[Docket Nos. AI05-1-000 and AC06-5-000]

Jurisdictional Public Utilities and Licensees; Natural Gas Companies Oil Pipeline Companies; El Paso Natural Gas Company; Notice of Accounting Assessment Costs

October 21, 2005.

Take notice that on October 19, 2005, El Paso Natural Gas Company (El Paso) tendered for filing a request for approval by the Chief Accountant to adopt the provisions of the June 30, 2005 Order under Docket No. AI05-1-00, effective December 1, 2005.¹

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. Standards of Conduct for Transmission Providers; Enbridge Inc. and Enbridge Energy Partners, L.P.; Notice Granting Waiver of Recordkeeping Requirements

October 24, 2005.

On October 18, 2005, Enbridge Inc. and Enbridge Energy Partners, L.P. (collectively, Enbridge), on behalf of certain of their respective Offshore Pipelines,¹ filed to seek a temporary emergency waiver of section 358.4(a)(2) of the Commission's regulations and for any other waivers necessary for Enbridge to proceed with the restoration work on its Offshore Pipelines. Enbridge requests that the waivers begin October 7, 2005 and continue until the earlier of the end of the gas day on March 31, 2006 (the last day of the 2005-2006 winter heating season) or the date on which the throughput expected for the particular pipeline is fully restored. Effective on the date of this notice, the Commission will grant each of the Enbridge Offshore Pipelines a waiver of the otherwise applicable requirements of section 358.4(a)(2) to record a log of emergency-related deviations from the Standards of Conduct and to post these deviations on their Web sites; this extension will expire individually for each pipeline on the earlier of when that pipeline has completed its hurricane-related repairs and is ready to return to service, or January 13, 2006.

Enbridge explains that, in the area impacted by Hurricanes Katrina and Rita, the Offshore Pipelines are either off-line entirely or are continuing to experience throughput that is substantially lower than the throughput projected for these pipelines prior to the

hurricanes.² Enbridge explains further, that, as a result of the substantial damage caused to the energy infrastructure in the Gulf Coast area, the Offshore Pipelines are suffering emergencies affecting their systems' reliability. Enbridge states that it is necessary for the Offshore Pipeline employees who are assisting in the restoration efforts to communicate with other Enbridge employees and with third-party employees about the status of the restoration efforts and to coordinate joint operations and repair work, without regard to their designation under the Standards of Conduct. Enbridge states that the requirement to log each individual deviation would be burdensome and would complicate the Offshore Pipelines' restoration efforts. Enbridge notes that its waiver is limited to those employees involved in the ongoing restoration efforts and the communications required in connection with that effort. Enbridge states that the affected employees will observe the no-conduit requirement in the Standards of Conduct.

Due to the emergency conditions in Louisiana and Texas created by Hurricane Rita, on September 23, 2005, the Commission issued a notice that, among other things, allowed affected transmission providers to delay, until October 7, 2005, compliance with the requirement of section 358.4(a)(2) of the Commission's regulations, 18 CFR 358.4(a)(2) (2005), to report to the Commission and post on the OASIS or Internet Web site, as applicable, each emergency that resulted in any deviation from the Standards of Conduct.³ Due to the extreme nature of the emergency, the Commission also waived, until October 7, 2005, the requirements to record and retain a record of each deviation of the Standards of Conduct.⁴ The notice added that the Commission would consider extending the waiver if it continued to be needed after October 7, 2005. The Commission had previously granted similar waivers due to Hurricane Katrina.⁵

² Enbridge states that the Offshore Pipelines are currently experiencing approximately 1,315,000 Dth/d in decreased throughput due to hurricane-related damage along the Gulf Coast and in the Gulf of Mexico.

Based on available information regarding the expected restoration dates for Enbridge's pipeline operations, the Commission grants Enbridge a waiver of the recording and posting requirements of section 358.4(a)(2) of the Commission's regulations under these emergency circumstances effective on the date of this notice until the earlier of January 13, 2006, or the date on which each individual offshore pipeline's hurricane-related repairs are completed and that pipeline is ready to return to service, without prejudice to Enbridge requesting a further extension, if necessary.
