DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 64

[Docket No. FEMA-7782]

List of Communities Eligible for the Sale of Flood Insurance

AGENCY: Federal Emergency Management Agency (FEMA), Emergency Preparedness and Response Directorate, Department of Homeland Security.

ACTION: Final rule.

SUMMARY: This rule identifies communities that are participating and suspended from the National Flood Insurance Program (NFIP). These communities have applied to the program and have agreed to enact certain floodplain management measures. The communities' participation in the program authorizes the sale of flood insurance to owners of properties located in the communities listed below.

EFFECTIVE DATES: The effective date for each community is listed in the fourth column of the following tables.

ADDRESSES: Flood insurance policies for properties located in the eligible communities listed below can be obtained from any licensed property

insurance agent or broker serving the eligible community or from the NFIP by calling 1-800-638-6620.

FOR FURTHER INFORMATION CONTACT: Michael M. Grimm, Mitigation Division, 500 C Street SW., Room 412, Washington, DC 20472, (202) 646-2878.

SUPPLEMENTARY INFORMATION: The NFIP enables property owners to purchase flood insurance that is generally not otherwise available. In return, communities agree to adopt and administer local floodplain management measures aimed at protecting lives and new construction from future flooding. Because the communities on the attached list have recently entered the NFIP, subsidized flood insurance is now available for properties in these communities.

In addition, FEMA has identified the Special Flood Hazard Areas (SFHAs) in some of these communities by publishing a Flood Hazard Boundary Map (FHBM) or Flood Insurance Rate Map (FIRM). The date of the flood map, if one has been published, is indicated in the fourth column of the table. In the communities listed where a flood map has been published, Section 202 of the Flood Disaster Protection Act of 1973, as amended, 42 U.S.C. 4016(a), requires the purchase of flood insurance as a condition of Federal or Federally-related financial assistance for acquisition or construction of buildings in the SFHAs shown on the map.

The Administrator finds that delayed effective dates would be contrary to the public interest and that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

National Environmental Policy Act

This rule is categorically excluded from the requirements of 44 CFR Part

10, Environmental Considerations. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities in accordance with the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because the rule creates no additional burden, but lists those communities eligible for the sale of flood insurance.

Regulatory Classification

This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Paperwork Reduction Act

This rule does not involve any collection of information for purposes of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

[Docket No. 040830250-5109-04; I.D. 101805C]

Fisheries off West Coast States and in the Western Pacific; Pacific Coast Groundfish Fishery; End of the Pacific Whiting Primary Season for the Catcher/processor Sector

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; fishing restrictions; request for comments.

SUMMARY: NMFS announces the end of the 2005 Pacific whiting (whiting) primary season for the catcher/processor sector at 1800 local time (l.t.) October 18, 2005, because the allocation for the catcher/processor will be reached by that time. This action is intended to keep the harvest of whiting within the 2005 allocation levels.

DATES: Effective from October 18, 2005, until the start of the 2006 primary season for the catcher-processor sector, unless modified, superseded or rescinded. Comments will be accepted through November 8, 2005.

ADDRESSES: You may submit comments, identified by I.D. 101805C, by any of the following methods:

• Mail: D. Robert Lohn, Administrator, Northwest Region, NMFS, 7600 Sand Point Way NE, Seattle, WA 98115-0070, Attn: Becky Renko.

FOR FURTHER INFORMATION CONTACT: Becky Renko at 206-526-6110.

SUPPLEMENTARY INFORMATION: This action is authorized by regulations implementing the Pacific Coast Groundfish Fishery Management Plan (FMP), which governs the groundfish fishery off Washington, Oregon, and California.

The 2005 non-tribal commercial OY for whiting is 232,069 mt (this is calculated by deducting the 35,000-mt tribal allocation and 2,000 mt for research catch and bycatch in non-groundfish fisheries from the 269,069 mt total catch OY). Regulations at 50 CFR 660.323(a) divide the commercial whiting OY into separate allocations for the catcher/processor, mothership, and shore-based sectors. The catcher/processor sector is composed of vessels that harvest and process whiting. The mothership sector is composed of motherships and catcher vessels that harvest whiting for delivery to motherships. Motherships are vessels that process, but do not harvest, whiting. The shore-based sector is composed of vessels that harvest whiting for delivery to land-based processors. Each commercial sector receives a portion of the commercial OY. For 2005, the catcher/processors received 34 percent (78,903 mt), the mothership sector received 24 percent (55,696 mt), and the shore-based sector received 42 percent (97,469 mt).

Regulations at 50 CFR 660.373(b) describe the primary season for mothership processors as the period(s) when at-sea processing is allowed and the fishery is open for the catcher-processor sector. When each sector's allocation is reached, the primary season for that sector is ended.

NMFS Action

This action announces achievement of the allocation for the catcher/processor sector only. The best available information on October 17, 2005, indicated that the catcher/processor allocation would be reached by October 18, 2005, at which time the primary season for the catcher/processor sector ends.

For the reasons stated here and in accordance with the regulations at 50 CFR 660.373(b), NMFS herein announces that effective October 18, 2005, further taking and retaining, receiving or at-sea processing of whiting by a catcher/processor is prohibited. No additional unprocessed whiting may be brought on board after at-sea processing is prohibited, but a catcher/processor may continue to process whiting that was on board before at-sea processing was prohibited.

Classification

This action is authorized by the regulations implementing the FMP. The determination to take this action is based on the most recent data available. The Assistant Administrator for Fisheries, NMFS, finds good cause to waive the requirement to provide prior notice and opportunity for comment on this action pursuant to 5 U.S.C. 553 (3)(b)(B), because providing prior notice and opportunity would be impracticable. It would be impracticable because if this closure were delayed in order to provide notice and comment, the fishery would be expected to greatly exceed the mothership sector allocation. A delay to provide a cooling off period also would be expected to cause the fishery to exceed its allocation. Therefore, good cause also exists to waive the 30-day delay in effectiveness requirement of 5 U.S.C. 553 (d)(3). The aggregate data upon which the determination is based are available for public inspection at the Office of the Regional Administrator (see **ADDRESSES**) during business hours. This action is taken under the authority of 50 CFR 660.373 (b) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*
