

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Total Annual Burden: 8,635 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: Section 101.1440 requires MVDDS licensees to conduct a survey of the area around its proposed transmitting antenna site to determine the location of all DBS customers of record that may potentially be affected by the introduction of its MVDDS service. At least 90 days prior to the planned date of MVDDS commencement of operations, the MVDDS licensee must then provide specific information to the DBS licensee(s). Alternatively, MVDDS licensees may obtain a signed written agreement from DBS customers of record stating that they are aware of and agree to their DBS system receiving MVDDS signal levels in excess of the appropriate Equivalent Power Flux Density (EPFD) limits. The DBS licensee must thereafter provide the MVDDS licensee with a list of only those new DBS customer locations that have been installed in the 30-day period following the MVDDS notification that the DBS licensee believes may receive harmful interference or where the prescribed EPFD limits may be exceeded. If the MVDDS licensee determines that its signal level will exceed the EPFD limit at any DBS customer site, it shall take whatever steps are necessary, up to and including finding a new transmitter site.

With this submission, the Commission is revising this information collection because on July 7, 2003, the Commission released a Third Report and Order in ET Docket No. 98–206 (FCC 03–152) that decreased the number of MVDDS license areas from 354 Component Economic Areas (CEAs) to 214 license areas (210 Designated Market Areas (DMAs) and four FCC-defined areas). As a result of this change the number of respondents required to meet the requirements of Section 101.1440 decreased from 354 to 214.

Title: Section 101.1417, Annual Report.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 214.

Estimated Time Per Response: 1 hour.

Frequency of Response: Annual reporting requirement.

Total Annual Burden: 214 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: Section 101.1417 requires MVDDS licensees to file with

the Commission two copies of a “license information report” by March 1st of each year for the preceding calendar year. This annual report must include the name and address of the licensee; the station(s) call letters and primary geographic service area(s); and statistical data for the licensee’s station.

With this submission, the Commission is revising this information collection because on July 7, 2003, the Commission released a Third Report and Order in ET Docket No. 98–206 (FCC 03–152) that decreased the number of MVDDS license areas from 354 Component Economic Areas (CEAs) to 214 license areas (210 Designated Market Areas (DMAs) and four FCC-defined areas). As a result of this change the number of respondents required to meet the requirements of Section 101.1417 decreased from 354 to 214.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted for Review to the Office of Management and Budget

November 9, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated

collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before December 23, 2005. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Judith B. Herman, Federal Communications Commission, Room 1–C804, 445 12th Street, SW., DC 20554 or via the Internet to *Judith-B.Herman@fcc.gov*. If you would like to obtain or view a copy of this information collection, you may do so by visiting the FCC PRA Web page at: <http://www.fcc.gov/omd/pr>.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith B. Herman at 202–418–0214 or via the Internet at *Judith-B.Herman@fcc.gov*.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0944.

Title: Review of Commission Consideration of Applications under the Cable Landing License Act.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 25 respondents; 200 responses.

Estimated Time Per Response: 5–9 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Total Annual Burden: 1,001 hours.

Total Annual Cost: \$402,175.

Privacy Act Impact Assessment: N/A.

Needs and Uses: A carrier must generally obtain landing rights approval if it wants to land an undersea cable onto another country’s shores. For example, if a carrier wants to land a cable upon U.S. shores, the carrier must first obtain permission from the U.S. government before it may do so. These situations are governed by the Cable Landing License Act, which gives the President of the United States broad discretion to grant, withhold, condition or revoke cable landing licenses under certain conditions. By Executive Order 10530, the Commission has been delegated responsibility for issuing cable landing licenses.

The Commission is submitting this information collection to the OMB as a revision. The Commission has implemented mandatory electronic

filing of all applications and other filings related to international telecommunications services via the user-friendly, Internet-based International Bureau Filing System (IBFS).

Additionally, the Commission plans to develop eight new cable landing license applications that impact this information collection. We do not know the specific time frame for the development of each application. However, we estimate that the projected completion date for all cable landing license applications is December 31, 2008. The development of the applications is contingent upon the availability of budget funds, human resources, and other factors. Therefore, the annual burden hours and costs are unknown at this time because the forms have not been developed by the Commission yet. Therefore, this submission to OMB does not reflect any change in the annual burden hours and annual costs.

Secretary.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0501.
Title: Section 73.1942, Candidate Rate; Section 76.206, Candidate Rates; Section 76.1611, Political Cable Rates and Classes of Time.

Form Number: Not applicable.
Type of Review: Revision of a currently approved collection.
Respondents: Business or other for-profit entities.

Number of Respondents: 19,717.
Estimated Time per Response: 0.5 hours to 20 hours.

Frequency of Response: Recordkeeping requirement; On occasion reporting requirement; Semi-annual requirement; Third party disclosure requirement.

Total Annual Burden: 984,293 hours.
Total Annual Cost: None.
Privacy Impact Assessment: No impact(s).

Needs and Uses: Section 315 of the Communications Act directs broadcast stations and cable operators to charge political candidates the "lowest unit charge of the station" for the same class and amount of time for the same period, during the 45 days preceding a primary or runoff election and the 60 days preceding a general or special election.

47 CFR 73.1942 requires broadcast licensees and 47 CFR 76.206 requires cable television systems to disclose any station practices offered to commercial advertisers that enhance the value of advertising spots and different classes of time (immediately preemptible, preemptible with notice, fixed, fire sale, and make good). These rule sections also require licensees and cable TV systems to calculate the lowest unit charge. Broadcast stations and cable systems are also required to review their advertising records throughout the election period to determine whether compliance with these rule sections require that candidates receive rebates or credits.

47 CFR 76.1611 requires systems to disclose to candidates information about rates, terms, conditions and all value-enhancing discount privileges offered to commercial advertisers.
