

kooyoomjian.jack@epa.gov. General information concerning the SAB can be found on the SAB Web site at: <http://www.epa.gov/sab>. Technical Contact: For questions and information concerning the document being reviewed, contact Dr. Mary E. Clark, U.S. EPA, ORIA by telephone at (202) 343-9348, fax at (202) 243-2395, or e-mail at *clark.marye@epa.gov*.

SUPPLEMENTARY INFORMATION:

Summary: EPA's ORIA has requested EPA's Science Advisory Board to review its draft report "Expansion and Upgrade of the RadNet Air Monitoring Network," (Vols. 1 & 2), dated October 2005. The purpose of the upcoming teleconference is for the RAC's RadNet Review Panel to be briefed on the document to be reviewed and to clarify the charge to the Panel. The purpose of the upcoming face-to-face meeting is to allow the SAB RAC RadNet Review Panel to conduct a peer review of the document. Meeting agendas and background information for the teleconference and face-to-face meetings will be posted on the SAB Web site at: <http://www.epa.gov/sab> prior to the meetings.

The SAB was established by 42 U.S.C. 4365 to provide independent scientific and technical advice, consultation, and recommendations to the EPA Administrator on the technical basis for Agency positions and regulations. The review will be conducted by the RAC's RadNet Review Panel, consisting of current SAB RAC members and additional outside experts. The Panel will comply with the provisions of the Federal Advisory Committee Act (FACA) and all appropriate SAB procedural policies. As such, all public meetings will be announced in the **Federal Register** at least 15 days prior to their scheduled times.

Background: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, the SAB Staff Office hereby gives notice of a public meeting of the Radiation Advisory Committee (RAC) RadNet Review Panel. The EPA ORIA requested the SAB to provide advice on RadNet, which is the National Monitoring System (NMS) upgrade, formerly known as the Environmental Radiation Ambient Monitoring System (ERAMS). The RAC's RadNet Review Panel will review the draft document entitled "Expansion and Upgrade of the RadNet Air Monitoring Network," (Vols. 1 & 2), dated October 2005. Additionally, the RAC will receive a program update and briefing related to ORIA program activities within the EPA for the coming year on the morning of December 21, 2005.

Additional background information on this review include notification of a

public teleconference meeting of the RAC to receive briefings from the Agency and discuss its advisory agenda for FY 2005 [70 FR 4847, January 31, 2005], as well as a request for nominations of experts [70 FR 15083, March 24, 2005].

Persons who wish to obtain additional background materials on the current ERAMS network may find them at the following Web site: <http://www.epa.gov/nare/eram/index.html>. Copies of the materials provided to the RAC's RadNet Review Panel, including the Agency's draft document entitled "Expansion and Upgrade of the RadNet Air Monitoring Network," (Vols. 1 & 2), dated October 2005, as well as briefing materials and other background materials pertinent to the activities announced in this notice may be requested from Dr. Mary E. Clark of the U.S. EPA, ORIA by telephone at (202) 343-9348, fax at (202) 243-2395, or e-mail at *clark.marye@epa.gov*.

Procedures for Providing Public Comment: The SAB Staff Office accepts written public comments of any length for consideration by the Panel and accommodates oral comments whenever possible. The EPA SAB Staff Office expects the public statements presented at SAB meetings will not repeat previously-submitted oral or written statements. Oral Comments: Requests to provide oral comment must be in writing (e-mail or fax) and received by Dr. Kooyoomjian at the contact information noted above no later than November 23, 2005 for the December 1, 2005 teleconference call, and December 12, 2005 for the December 19 to 21, 2005 meeting. Oral presentation at a teleconference meeting will usually be limited to three minutes per speaker or organization for a total of no more than fifteen minutes for all speakers. Written Comments: Written comments should be received by Dr. Kooyoomjian at the contact information noted above no later than November 23, 2005 for the December 1, 2005 teleconference call, and December 12, 2005 for the December 19 to 21, 2005 meeting so that comments may be made available to the Panelists for their consideration. Written comments should be received by Dr. Kooyoomjian (preferably by e-mail) at the address and contact information provided above in the following formats: one hard copy with original signature, and one electronic copy via e-mail (acceptable file format: Adobe Acrobat PDF, WordPerfect, Word, or Rich Text files (in IBM-PC/Windows 98/2000/XP format)). Those providing written comments and who attend the meeting are also asked to bring 35 copies of their comments for public distribution.

Meeting Access: Individuals requiring special accommodation to access the public teleconference or public meeting should contact Dr. Kooyoomjian at least five business days prior to the meeting, so that appropriate arrangements can be made. For information on access or services for individuals with disabilities, please contact Dr. K. Jack Kooyoomjian at 202-343-9984 or *kooyoomjian.jack@epa.gov* to request accommodation of a disability. Such accommodation is required by sections 504 and 508 of the Rehabilitation Act of 1973, 29 U.S.C. 794 and 794d, EPA's implementing regulations, 40 CFR part 12, and the federal standards for "Electronic and Information Technology Accessibility," 36 CFR part 1194, which govern accessibility and accommodation in relation to EPA programs and activities, such as Federal Advisory Committee meetings.

Dated: November 8, 2005.

Anthony F. Maciorowski,

Associate Director for Science, EPA Science Advisory Board Staff Office.

[FR Doc. 05-22702 Filed 11-15-05; 8:45 am]

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[OPP-2005-0265; FRL-7746-4]

Dicloran Risk Assessments; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's risk assessment(s), and related documents for the nitroaniline pesticide dicloran, and opens a public comment period on these documents. The public is encouraged to suggest risk management ideas or proposals to address the risks identified. EPA is developing a Reregistration Eligibility Decision (RED) for dicloran through a modified, 4-Phase public participation process that the Agency uses to involve the public in developing pesticide reregistration and tolerance reassessment decisions. Through these programs, EPA is ensuring that all pesticides meet current health and safety standards.

DATES: Comments, identified by docket identification (ID) number OPP-2005-0265, must be received on or before January 17, 2006.

ADDRESSES: Comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in

Unit I. of the **SUPPLEMENTARY INFORMATION.**

FOR FURTHER INFORMATION CONTACT: Patrick Dobak, Special Review and Reregistration Division (7508C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-8180; fax number: (703) 308-8041; e-mail address: dobak.pat@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT.**

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket ID number OPP-2005-0265. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments,

access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket ID number.

Certain types of information will not be placed in the EPA Dockets. Information claimed as CBI and other information whose disclosure is restricted by statute, which is not included in the official public docket, will not be available for public viewing in EPA's electronic public docket. EPA's policy is that copyrighted material will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. To the extent feasible, publicly available docket materials will be made available in EPA's electronic public docket. When a document is selected from the index list in EPA Dockets, the system will identify whether the document is available for viewing in EPA's electronic public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. EPA intends to work towards providing electronic access to all of the publicly available docket materials through EPA's electronic public docket.

For public commenters, it is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EPA's electronic public docket as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EPA's electronic public docket. The entire printed comment, including the copyrighted material, will be available in the public docket.

Public comments submitted on computer disks that are mailed or delivered to the docket will be transferred to EPA's electronic public docket. Public comments that are mailed or delivered to the docket will be scanned and placed in EPA's electronic public docket. Where practical, physical objects will be photographed, and the photograph will be placed in EPA's electronic public docket along with a brief description written by the docket staff.

C. How and to Whom Do I Submit Comments?

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments. If you wish to submit CBI or information that is otherwise protected by statute, please follow the instructions in Unit I.D. Do not use EPA Dockets or e-mail to submit CBI or information protected by statute.

1. *Electronically.* If you submit an electronic comment as prescribed in this unit, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *EPA Dockets.* Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket/>, and follow the online instructions for submitting comments. Once in the system, select "search," and then key in docket ID number OPP-2005-0265. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

ii. *E-mail.* Comments may be sent by e-mail to opp-docket@epa.gov, Attention: Docket ID Number OPP-2005-0265. In contrast to EPA's electronic public docket, EPA's e-mail system is not an "anonymous access"

system. If you send an e-mail comment directly to the docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

iii. *Disk or CD ROM.* You may submit comments on a disk or CD ROM that you mail to the mailing address identified in Unit I.C.2. These electronic submissions will be accepted in WordPerfect or ASCII file format. Avoid the use of special characters and any form of encryption.

2. *By mail.* Send your comments to: Public Information and Records Integrity Branch (PIRIB) (7502C), Office of Pesticide Programs (OPP), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001, Attention: Docket ID Number OPP-2005-0265.

3. *By hand delivery or courier.* Deliver your comments to: Public Information and Records Integrity Branch (PIRIB), Office of Pesticide Programs (OPP), Environmental Protection Agency, Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA, Attention: Docket ID Number OPP-2005-0265. Such deliveries are only accepted during the docket's normal hours of operation as identified in Unit I.B.1.

D. How Should I Submit CBI to the Agency?

Do not submit information that you consider to be CBI electronically through EPA's electronic public docket or by e-mail. You may claim information that you submit to EPA as CBI by marking any part or all of that information as CBI (if you submit CBI on disk or CD ROM, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA's electronic public docket. If you submit the copy that does not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's electronic public docket without prior

notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT.**

E. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at your estimate.
5. Provide specific examples to illustrate your concerns.
6. Offer alternatives.
7. Make sure to submit your comments by the comment period deadline identified.
8. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your response. It would also be helpful if you provided the name, date, and **Federal Register** citation related to your comments.

II. Background

A. What Action is the Agency Taking?

EPA is releasing for public comment its human health and environmental fate and effects risk assessments and related documents for dicloran, and soliciting public comment on risk management ideas or proposals. Dicloran is a contact fungicide used on a broad variety of fruits, vegetables, nuts and ornamental plants. EPA developed the risk assessments and risk characterization for dicloran through a modified version of its public process for making pesticide reregistration eligibility and tolerance reassessment decisions. Through these programs, EPA is ensuring that pesticides meet current standards under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA).

Dicloran is a fungicide registered for use on apricots, celery, cucumbers, endive, fennel, florence, garlic, grapes, lettuce, nectarines, onions, peaches, plums, potatoes, prunes, rhubarb, shallots, snap beans, sweet cherries, and sweet potatoes. The chief uses are on celery and lettuce. Along with pre-harvest uses, dicloran may also be applied post-harvest to fruits, carrots

and sweet potatoes. In addition, it may be applied to ornamental plants in nursery settings. These crops consist of chrysanthemums, geraniums, roses, gladiolus, hydrangeas and conifers. There are no residential dicloran uses.

EPA is providing an opportunity, through this notice, for interested parties to provide comments and input on the Agency's risk assessments for dicloran. Such comments and input could address, for example, the availability of additional information to further refine the risk assessments, such as the pesticide degradation properties, residue decline (after application) information, human exposure information including incidents, and chronic ecotoxicity data to plants and animals, or could address the Agency's risk assessment methodologies and assumptions as applied to this specific pesticide.

Through this notice, EPA also is providing an opportunity for interested parties to provide risk management proposals or otherwise comment on risk management for dicloran. Risks of concern associated with the use of dicloran are: Chronic risks to mixers, loaders, and applicators for the crops with the highest potential seasonal application rates. These crops include celery, potatoes, florence, and fennel. Risks to agricultural workers re-entering treated areas for several crop groups are also identified, particularly for cut flowers and potted plants. Potential ecological risks identified included freshwater and estuarine/marine fish and amphibians, birds and reptiles, and mammals. Chronic risks to freshwater and estuarine/marine fish and invertebrates as well as aquatic vascular and nonvascular plants, and terrestrial and semi-aquatic plants could not be assessed because of a lack of data. In targeting these risks of concern, the Agency solicits information on effective and practical risk reduction measures.

EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of all people, regardless of race, color, national origin, or income, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical, unusually high exposure to dicloran, compared to the general population.

EPA is applying the principles of public participation to all pesticides undergoing reregistration and tolerance

reassessment. The Agency's Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004, (69 FR 26819)(FRL-7357-9) explains that in conducting these programs, the Agency is tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of the issues, and degree of public concern associated with each pesticide. For dicloran, a modified, 4-Phase process with one comment period and ample opportunity for public consultation seems appropriate in view of its limited use, and few complex issues. However, if as a result of comments received during this comment period EPA finds that additional issues warranting further discussion are raised, the Agency may lengthen the process and include a second comment period, as needed.

All comments should be submitted using the methods in Unit I. of the **SUPPLEMENTARY INFORMATION**, and must be received by EPA on or before the closing date. Comments will become part of the Agency Docket for dicloran. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA as amended directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Section 408(q) of the FFDCA, 21 U.S.C. 346a(q), requires EPA to review tolerances and exemptions for pesticide residues in effect as of August 2, 1996, to determine whether the tolerance or exemption meets the requirements of section 408(b)(2) or (c)(2) of FFDCA. This review is to be completed by August 3, 2006.

List of Subjects

Environmental protection, Pesticides and pests.

November 7, 2005.

Peter Caulkins,

Acting Director, Special Review and Reregistration Division, Office of Pesticide Programs.

Chloroneb; Reregistration Eligibility Decision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's Reregistration Eligibility Decision (RED) for the pesticide chloroneb. The Agency's risk assessments and other related documents are also available in the chloroneb docket. Chloroneb (1,4-dichloro-2,5-dimethoxybenzene) is a systemic fungicide currently registered for seed treatment uses on beans (including cowpeas), cotton, lupine, soybeans, and sugar beets to protect against a variety of diseases such as seed rot, damping-off, blights, and other seedling diseases. Chloroneb is also registered on golf course and turf grasses, as well as ornamental plants to control blights. EPA has reviewed chloroneb through the public participation process that the Agency uses to involve the public in developing pesticide reregistration and tolerance reassessment decisions. Through these programs, EPA is ensuring that all pesticides meet current health and safety standards.

FOR FURTHER INFORMATION CONTACT: Wilhelmena Livingston, Special Review and Reregistration Division (7508C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-8025; fax number: (703) 308-8041; e-mail address: livingston.wilhelmena@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket identification (ID) number OPP-2004-0369. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

II. Background

A. What Action is the Agency Taking?

Under section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is reevaluating existing pesticides to ensure that they meet current scientific and regulatory standards. EPA has completed a Reregistration Eligibility Decision (RED) for the pesticide, chloroneb under section 4(g)(2)(A) of FIFRA. The Agency has conducted human health and ecological risk assessments for chloroneb for the purposes of making a reregistration decision. The Agency has concluded its reregistration eligibility decision for chloroneb and determined that the chemical is eligible for reregistration provided that: (1) Current
