SUPPLEMENTARY INFORMATION: The proposed action is the Navy's employment of up to four SURTASS LFA sonar systems in the oceanic areas of the Pacific, Atlantic, and Indian oceans, and the Mediterranean Sea. The purposes of this supplemental analysis are to respond to deficiencies noted by the U.S. District Court of the Northern District of California's August 2003 Opinion and Order; include analysis of potential system upgrades; provide necessary information for compliance

under the Marine Mammal Protection Act as amended; and provide additional information and analyses pertinent to the proposed action.

The Draft SEIS provides an analysis of the proposed alternatives for the employment of SURTASS LFA sonar. In addition to the No Action alternative, four alternatives were analyzed to satisfy the Court's findings and to determine the potential effects of changes to the proposed action. These alternatives include coastline standoff restrictions of 22 and 46 kilometers (12 and 25 nautical miles), seasonal variations, and additional offshore biologically important areas.
