

any entries of subject merchandise during this period of review (POR). Consequently, in accordance with 19 CFR 351.213(d)(3) and consistent with our practice, we are rescinding this administrative review. For further discussion, see the "Rescission of Review" section of this notice, below. See also *Comment 1* of the "Issues and Decision Memorandum" (Decision Memo) from Stephen J. Claeys, Deputy Assistant Secretary for Import Administration, to Joseph A. Spetrini, Acting Assistant Secretary for Import Administration, dated December 5, 2005.

Scope of the Order

The product covered by this order is certain stainless steel plate in coils. Stainless steel is an alloy steel containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. The subject plate products are flat-rolled products, 254 mm or over in width and 4.75 mm or more in thickness, in coils, and annealed or otherwise heat treated and pickled or otherwise descaled. The subject plate may also be further processed (*e.g.*, cold-rolled, polished, etc.), provided that it maintains the specified dimensions of plate following such processing. Excluded from the scope of this order are the following: (1) plate not in coils, (2) plate that is not annealed or otherwise heat treated and pickled or otherwise descaled, (3) sheet and strip, and (4) flat bars.

The merchandise subject to this order is currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) at subheadings: 7219110030, 7219110060, 7219120006, 7219120021, 7219120026, 7219120051, 7219120056, 7219120066, 7219120071, 7219120081, 7219310010, 7219900010, 7219900020, 7219900025, 7219900060, 7219900080, 7220110000, 7220201010, 7220201015, 7220201060, 7220201080, 7220206005, 7220206010, 7220206015, 7220206060, 7220206080, 7220900010, 7220900015, 7220900060, and 7220900080. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise subject to this order is dispositive.

Period of Review

The POR is May 1, 2003, through April 30, 2004.

Rescission of Review

As noted above, none of the companies listed in this review had any shipments and/or entries of subject merchandise into the United States

during the POR. We confirmed this with Customs and Border Protections (CBP) data. Therefore, in accordance with 19 CFR 351.213(d)(3) and consistent with the Department's practice, we are rescinding our review of the antidumping duty order on stainless steel plate in coils from Taiwan for the period of May 1, 2003, through April 30, 2004. See, *e.g.*, *Certain Steel Concrete Reinforcing Bars From Turkey; Final Results, Rescission of Antidumping Duty Administrative Review in Part, and Determination To Revoke in Part*, 70 FR 67665, 67666 (Nov. 8, 2005).

We note that in *Brake Rotors From the People's Republic of China: Final Results and Partial Rescission of the Seventh Administrative Review; Final Results of the Eleventh New Shipper Review*, 70 FR 69937 (Nov. 18, 2005) (*Brake Rotors from the PRC*) and accompanying Issues and Decision Memorandum at *Comment 8*, the Department recently stated that it will not rely on CBP data as a "dispositive source of data on company exports. Accordingly, it is the responsibility of the respondent to report to the Department that it has not made any U.S. shipments." Because the Department previously relied on CBP data in this proceeding to demonstrate that the respondents made no U.S. shipments of subject merchandise during the POR, we will continue to do so for this final rescission. In future segments of this proceeding, however, the Department will apply the practice set forth in *Brake Rotors from the PRC*.

Funding Availability

NOAA announces the availability of approximately \$3,000,000 of Federal financial assistance in FY 2006 for Environmental Literacy projects. Approximately 5 to 10 awards in the form of grants or cooperative agreements will be made. NOAA will only consider projects that have a duration between 1 to 5 years. The total Federal amount for all years that may be requested from NOAA for the direct and indirect costs of the proposed project shall not exceed \$600,000. The minimum Federal amount that must be requested from NOAA for all years for the direct and indirect costs is \$100,000. Applications requesting Federal support from NOAA of less than \$100,000 total or more than \$600,000 total will not be considered for funding.

Publication of this notice does not oblige DOC/NOAA to award any specific project or to obligate any available funds. If an applicant incurs any costs prior to receiving an award agreement signed by an authorized NOAA Grants Officer, the applicant would do so solely at one's own risk of such costs not being included under the award.

Eligibility

Eligible applicants are accredited institutions of higher education, other nonprofits, commercial organizations, and state, local and Indian tribal governments. Federal agencies are not eligible to receive Federal assistance under this announcement, but may be project partners. Among those eligible applicants are K through 12 public and independent schools and school

systems, and science centers and museums. The Department of Commerce/National Oceanic and Atmospheric Administration (DOC/NOAA) is strongly committed to increasing the participation of Minority Serving Institutions (MSIs), *i.e.*, Historically Black Colleges and Universities, Hispanic-serving institutions, Tribal colleges and universities, Alaskan Native and Native Hawaiian institutions, and institutions that work in underserved communities. Applications are encouraged that involve any of the above institutions.

Cost Sharing Requirements

There are no cost-sharing requirements.

Evaluation and Selection Procedures

NOAA published its agency-wide solicitation entitled "Omnibus Notice Announcing the Availability of Grant Funds for Fiscal Year 2005" for projects for Fiscal Year 2005 in the **Federal Register** on June 30, 2004 (69 FR 39417). The evaluation criteria and selection procedures for projects contained in that omnibus notice are applicable to this solicitation. Copies of the notice are available on the Internet at: <http://www.ago.noaa.gov/grants/funding.shtml>. Further details on evaluation and selection criteria can be found in the full funding opportunity announcement.

Intergovernmental Review

Applications under this program are not subject to Executive Order 12372, "Intergovernmental Review of Federal Programs."

Limitation of Liability

In no event will NOAA or the Department of Commerce be responsible for proposal preparation costs if these programs fail to receive funding or are cancelled because of other agency priorities. Publication of this announcement does not oblige NOAA to award any specific project or to obligate any available funds.

National Environmental Policy Act (NEPA)

NOAA must analyze the potential environmental impacts, as required by the National Environmental Policy Act (NEPA), for applicant projects or proposals which are seeking NOAA federal funding opportunities. Detailed information on NOAA compliance with NEPA can be found at the following NOAA NEPA Web site: <http://www.nepa.noaa.gov/>, including our NOAA Administrative Order 216-6 for NEPA, <http://www.nepa.noaa.gov/>

NAO216_6_TOC.pdf, and the Council on Environmental Quality implementation regulations, http://ceq.eh.doe.gov/nepa/regs/ceq/toc_ceq.htm. Consequently, as part of an applicant's package, and under their description of their program activities, applicants are required to provide detailed information on the activities to be conducted, locations, sites, species and habitat to be affected, possible construction activities, and any environmental concerns that may exist (e.g., the use and disposal of hazardous or toxic chemicals, introduction of non-indigenous species, impacts to endangered and threatened species, aquaculture projects, and impacts to coral reef systems). In addition to providing specific information that will serve as the basis for any required impact analyses, applicants may also be requested to assist NOAA in drafting of an environmental assessment, if NOAA determines an assessment is required. Applicants will also be required to cooperate with NOAA in identifying feasible measures to reduce or avoid any identified adverse environmental impacts of their proposal. The failure to do so shall be grounds for not selecting an application. In some cases if additional information is required after an application is selected, funds can be withheld by the Grants Officer under a special award condition requiring the recipient to submit additional environmental compliance information sufficient to enable NOAA to make an assessment on any impacts that a project may have on the environment.

The Department of Commerce Pre-Award Notification Requirements for Grants and Cooperative Agreements

The Department of Commerce Pre-Award Notification Requirements for Grants and Cooperative Agreements contained in the **Federal Register** notice of December 30, 2004 (69 FR 78389), are applicable to this solicitation.
