NUCLEAR REGULATORY COMMISSION

[Docket No. 040-09011]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment for the Department of the Army, Watervliet Arsenal's Facility in Watervliet, NY

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of Availability.

FOR FURTHER INFORMATION CONTACT:

Betsy Ullrich, Commercial and R&D Branch, Division of Nuclear Materials Safety, Region I, 475 Allendale Road, King of Prussia, Pennsylvania, 19406, telephone (610) 337-5040, fax (610) 337-5269; or by e-mail: exu@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is issuing a license amendment to the Department of the Army, Watervliet Arsenal for Materials License No. STB-1554, to authorize release of Building 120 at its facility in Watervliet, New York, for unrestricted use. NRC has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. The amendment will be issued following the publication of this Notice.

II. EA Summary

The purpose of the action is to authorize the release of Building 120 at the licensee's Watervliet, New York, facility for unrestricted use. The Department of the Army, Watervliet Arsenal was authorized by NRC from 1972 to use radioactive materials for research and development purposes at the site. On March 7, 2005, the Department of the Army, Watervliet Arsenal, requested that NRC release Building 120 at the facility for unrestricted use. The Department of the Army has conducted surveys of the facility and provided information to the NRC to demonstrate that Building 120 meets the license termination criteria in subpart E of 10 CFR part 20 for unrestricted use.

The NRC staff has prepared an EA in support of the license amendment. The facility was surveyed prior to the licensee requesting the license amendment. The NRC staff has reviewed the information and final

status survey submitted by the Department of the Army. Based on its review, the staff has determined that there are no additional remediation activities necessary to complete the proposed action. Therefore, the staff considered the impact of residual radioactivity at the facility and concluded that since the residual radioactivity meets the requirements in subpart E of 10 CFR part 20, a Finding of No Significant Impact is appropriate. Additionally, no non-radiological or cumulative impacts were identified.

III. Finding of No Significant Impact

The staff has prepared the EA (summarized above) in support of the license amendment to release Building 120 for unrestricted use. The NRC staff has evaluated the Department of the Army, Watervliet Arsenal's request and the results of the surveys and has concluded that the completed action complies with the criteria in subpart E of 10 CFR part 20. The staff has found that the radiological environmental impacts from the action are bounded by the impacts evaluated by NUREG-1496, Volumes 1-3, "Generic Environmental Impact Statement in Support of Rulemaking on Radiological Criteria for License Termination of NRC-Licensed Facilities" (ML042310492, ML042320379, and ML042330385). Additionally, no non-radiological or cumulative impacts were identified. On the basis of the EA, the NRC has concluded that the environmental impacts from the action are expected to be insignificant and has determined not to prepare an environmental impact statement for the action.

Extension: Form N-54A; SEC File No. 270-182; OMB Control No. 3235-0237.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 [44 U.S.C. 3501 *et seq.*] (the "PRA"), the Securities and Exchange Commission (the "Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

- Form N-54A under the Investment Company Act of 1940; Notification of Election to be Subject to Sections 55 through 65 of the Investment Company Act of 1940 Filed Pursuant to Section 54(a) of the Act.

Form N-54A [17 CFR 274.53] is a notification to the Commission of election to be regulated as a business development company. A company making such an election only has to file a Form N-54A once.

It is estimated that approximately 46 respondents per year file with the Commission a Form N-54A. Form N-54A requires approximately 0.5 burden hours per response resulting from creating and filing the information required by the Form. The total burden hours for Form N-54A would be 23.0

hours per year in the aggregate. The estimated annual burden of 23.0 hours represents an increase of 21.0 hours over the prior estimate of 2.0 hours. The increase in burden hours is attributable to an increase in the number of respondents from 4 to 46.

The estimate of average burden hours for Form N-54A is made solely for the purposes of the PRA and is not derived from a comprehensive or even representative survey or study of the costs of Commission rules and forms.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Please direct your written comments to R. Corey Booth, Director/Chief Information Officer, Office of Information Technology, Securities and Exchange Commission, 100 F Street, NE., Washington, DC 20549.
