

meeting other requirements, pass an examination prescribed by the Exchange.

The volume and speed of the market has increased dramatically since CTs and RCMMs were first created, and significant changes have occurred with respect to market dynamics. The Exchange believes that these changes coupled with the Exchange's move to a Hybrid Market makes this review timely and appropriate. Currently there are only 11 active RCMMs, and the sole CT has not been active for several years. As part of this review, the Exchange will consider the diminished impact and usage of RCMMs and the effective non-usage of the CT status, the resources required to surveil their trading, and the significant market timing and informational advantage that they enjoy. The Exchange will also examine any regulatory requirements needed to increase market maker liquidity obligations.

The Exchange will issue an Information Memo announcing the moratorium. The Exchange notes that the proposed moratorium will not impact those members currently registered as CTs and RCMMs. Accordingly, during the period that the moratorium is in place, NYSE Rules 110 and 111 and NYSE Rule 107A will continue to govern the actions of current CTs and RCMMs, respectively.⁸ The Exchange will promptly file for approval with the Commission any changes to the existing rules that the Exchange determines are warranted upon completion of its review.

2. Statutory Basis

The Exchange believes that the basis under the Act for this proposed rule change is the requirement under Section 6(b)(5)⁹ that an Exchange have rules that are designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose

any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change: (i) Does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(6) thereunder.¹¹ At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. SUPPLEMENTARY INFORMATION:

I. Background and Purpose of the Proposed New System of Records Entitled the RAPD System

A. General Background

The Rehabilitation Act of 1973, as amended, prohibits certain employers from discriminating based on disability. Section 501 of the Rehabilitation Act (29 U.S.C. 791) applies to Federal agencies and requires that agencies provide reasonable accommodation to qualified employees or applicants with disabilities. Executive Order (E.O.) 13164 requires that Federal agencies establish written procedures to facilitate the provision of reasonable accommodation. An accommodation is

a change in the work environment or in the way things are customarily done that would enable a qualified individual with a disability to enjoy equal employment opportunities. There are three categories of reasonable accommodations:

- Modifications or adjustments to a job application process for a qualified individual with a disability to be considered for a job (such as providing application forms in alternative formats like large print or Braille);
- Modifications or adjustments necessary to enable a qualified individual with a disability to perform the essential functions of the job (such as providing sign language interpreters); and
- Modifications or adjustments that enable qualified employees with disabilities to enjoy equal benefits and privileges of employment (such as removing physical barriers in an office or cafeteria).

The SSA will process requests for reasonable accommodations and, where appropriate, provide reasonable accommodations to qualified employees and applicants for employment in a prompt, fair and efficient manner.

B. Collection and Maintenance of the Data for the Proposed New System of Records Entitled the RAPD System

SSA will collect and maintain the information that will be housed in the RAPD System from employees who have requested reasonable accommodation from SSA officials.

The information maintained in this system of records will be maintained in manual and electronic formats and will include information on all reasonable accommodation requests made by employees. Specifically, it will contain: (1) The employee's name, Social Security number (SSN), medical information collected in the process, number and type of requests made, whether those requests have been granted or denied; (2) the jobs (occupational series, grade level, and Agency component) for which reasonable accommodations have been requested; (3) the types of reasonable accommodations that have been requested for each of those jobs; (4) the number and types of reasonable accommodation requests for each job, by Agency component, that have been approved, and the number and types of requests that relate to the benefits or privileges of employment, and whether those requests have been granted or denied; (5) the number and types of requests that relate to the benefits or privileges of employment, and whether those requests have been granted or denied; (6) reasons for denial; (7) amount of time to process each request; and (8) sources of technical assistance
