownership interest in an existing gas turbine/generator, Unit 2204—JA, and appurtenant facilities from PLCG, formerly CMS Panhandle Lake Charles Generation, LLC, formerly PanEnergy Lake Charles Generation, Inc. Trunkline LNG will continue to use Unit 2204—JA with its 16 megawatts of generating capability as a back-up power source for ship unloading and emergency back-up power needs. The acquisition of the facilities will be in place and will not result in any ground disturbance.

Any questions regarding the application are to be directed to William W. Grygar, Vice President of Rates and Regulatory Affairs, 5444 Westheimer Road, Houston, Texas 77056-5306; phone number (713) 989-7000.

Any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant

and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

Motions to intervene, protests and comments may be filed electronically via the Internet in lieu of paper, see, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Comment Date: November 1, 2005.

Magalie R. Salas,

Secretary.

Williston Basin Interstate Pipeline Company; Notice of Negotiated Rate

October 6, 2005.

Take notice that on September 30, 2005, Williston Basin Interstate Pipeline Company (Williston Basin), tendered for filing with the Commission a revised negotiated Rate Schedule FT-1 Service Agreement. The proposed effective date of the service agreement is October 1, 2005.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the

Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). Woodland Biomass Power, Ltd.; Notice of Filing

October 6, 2005.

Take notice that on October 3, 2005, Woodland Biomass Power, Ltd. (Woodland) and DTE Woodland, LLC (DTE) filed with the Commission a joint application for certification of a 28 MW small power production facility located in Woodland, California as a qualifying small power production facility pursuant to 18 CFR 292.207(b) of the Commission's regulations.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant and all the parties in this proceeding.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP05-364-000]

ANR Pipeline Company; Notice of Availability of the Environmental Assessment for the Proposed Wisconsin 2005 Expansion Project

October 7, 2005.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by ANR Pipeline Company (ANR) in the above-referenced dockets.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of the proposed project. ANR proposes to install a total of 6.86 miles of pipeline, add a compressor unit at an existing compressor station, construct a new compressor station, and perform minor upgrade work at 5 existing meter stations in Wisconsin. Specifically, the project includes:

- About 3.08 miles of 16-inch outside diameter (OD) looping¹ pipeline (designated as the Little Chute Loop) in Outagamie County, WI;
- About 3.78 miles of 30-inch OD looping pipeline (designated as the Madison Lateral Loop in Rock County, WI);
- A new 2,370 horsepower (hp) reciprocating compressor unit and associated equipment at the existing Janesville Compressor Station in Rock County, WI;
- A new 20,620 hp compressor station comprised of two 10,310 hp units to be built at an existing meter station site (designated as the Goodman Compressor Station) in Marinette County, WI; and
- 5 existing meter station upgrades in Dane, Marathon, and Columbia Counties, WI.

The purpose of the proposed facilities would be to create about 168,241 decatherms per day of incremental firm capacity on its pipeline system to accommodate growth in demand from all market segments in Wisconsin.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Copies of the EA have been mailed to Federal, State and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your comments to: Secretary, Federal Energy Regulatory Commission, 888

¹ A loop is a segment of pipeline installed adjacent to an existing pipeline which connects to the existing pipeline at both ends of the loop. The loop allows more gas to be moved through the system.
