Effective on November 1, 2005, you are directed to exempt from the 2005 restraint established for category 647/648 goods manufactured in China, goods that meet the definition of ski/snowboard pants, provided below, classified in items 6203.43.3510, 6204.63.3010, 6210.40.5031, and 6210.50.5031 of the Harmonized Tariff Schedule of the United States and trousers imported as parts of ski-suits, classified in items 6211.20.1525 and 6211.20.1555. You are further directed to release from the embargo on category 647/648 and allow entry of such ski and snowboard pants, produced or manufactured in the People's Republic of China and entered for consumption or withdrawn from warehouse for consumption into the United States on and after November 1, 2005.

*Definition:*

For the purposes of headings 6203.43.3510, 6204.63.3010, 6210.40.5031, and 6210.50.5031:

The term "ski/snowboard pants" means ankle-length pants made of synthetic fabrics, with or without insulation for cold weather protection, with zippered or hook and loop enclosed pockets, sealed seams and hidden elastic leg sleeves, and with one or more of the following: side openings, scuff guards or reinforcement in the seat. A sealed seam is one that has been covered, on the backside of the fabric, with tape or a coating to "bridge" the seam so that air and water cannot pass through. The tape or coating may be applied using heat and/or pressure.

The Committee for the Implementation of Textile Agreements has determined that this action falls within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,  
James C. Leonard III,  
*Chairman, Committee for the  
Implementation of Textile Agreements.*

### Submission for OMB Review; Comment Request

**AGENCY:** Department of Education.

**SUMMARY:** The Leader, Information Management Case Services Team,

Regulatory Information Management Services, Office of the Chief Information Officer invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

**DATES:** Interested persons are invited to submit comments on or before December 1, 2005.

**ADDRESSES:** Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Rachel Potter, Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, NW., Room 10222, New Executive Office Building, Washington, DC 20503 or faxed to (202) 395-6974.

**SUPPLEMENTARY INFORMATION:** Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Dated: October 26, 2005.

## DEPARTMENT OF ENERGY

[OE Docket No. PP-305]

### Application for Presidential Permit; Montana Alberta Tie Ltd.

**AGENCY:** Office of Electricity Delivery and Energy Reliability, DOE.

**ACTION:** Notice of application.

**SUMMARY:** Montana Alberta Tie Ltd. (MATL) has applied for a Presidential permit to construct, operate, maintain, and connect an electric transmission line across the U.S. border with Canada.

**DATES:** Comments, protests, or requests to intervene must be submitted on or before December 1, 2005.

**ADDRESSES:** Comments, protests, or requests to intervene should be addressed as follows: Office of Electricity Delivery and Energy Reliability (OE-20), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350.

**FOR FURTHER INFORMATION CONTACT:** Ellen Russell (Program Office) (202)

586-9624 or Michael T. Skinker (Program Attorney) (202) 586-2793.

**SUPPLEMENTARY INFORMATION:** The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (EO) 10485, as amended by EO 12038.

On October 7, 2005, MATL, a Canadian corporation, filed an application with the Office of Electricity Delivery and Energy Reliability (OE) of the Department of Energy (DOE) for a Presidential permit. MATL proposes to construct a single-circuit 230-kilovolt (230-kV) electric transmission line across the U.S.-Canada international border.

The MATL transmission line project would connect the Alberta Interconnected Electrical System and NorthWestern Energy's (NWE) transmission system. NWE is a U.S. investor-owned utility serving electric customers in Montana, South Dakota and Nebraska. The proposed international transmission line would originate at a new substation to be constructed northeast of Lethbridge, Alberta, Canada, cross the U.S.-Canada international border directly north of Cut Bank, Montana (west of Sweetgrass, Montana) and extend approximately 125 miles into the U.S., terminating at an existing 230-kV substation owned by NWE north of Great Falls, Montana. Between the U.S.-Canada border and Great Falls, the transmission line would also connect to an existing substation owned by Glacier Electric Cooperatives in Cut Bank, Montana. A phase shifting transformer would be installed at the substation in Lethbridge, Alberta, to control power flows between the two regions.

MATL has indicated its intention to operate the proposed facilities as a merchant transmission line and make it available for third-party use. MATL has not applied to DOE under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) for authorization to export electric energy over the proposed facilities. If DOE were to grant the requested Presidential permit and MATL were to subsequently construct the proposed international transmission line, any person wishing to export electric energy to Canada utilizing those facilities would need to obtain export authority from DOE under section 202(e) of the FPA.

## Procedural Matters

Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Additional copies of such petitions to intervene or protests also should be filed directly with: Mr. Bob Williams, Vice President Regulatory, Montana Alberta Tie Ltd., Rocky Mountain Plaza, Suite 800, 615 Macleod Trail SE., Calgary, Alberta, Canada AND Richard P. Sparling, Alston & Bird LLP, 601 Pennsylvania Avenue NW., North Building, 10th Floor, Washington, DC 20004-2601.

Before a Presidential permit may be issued or amended, the DOE must determine that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system. In addition, DOE must consider the environmental impacts of the proposed action (i.e., granting the Presidential permit, with any conditions and limitations, or denying the permit) pursuant to the National Environmental Policy Act (NEPA). DOE also must obtain the concurrence of the Secretary of State and the Secretary of Defense before taking final action on a Presidential permit application.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above. In addition, the application may be reviewed or downloaded electronically at <http://www.fe.doe.gov/programs/electricityregulation/>. Upon reaching the home page, select "Pending Proceedings."

Dated: Issued in Washington, DC, on October 26, 2005.
