

committees, compliance reports, routine correspondence and subject files, recipient files and non-winner applications for education awards, routine photographs, project contract files, member and non-member applications, referral case files, project evaluation development records and tracking databases. Also included are electronic copies of records created using electronic mail and word processing. Proposed for permanent retention are recordkeeping copies of executive leadership files, including board of trustees meeting minutes, program and policy reports, high level correspondence, subject files, organizational records of advisory committees, executive management team files, records of the legal counsel, publications, speeches, news releases, and video recordings. Also proposed for permanent retention are recordkeeping copies of photographs at official events, subject files of the education program, correspondence and subject files of the director of the United States Institute for Environmental Conflict Resolution, project case files, records relating to roster development for the National Roster of the Environmental Dispute Resolution and Consensus Building Professionals, and evaluation reports.

18. National Archives and Records Administration, Office of Regional Records Services (N1-64-05-9, 6 items, 6 temporary items). Inputs, master files, documentation, and electronic mail and word processing copies associated with an electronic information system used to collect data and bill agencies for the storage and servicing of records at federal records centers.

19. Small Business Administration (N1-309-05-16, 8 items, 8 temporary items). Inputs, outputs, master files, backups, documentation, and electronic mail and word processing copies associated with an electronic system used by the Office of Capital Access to capture and track information on small business investment companies.

20. Tennessee Valley Authority, Fossil Power Group (N1-142-04-9, 4 items, 4 temporary items). Forms used to set relays and other protective devices at fossil power plants. Also included are electronic copies of records created using electronic mail and word processing.

21. Tennessee Valley Authority, TVA Nuclear (N1-142-05-3, 3 items, 3 temporary items). Electronic copies of records created using electronic mail and word processing that are associated with nuclear power recorder charts. This schedule reduces the retention period for recordkeeping copies of these files, which were previously approved

for disposal, as the same information is retained in quality assurance records for 75 years. This schedule also extends the retention period for recordkeeping copies of nuclear power plant work orders, which were previously approved for disposal.

Dated: October 18, 2005.

Background

On October 9, 2004, the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (NDAA) was passed by Congress and was signed by the President on October 28, 2004. Section 3116 of the NDAA allows the U.S. Department of Energy (DOE) to determine that certain waste stemming from reprocessing of spent nuclear fuel

is not high-level-waste (HLW). However, the NDAA is applicable only in the States of South Carolina and Idaho and does not apply to waste transported out of these States. The NDAA requires that: (1) DOE consult with NRC on all of its waste determinations in South Carolina and Idaho, and (2) NRC, in coordination with the State, monitor disposal actions taken by DOE for the purpose of assessing compliance with NRC regulations in 10 CFR part 61, subpart C. If the NRC determines that any disposal actions taken by DOE are not in compliance, the NDAA requires NRC to inform DOE, the affected State, and congressional subcommittees. In addition to NDAA activities conducted at the Savannah River Site (SRS) and Idaho National Laboratory (INL), DOE may make similar waste determinations at its Hanford site and at the West Valley Demonstration Project (WVDP) and may request NRC to provide technical reviews of those determinations. The staff has described its plans for implementing its activities under the NDAA in SECY-05-0073 and the Commission approved the plans in the corresponding Staff Requirements Memorandum dated June 30, 2005.

The NRC staff is developing a waste determination Standard Review Plan (SRP) to provide guidance to staff on reviewing waste determination information and analyses. This meeting is an opportunity for interested parties to submit comments on the scope of the SRP. The draft SRP will also be published for public comment and the comments received will be considered by the staff during development of the final SRP.

The SRP scoping meeting officially begins at 1 p.m. and will include: (1) A presentation summarizing NRC roles and responsibilities, (2) an overview of the proposed draft SRP, and (3) an opportunity for interested government agencies, organizations, and individuals to provide comments on the scope of the SRP. This meeting will be transcribed by a court reporter. Persons wishing to provide oral comments will be asked to register at the meeting entrance. Individual oral comments may have to be limited to 5 minutes each, depending upon the number of persons who register. Please note that comments do not have to be provided at the public meeting and may be submitted at any time before November 25, 2005, as described in the **DATES** and **ADDRESSES** sections of this notice.

DATES: The public comment period on the SRP begins with publication of this notice and continues until November 25, 2005. Written comments should be submitted as described in the **ADDRESSES** section of this notice. Comments submitted by mail should be postmarked by that date to ensure consideration. Comments received or postmarked after that date will be considered to the extent practical. A public meeting to discuss the proposed draft SRP will be held on November 10, 2005 as described in the **SUMMARY** section of this notice.

ADDRESSES: Members of the public are invited and encouraged to submit comments to the Division of Waste Management and Environmental Protection, Low-Level Waste Section

Chief, Mail Stop T7-J08, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Please note Docket No. POOM-32, PROJ0734, PROJ0735, PROJ0736 when submitting comments. Comments will also be accepted by e-mail at AHB1@nrc.gov or by facsimile to (301) 415-5397, Attention: Anna Bradford with a subject line containing the document identifier: SRP.

FOR FURTHER INFORMATION CONTACT: For questions related to the Standard Review Plan, please contact Anna Bradford at (301) 415-5228. For public scoping meeting questions, please contact Michele O'Shaughnessy at (301) 415-6659.
