Status: Meetings are open to the public, limited only by the space available.

Background: A large part of our lives is shaped by the work we do. NORA is a framework to guide occupational safety and health research for the nation. It is an ongoing endeavor to focus research to reduce work-related injury and illness. As the program approaches a ten year milestone, NIOSH is hosting public meetings to seek input from individuals and organizations on important research issues and agendas. Information about the public meetings and registration can be found on the NORA Web page at: <http://www.cdc.gov/niosh/nora/townhall>.

Given that NORA represents a broad-based partnership involving government, business, the worker community, academia, and others, public input is essential for planning future directions for the initiative, which will be based on eight different industry sector groups. Each meeting will be structured to provide an opportunity for regional and multi-sector input during the morning, followed where appropriate by an afternoon session to focus on individual sector issues.

All participants are requested to register for the free meeting at the NORA Web page or onsite the day of the meeting. Participants wishing to speak are encouraged to register early. The public meetings are open to everyone, including all workers, professional societies, organized labor, employers, researchers, health professionals,
