

Antidumping Duty Proceedings	Period to be Reviewed
A-401-806 Fagersta Stainless AB. TAIWAN: Stainless Steel Wire Rod.	9/1/04 - 8/31/05
A-583-828 Walsin Lihwa Corporation. THE PEOPLE'S REPUBLIC OF CHINA: Freshwater Crawfish Tail Meat ² .	9/1/04 - 8/31/05
A-570-848 China Kingdom Import & Export Co., Ltd.. aka China Kingdome Import & Export Co., Ltd.. aka Zhongda Import & Export Co., Ltd.. Jiangsu Hilong International Trading Company, Ltd.. Jiangsu Jiushoutang Organisms-Manufactures Co., Ltd.. Shanghai Sunbeauty Trading Co., Ltd.. Ningbo Nanlian Frozen Foods Company, Ltd.. Qingdao Jinyongxiang Aquatic Foods Co., Ltd.. Qingdao Wentai Trading Co., Ltd.. Qingdao Zhengri Seafood Co., Ltd.. Weishan Zhenyu Foodstuff Co., Ltd.. Xuzhou Jinjiang Foodstuffs Co., Ltd.. Yancheng Haiteng Aquatic Products & Foods Co., Ltd.. Yancheng Hi-King Agriculture Developing Co., Ltd.. Yancheng Yaou Seafood Co., Ltd.. THE PEOPLE'S REPUBLIC OF CHINA: Polyethylene Retail Carrier Bags ³ .	9/1/04 - 8/31/05
A-570-886 Ampac Packaging (Nanjing) Co..	8/1/04 - 7/31/05
Countervailing Duty Proceedings.	
BRAZIL: Certain Hot-Rolled Flat-Rolled Carbon Quality Steel Products.	
C-351-829 Companhia Siderurgica Nacional. Companhia Siderurgica de Tubarao. Usinas Siderurgicas de Minas Gerais. Companhia Siderurgica Paulista.	1/1/04 - 12/31/04
Suspension Agreements.	
None..	

¹ Company inadvertently omitted from initiation notice that published on June 30, 2005 (70 FR 37749).

² If one of the above named companies does not qualify for a separate rate, all other exporters of freshwater crawfish tail meat from the People's Republic of China who have not qualified for a separate rate are deemed to be covered by this review as part of the single PRC entity of which the named exporters are a part. Additionally, for those companies for which we are conducting a new shipper review, this administrative review will only cover entries not covered by those new shipper reviews.

³ Company inadvertently omitted from initiation notice that published on September 28, 2005 (70 FR 56631).

During any administrative review covering all or part of a period falling between the first and second or third and fourth anniversary of the publication of an antidumping duty order under section 351.211 or a determination under section 351.218(f)(4) to continue an order or suspended investigation (after sunset review), the Secretary, if requested by a domestic interested party within 30 days of the date of publication of the notice of initiation of the review, will determine, consistent with *FAG Italia v. United States*, 291 F.3d 806 (Fed. Cir. 2002), as appropriate, whether antidumping duties have been absorbed by an exporter or producer subject to the review if the subject merchandise is sold in the United States through an importer that is affiliated with such exporter or producer. The request must include the name(s) of the exporter or producer for which the inquiry is requested.

Interested parties must submit applications for disclosure under

administrative protective orders in accordance with 19 CFR 351.305.

These initiations and this notice are in accordance with section 751(a) of the Tariff Act of 1930, as amended (19 USC 1675(a)) and 19 CFR 351.221(c)(1)(I).

Dated: October 19, 2005.

Holly A. Kuga,

Senior Office Director, AD/CVD Operations,
Office 4 for Import Administration.

**Areas Global TB Vaccine Foundation,
Notice of Decision on Application for
Duty-Free Entry of Scientific
Instrument**

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between

8:30 A.M. and 5:00 P.M. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW, Washington, D.C.

Docket Number: 05-036. Applicant: Areas Global TB Vaccine Foundation. Instrument: Flow Cytometer. Manufacturer: Partec GmbH, Germany. Intended Use: See notice at 70 FR 48372, August 17, 2005.

Comments: None received. Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. Reasons: The foreign instrument provides: (1) true volumetric absolute cell counting, (2) validation of assay cell numbers that can be correlated to FDA approved cell counting devices, (3) stable lasers to permit use of the same settings regardless of the day or operator and (4) that the user can make corrections to the laser.

The National Institutes of Health advises: (1) these capabilities are pertinent to the applicant's intended

purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

Gerald A. Zerdy,

Program Manager Statutory Import Programs Staff.

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether an instrument of equivalent scientific value, for the purposes for which the instrument shown below is intended to be used, is being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW, Washington, D.C.

Docket Number: 05-037. Applicant: California Institute of Technology, 1200 E. California Blvd., Pasadena, CA 91125. Instrument: Dual Beam SEM/FIB System, Model 200 Nanolab. Manufacturer: FEI Company, The Netherlands. Intended Use: The instrument is intended to be used to modify and analyze delicate nano-devices as well as to prepare more conventional cross-sectional thin sections for analytical electron microscopy. The nanostructures to be modified will largely be developed within Caltech's microfabrication facilities and the delivered software system will be re-written to enable more precise patterning and alignment of nanostructures. Metallorganic gases can be delivered to the sample surface through a gas manifold for metal deposition and etching gases can be injected to perform chemically-assisted focused ion etching. A laser

interferometer stage will enable the alignment of nanostructures to existing alignment marks for a flexible nanofabrication system. A large variety of chemical analysis sensors will further extend the capabilities of the system. Application accepted by Commissioner of Customs: September 27, 2005.

Docket Number: 05-044. Applicant: Tufts University, 169 Holland Street, Somerville, MA 02144. Instrument: Low-temperature Scanning Tunneling Microscope. Manufacturer: Omicron Nanotechnology, Germany. Intended Use: The instrument is intended to be used to study molecules adsorbed on metal and semiconductor surfaces at low temperature to gain understanding of the physisorption and chemisorption processes. The research is intended to: (1) obtain high-resolution images of molecules adsorbed on surfaces at temperatures down to 4 Kelvin, (2) record conductance and vibrational data from these systems using the microscope's spectroscopic capabilities and (3) manipulate the positions of molecules using the microscope tip. Application accepted by Commissioner of Customs: October 5, 2005.

Gerald A. Zerdy,

Princeton University, Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW, Washington, D.C.

Docket Number: 05-035. Applicant: Princeton University, Princeton, New Jersey. Instrument: Geiger Mode Ionizing Counters (1350). Manufacturer: pol.hi.tech, S.R.I, Italy. Intended Use: See notice at 70 FR 48372, August 17, 2005.

Comments: None received. Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States.

Reasons: These are compatible accessories for an existing instrument. Also referred to as limited streamer tubes, they are to be interfaced to the Stanford Linear Accelerator to study all the systematics of B meson decay processes by international research projects. Extreme reliability is an essential feature, since once assembled, they cannot be removed for replacement. The only domestic assembly facility for producing large numbers of these devices (at the University of Houston) has been decommissioned. The accessories are pertinent to the intended uses and we know of no domestic accessories which can be readily adapted for this purpose. We know of no other instrument or apparatus of equivalent scientific value which is being manufactured in the United States.

Gerald A. Zerdy,

Program Manager Statutory Import Programs Staff.
