Filing Information

As a courtesy, we are making information related to Sunset proceedings, including copies of the Department's regulations regarding Sunset Reviews (19 CFR 351.218) and *Sunset Policy Bulletin*, the Department's schedule of Sunset Reviews, case history information (*i.e.*, previous margins, duty absorption determinations, scope language, import volumes), and service lists available to the public on the Department's sunset Internet website at the following address: "<http://ia.ita.doc.gov/sunset/>." All submissions in these Sunset Reviews must be filed in accordance with the Department's regulations regarding format, translation, service, and certification of documents. These rules can be found at 19 CFR 351.303.

Pursuant to 19 CFR 351.103(c), the Department will maintain and make available a service list for these proceedings. To facilitate the timely preparation of the service list(s), it is requested that those seeking recognition as interested parties to a proceeding contact the Department in writing within 15 days of the publication of the Notice of Initiation.

Because deadlines in Sunset Reviews can be very short, we urge interested parties to apply for access to proprietary information under administrative protective order ("APO") immediately following publication in the **Federal Register** of the notice of initiation of the sunset review. The Department's regulations on submission of proprietary information and eligibility to receive access to business proprietary information under APO can be found at 19 CFR 351.304-306.

Information Required from Interested Parties

Domestic interested parties (defined in section 771(9)(C), (D), (E), (F), and (G) of the Act and 19 CFR 351.102(b)) wishing to participate in these Sunset Reviews must respond not later than 15 days after the date of publication in the **Federal Register** of this notice of initiation by filing a notice of intent to participate. The required contents of the notice of intent to participate are set forth at 19 CFR 351.218(d)(1)(ii). In accordance with the Department's regulations, if we do not receive a notice of intent to participate from at least one domestic interested party by the 15-day deadline, the Department will automatically revoke the orders without further review. See 19 CFR 351.218(d)(1)(iii).

If we receive an order-specific notice of intent to participate from a domestic interested party, the Department's regulations provide that *all parties* wishing to participate in the Sunset Review must file complete substantive responses not later than 30 days after the date of publication in the **Federal Register** of this notice of initiation. The required contents of a substantive response, on an order-specific basis, are set forth at 19 CFR 351.218(d)(3). Note that certain information requirements differ for respondent and domestic parties. Also, note that the Department's information requirements are distinct from the Commission's information requirements. Please consult the Department's regulations for information regarding the Department's conduct of Sunset Reviews.¹ Please

¹ In comments made on the interim final sunset regulations, a number of parties stated that the proposed five-day period for rebuttals to substantive responses to a notice of initiation was insufficient. This requirement was retained in the final sunset regulations at 19 CFR 351.218(d)(4). As

consult the Department's regulations at 19 CFR Part 351 for definitions of terms and for other general information concerning antidumping and countervailing duty proceedings at the Department.

This notice of initiation is being published in accordance with section 751(c) of the Act and 19 CFR 351.218(c).

Dated: October 24, 2005.

Holly A. Kuga,

*Senior Office Director AD/CVD Operations,
Office 4, for Import Administration.*

DEPARTMENT OF COMMERCE

International Trade Administration

Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Advance Notification of Sunset Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Upcoming Sunset Reviews.

SUMMARY: Every five years, pursuant to section 751(c) of the Tariff Act of 1930, as amended, the Department of Commerce ("the Department") and the International Trade Commission automatically initiate and conduct a review to determine whether revocation of a countervailing or antidumping duty order or termination of an investigation suspended under section 704 or 734 would be likely to lead to continuation or recurrence of dumping or a

provided in 19 CFR 351.302(b), however, the Department will consider individual requests for extension of that five-day deadline based upon a showing of good cause.

countervailable subsidy (as appropriate) and of material injury. As a courtesy, the Department provides advance notice of the cases that are scheduled for sunset reviews one month before those reviews are initiated.

FOR FURTHER INFORMATION CONTACT: Zev Primor, Office 4, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce at (202) 482-4114.

Upcoming Sunset Reviews

There are no sunset reviews scheduled for initiation in December 2005.

For information on the Department's procedures for the conduct of sunset reviews, See 19 CFR 351.218. This notice is not required by statute but is published as a service to the international trading community. Guidance on methodological or analytical issues relevant to the Department's conduct of sunset reviews is set forth in the Department's Policy Bulletin 98.3, "Policies Regarding the Conduct of Five-Year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders;" Policy Bulletin, 63 FR 18871 (April 16, 1998) ("Sunset Policy Bulletin"). The Notice of Initiation of Five-Year ("Sunset") Reviews provides further information regarding what is required of all parties to participate in sunset reviews.

Dated: October 19, 2005.

Holly A. Kuga,

Senior Office Director, AD/CVD Operations, Office 4, for Import Administration.

Notice of Final Determination of Sales at Less Than Fair Value: Superalloy Degassed Chromium from Japan

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: November 1, 2005.

SUMMARY: The Department of Commerce determines that imports of superalloy degassed chromium from Japan are being, or are likely to be, sold in the United States at less than fair value, as provided in section 735 of the Tariff Act of 1930, as amended (the Act). The final weighted-average dumping margins are listed below in the section entitled "Final Determination of Investigation."

FOR FURTHER INFORMATION CONTACT: Janis Kalnins or Minoo Hatten, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-1392 or (202) 482-1690, respectively.

SUPPLEMENTARY INFORMATION:

Background

On August 18, 2005, the Department of Commerce (the Department) published the preliminary determination of sales at less than fair value (LTFV) in the antidumping investigation of superalloy degassed chromium from Japan. See *Notice of Preliminary Determination of Sales at Less Than Fair Value: Superalloy Degassed Chromium from Japan*, 70 FR 48538 (August 18, 2005) (*Preliminary Determination*). We requested that parties comment on the *Preliminary Determination*. We did not make a decision on scope-clarification comments submitted by parties prior to the *Preliminary Determination*, as there was insufficient information on the record to draw a conclusion. Therefore, we invited parties to provide any new factual information on this issue and scope comments.

We received new factual information and scope comments from Tosoh Corporation and Tosoh Specialty Materials Corporation (collectively, Tosoh) and from Eramet Marietta Inc. (Eramet) and the Paper Allied-Industrial Chemical and Energy Workers International Union (collectively, the petitioners). We did not receive any comments, scope or otherwise, from JFE Material Co., Ltd. (JFE Material), during this investigation. While Mitsui & Co. (U.S.A.), Inc. (Mitsui), submitted scope comments prior to the *Preliminary Determination*, we have not received any comments from Mitsui since the *Preliminary Determination*. On September 21, 2005, the petitioners requested a hearing to discuss scope comments or rebuttal comments raised by interested parties in the investigation but then withdrew their request for a hearing on September 30, 2005. We did not receive any case or rebuttal briefs from any interested parties.

Scope Comments

All comments raised by parties to this investigation on superalloy degassed chromium from Japan are addressed in the Scope Comments Memorandum from Laurie Parkhill, Office Director, to Stephen J. Claeys, Deputy Assistant Secretary, dated October 25, 2005. As discussed in the Scope Comments Memorandum, the scope of the

investigation remains unchanged from our preliminary determination. This Scope Comments Memorandum, which is a public document, is on file in the Department's Central Records Unit, Herbert C. Hoover building, Room B-099.

Period of Investigation

The period of investigation is January 1, 2004, through December 31, 2004.

Scope of Investigation

The product covered by this investigation is all forms, sizes, and grades of superalloy degassed chromium from Japan. Superalloy degassed chromium is a high-purity form of chrome metal that generally contains at least 99.5 percent, but less than 99.95 percent, chromium. Superalloy degassed chromium contains very low levels of certain gaseous elements and other impurities (typically no more than 0.005 percent nitrogen, 0.005 percent sulphur, 0.05 percent oxygen, 0.01 percent aluminum, 0.05 percent silicon, and 0.35 percent iron). Superalloy degassed chromium is generally sold in briquetted form, as "pellets" or "compacts," which typically are 1½ inches x 1 inch x 1 inch or smaller in size and have a smooth surface. Superalloy degassed chromium is currently classifiable under subheading 8112.21.00 of the Harmonized Tariff Schedule of the United States (HTSUS). This investigation covers all chromium meeting the above specifications for superalloy degassed chromium regardless of tariff classification.

Certain higher-purity and lower-purity chromium products are excluded from the scope of this investigation. Specifically, the investigation does not cover electronics-grade chromium, which contains a higher percentage of chromium (typically not less than 99.95 percent), a much lower level of iron (less than 0.05 percent), and lower levels of other impurities than superalloy degassed chromium. The investigation also does not cover "vacuum melt grade" (VMG) chromium, which normally contains at least 99.4 percent chromium and contains a higher level of one or more impurities (nitrogen, sulphur, oxygen, aluminum and/or silicon) than specified above for superalloy degassed chromium.

Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Adverse Facts Available

For the final determination, we continue to find that, by failing to provide information we requested, JFE
