Amex represents that the proposed options licensing fees would allow the Exchange to recoup its costs in connection with the index license fees for the trading of PXN and PPA options. The fees would be collected on every Market Participant order executed on the Exchange. The Exchange believes that requiring the payment of a per-contract licensing fee in connection with PXN and PPA options by those Market Participants that benefit from the index license agreements is justified and consistent with the rules of the Exchange.

The Exchange notes that, in recent years, it has revised a number of its fees to better align Amex fees with the actual cost of delivering services and reduce Amex's subsidization of such services.⁷ The Exchange represents that the implementation of this proposal is consistent with the reduction and/or elimination of these subsidies. Amex believes that these fees will help to allocate to those Market Participants engaging in transactions in PXN and PPA options a fair share of the related costs of offering such options for trading.

The Exchange asserts that the proposal provides for an equitable allocation of fees as required by section 6(b)(4) of the Act.⁸ In connection with the adoption of options licensing fees for PXN and PPA options, the Exchange notes that charging the options licensing fees, where applicable, to all Market Participant orders, except for customer orders, is reasonable given the competitive pressures in the industry. Accordingly, the Exchange seeks, through this proposal, to better align its transaction charges with the cost of providing trading products.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act⁹ in general, and furthers the objectives of section 6(b)(4) of the Act¹⁰ in particular, in that it provides for the equitable allocation of reasonable dues, fees, and other charges

⁷ See, e.g., Securities Exchange Act Release No. 45360 (January 29, 2002), 67 FR 5626 (February 6, 2002); Securities Exchange Act Release No. 44286 (May 9, 2001), 66 FR 27187 (May 16, 2001).

⁸ Section 6(b)(4) of the Act states that the rules of a national securities exchange must "provide for the equitable allocation of reasonable dues, fees, and other charges among its members and issuers and other persons using its facilities." 15 U.S.C. 78f(b)(4).

among its members and other persons using its facilities.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing proposed rule change has become effective pursuant to section 19(b)(3)(A)(ii) of the Act¹¹ and Rule 19b-4(f)(2)¹² thereunder because it establishes or changes a due, fee, or other charge imposed by the Exchange. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

³In Amendment No. 1, which replaced and superseded the original filing in its entirety, the Exchange amended the proposed rule text to add requirements that participants confirm whether an order was an agency or professional order; whether an order was short or short exempt; the market to which the order was transmitted; the identification of any party cancelling or modifying the order; the date and time of any order expiration; and the contra party to the execution (if applicable). The Exchange also added Interpretation and Policy .09 to confirm that the requirements of the proposed rule would not replace any record retention obligations to which the Exchange's participants may be subject under the Act and the rules thereunder. Finally, the Exchange replaced references to the Exchange's "members" with references to its "participants," reflecting changes in terminology associated with the Exchange's February 2005 demutualization. See Securities Exchange Act Release No. 51149 (February 8, 2005), 70 FR 7531 (February 14, 2005) (approval order for the Exchange's proposed rule changes in connection with its demutualization).

⁴In Amendment No. 2, which replaced and superseded the filing as amended by Amendment No. 1 in its entirety, the Exchange made minor changes to the proposed rule text, including (1) confirming that a participant must record any modifications to the date and time of any order expiration and (2) consistently capitalizing the word "Rule." In addition, the Exchange conformed the footnotes in the purpose section to reflect changes made to the rule language in Amendment No. 1. The substantive changes in Amendment No. 1 were included in Amendment No. 2.

executed pursuant to Section 11(a)(1)(G) of the Act and Rule 11a1-1(T) thereunder, shall bear an identifying notation that will enable the executing Participant to disclose to other Participants that the order is subject to those provisions.

.02 For purposes of this Rule, an order shall be any written, oral or electronic instruction to effect a transaction. A decision by a co-specialist, market maker or floor broker to buy or sell securities for his or her own account on the Floor of the Exchange shall not constitute an order for which a record must be made under this Rule.

.03 Each required record of the time of an event shall be expressed in terms of hours, minutes and seconds.

.04 This Rule shall not apply to orders sent or received through the Exchange's MAX system or through any other electronic systems that the Exchange expressly recognizes as providing the required information in a format acceptable to the Exchange. The Exchange will not recognize a non-Exchange system as providing information in an acceptable format unless that system has synchronized its business clocks for recording data with reference to a time source designated by the Exchange and maintains that synchronization in conformity with procedures prescribed by the Exchange.

.05 Any orders which the Exchange has expressly recognized as incompatible for entry in an Exchange system relied on by a Floor Participant to record the details of the order in compliance with this Rule shall be exempt from the order entry requirements of paragraph (b) above; provided, however, that Floor Participants shall retain a written record of those orders which includes as much of the information set out in paragraph (b) as is possible, but no less than the name and the amount of the security, the terms of the order, the time when such order was so given or transmitted, the date and time of any modifications or cancellations of the order, the date and time of execution and the execution price.

.06 With respect to a bona fide arbitrage order, a Floor Participant may execute such order before entering the order into an electronic system as required by paragraph (b) above, but such Floor Participant must enter such order into such electronic system no later than 60 seconds after the execution of such order. With respect to an order to offset a transaction made in error, a Floor Participant may, upon discovering such error within the same trading session, effect an offsetting transaction

without first entering such order into an electronic system, but such Floor Participant must enter such order into such electronic system no later than 60 seconds after the execution of such order.

.07 A Floor Participant who receives orders to buy and sell the same security and executes those orders in full immediately upon receipt shall record only the information set out in (b)(1), (2), (4), (9), (10) and (22) through (28) above.

.08 Failure to comply with the provisions of this Rule may be considered conduct inconsistent with just and equitable principles of trade, in violation of Article VIII, Rule 7.

.09 The provisions of this Rule do not replace any record retention obligations to which the Exchange's Participants may be subject under the Exchange Act and the rules thereunder.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CHX included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received regarding the proposal. The text of these statements may be examined at the places specified in Item IV below. The CHX has prepared summaries, set forth in Sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange's on-floor participants execute trades on the Exchange and on other markets.⁵ Currently, the Exchange's electronic systems capture information about most of the orders executed on the Exchange and about many of the orders executed in other markets. This information is used by the Exchange to conduct surveillance of its floor participants' trading activities. In some instances, however, the Exchange does not have complete information about the orders received and executed by its participants or does not have that information in electronic form. To bolster its ability to conduct automated surveillance of its participants' trading activities, the Exchange is proposing to require its floor participants to provide

⁵ On February 9, 2005, the Exchange's proposal to demutualize took effect. Under the Exchange's new rules, the Exchange's members are referred to as "participants."

particular data about all orders originating on or off the floor of the Exchange for execution on the Exchange, as well as all orders issued from the floor of the Exchange to any other market or trading venue.⁶ For purposes of this submission, these orders will be called "covered orders."

Specifically, through this submission, the Exchange is proposing to require floor participants to record, in electronic systems designated by the Exchange, the following details about each covered order: (1) The symbol of the security; (2) the clearing participant; (3) an order identifier that uniquely identifies the order;⁷ (4) the identity of the participant recording the order details; (5) the number of shares or quantity of the security; (6) the side of the market (*i.e.*, whether the order is a buy or sell order); (7) a designation of the order type (*e.g.*, market, limit, stop, stop limit); (8) whether the order is agency or professional;⁸ (9) whether the order is being handled pursuant to Section 11(a)(1)(G) of the Act and any applicable rules thereunder; (10) whether the order is short or short exempt; (11) whether the order is a bona fide arbitrage order; (12) any limit price and/or stop price; (13) the date and time of order receipt or transmission (as applicable); (14) the market, off-floor firm, or on-floor participant to which the order was transmitted or from which the order was received (if applicable); (15) the order's time in force; (16) any designation as held or not held; (17) any special conditions or instructions (*e.g.*, any customer display or do-not-display

⁶ The proposed rule, for example, would require a floor broker who receives an order from another participant (whether the participant is on-floor or off-floor) to record detailed information relating to the order, any changes to the order, and its execution. Similarly, if a floor broker receives an order and then transmits it to another market, he would be required to record information not only about the order, but about its transmission to another market and any execution that it received in that market. The proposed rule change is designed to provide a complete record of the handling of orders received by the Exchange's floor participants and, together with a recently-adopted rule, will provide a complete record of any orders sent by the Exchange's floor participants to other trading venues. See Securities Exchange Act Release No. 52534 (September 29, 2005), 70 FR 58500 (October 6, 2005) (SR-CHX-2004-25) (rule change relating to a prohibition on using a layoff service unless the service provides required information to the Exchange).

⁷ This order identifier does not change when modifications are made to the order, or when it is cancelled, allowing any changes to be tracked back to the original order.

⁸ The Exchange's rules define a "professional" order as one that is for the account of a broker-dealer, the account of an associated person of a broker-dealer, or any account in which a broker-dealer or an associated person of a broker-dealer has any direct or indirect interest. See CHX Article XXX, Rule 2, Interpretation and Policy .04.

instructions or any all-or-none conditions); (18) any modifications that are made to the details set out in (1) through (17) or (20) below, for all or part of the order, or any cancellation of all or part of the order; (19) the date and time of receipt or transmission of any modifications to, or cancellation of, the order; (20) the date and time of any order expiration; (21) the identity of the party cancelling or modifying the order; (22) the transaction price, if applicable; (23) the number of shares executed, if applicable; (24) the date and time of execution, if applicable; (25) the contra party to the execution (if applicable); (26) the settlement instructions associated with the order, if applicable; (27) system-generated time(s) of recording required information; and (28) any other information that may be required by the Exchange from time to time.⁹ Floor participants would be required to record this information immediately after that information is received or becomes available.¹⁰

Proposed Interpretations and Policies .01 to .09 to the proposed rule change contain additional information about the information that participants must record and preserve. Among other things, these interpretations confirm that each required record of the time of an event must be expressed in terms of hours, minutes, and seconds. These interpretations also provide a definition of the term "order" and identify particular items of information that must be provided by participants who receive orders to buy and sell a security and immediately execute those orders.¹¹

⁹ See CHX Article XX, Proposed Rule 24(b).

¹⁰ See CHX Article XX, Proposed Rule 24(c).

¹¹ Proposed Interpretation and Policy .02 defines an order as "any written, oral or electronic instruction to effect a transaction." This interpretation also notes that a decision by a co-specialist, market maker or floor broker to buy or sell securities for his or her own account on the floor of the Exchange would not constitute an order for purposes of the rule's data recording requirements. This exception for principal trading on the Exchange's floor is designed to recognize that all necessary information about a floor participant's own trading is already captured by the Exchange's trade reporting systems.

Proposed Interpretation and Policy .07 confirms that a floor participant who receives orders to buy and sell the same security and who executes those orders in full immediately upon receipt, would be required to record information only about the security's symbol, the clearing organization, the identity of the participant firm recording the order details, whether the order is short or short exempt, whether the order is being handled pursuant to Section 11(a)(1)(G) of the Act, the transaction price, the number of shares executed, the date and time of execution, settlement instructions, the contra side to the execution, a system-generated time of recording the required information and any other information required from the Exchange from time to time. This requirement is designed to recognize that the Exchange currently believes that it may not be necessary for the Exchange's participants to

The remaining interpretations note that participants will not be required to record information with respect to orders sent or received through the Exchange's MAX® system or through any other electronic systems that the Exchange recognizes as providing the required information in an acceptable format and set out two limited exceptions to the data-recording requirements.¹²

The Exchange believes that these proposed requirements appropriately permit the Exchange to collect the electronic information needed to conduct automated surveillance of its participants' trading activities.¹³ The Exchange has worked to tailor the rules so that they require participants to record and retain information needed to conduct appropriate surveillance, without imposing unnecessary data-collection requirements.¹⁴ Moreover,

record detailed order information about orders that are immediately executed; at the same time, however, the Exchange has retained the ability (through paragraph (b)(28)) to require participants to provide additional information about those orders, including information that is set out in other provisions of paragraph (b).

¹² See Proposed Interpretations and Policies .04 (regarding orders sent and received through certain systems), .05 (regarding orders that the Exchange expressly recognizes as incompatible for entry into an Exchange system) and .06 (regarding bona fide arbitrage orders and orders to offset a transaction made in error). As set forth below in note 13, the Exchange believes that these exceptions are appropriately tailored to ensure that the Exchange's participants are not required to enter unnecessary information about orders, while still providing information necessary for the Exchange's surveillance efforts.

¹³ Moreover, this proposal is consistent with recommendations made by the independent consultant retained by the Exchange under its recent settlement agreement with the Commission. See Securities Exchange Act Release No. 48566 (September 30, 2003), Administrative Proceeding File No. 3-11282.

¹⁴ For example, Proposed Interpretation and Policy .04 recognizes that participants are not required to record information that is already captured by the Exchange's systems or by other systems that the Exchange expressly recognizes as providing the required data in an acceptable format. (The Exchange's MAX system already captures all of the information required by this rule). Other exceptions to the recording requirements—such as the exceptions for bona fide arbitrage orders and for orders offsetting transactions made in error—are designed to recognize participants' need to immediately execute certain types of orders, while still requiring prompt input of required order information to permit the Exchange to conduct appropriate surveillance. Finally, Proposed Interpretation and Policy .05—a general provision that would allow the Exchange to identify specific types of orders that might be exempt from the data-recording requirements when they are incompatible for entry into Exchange systems—is designed to cover those rare situations where, due to unexpected consequences of unrelated systems changes or a software failure, participants cannot enter data about a particular type of order into the Exchange's systems for a limited period of time. This exception is not intended to allow participants to avoid the recording requirements of the rule;

the Exchange is working to complete changes to its existing Brokerplex® system, so that that system can be used by CHX floor brokers and market makers to record all required order details.¹⁵ As a result, the Exchange's on-floor participants will not be required to develop their own data-recording systems in response to this rule.¹⁶

2. Statutory Basis

The CHX believes the proposal is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b).¹⁷ In particular, the CHX believes that the proposed rule change is consistent with Section 6(b)(5) of the Act in that it is designed to promote just and equitable principles of trade, to remove impediments and to perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest by permitting the Exchange to require its participants to provide the Exchange with data necessary to conduct appropriate surveillance of its participants' trading activities.

B. Self-Regulatory Organization's Statement of Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were neither solicited nor received by the Exchange.

indeed, it requires participants to record as much information about these orders as possible. The Exchange anticipates that both it and its participants would work quickly to correct any software or systems problems that prevented some or all of the required information from being transmitted to, or received by, the Exchange.

¹⁵ The CHX has represented that these changes would not delay the implementation of the proposed rule change once approved by the Commission. Telephone conversation between Ellen J. Neely, President and General Counsel, CHX, and Richard Holley III, Special Counsel, Division of Market Regulation, Commission, on September 16, 2005. The Exchange's Brokerplex system currently can be used by CHX floor brokers to manage their orders, route orders to the Exchange's co-specialists for execution and report executed trades.

¹⁶ The Exchange's staff will present to the Exchange's Board of Directors a separate rule that confirms the record-keeping obligations of its off-floor participants.

¹⁷ 15 U.S.C. 78f(b).

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve such proposed rule change, as amended, or
- (B) Institute proceedings to determine whether the proposed rule change, as amended, should be disapproved.

Description of Notes

The Notes are non-convertible debt issued by Morgan Stanley that are due on October 30, 2011 and have a principal amount and issue price of \$10. The Notes will trade as a single, exchange-listed security.
