OMB Number: 1660-0015.

Abstract: The certification forms (referred to as MT-1 series forms) are designed to assist requesters in gathering information that FEMA needs to determine whether a certain property is likely to be flooded during a flood event that has a one-percent annual chance of being equaled or exceeded in any given year (base flood).

FEMA Form 81–87, Property Information, describes the location of the property, what is being requested, and what data are required to support the request.

FEMA Form 81–87A, Elevation Information, indicates what the Base (one-percent annual chance) Flood Elevation (BFE) for the property is, how the BFE was determined, the lowest ground elevation on the property, and/or the elevation of the lowest adjacent grade to any structures on the property. This information is required in order for FEMA to determine if the property that the requester would like removed from the SFHA is at or above the BFE.
