

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket No. FEMA-B-7454]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency (FEMA), Department of Homeland Security.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed Base (1% annual-chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Doug Bellomo, P.E., Hazard Identification Section, Mitigation Division, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-2903.

SUPPLEMENTARY INFORMATION: FEMA proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Mitigation Division Director of the Federal Emergency Management Agency

certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified BFEs are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the NFIP. No regulatory flexibility analysis has been prepared.

Regulatory Classification. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform. This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR Part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for Part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376, § 67.4

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

State	City/town/county	Source of flooding	Location	*Elevation in feet (NGVD) +Elevation in feet (NAVD)	
				Existing	Modified
Arizona	Pinal County (Unincorporated Areas):.	McClellan Wash	Approximately 0.61 mile west of Battagila Drive.	None	+1,566
			Approximately 6.8 miles upstream of confluence with McClellan Wash Split.	None	+1,824
	Eloy, City of	Santa Cruz Wash	Approximately 0.72 mile west of Ethington Road.	None	+1,382
			Approximately 1,000 feet south of Shedd Road.	None	+1,440
	Eloy, City of	Santa Rosa Canal	Approximately 400 feet west of Henness Road.	None	+1,481
			Approximately 222 feet east of Toltec Highway.	None	+1,528
	Casa Grande, City of.	North Branch Santa Cruz Wash.	Approximately 0.86 mile west of Wash Thornton Road.	None	+1,363
			Approximately 1.85 miles east of Peart Road.	None	+1,409
	Casa Grande, City of.	Arizola Drain	Approximately 0.64 mile west of Cox Road.	None	+1,407
Approximately 5.02 miles above confluence with North Branch Santa Cruz Wash.			None	+1,453

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018-AU50

Endangered and Threatened Wildlife and Plants; Designation of Critical Habitat for the Laguna Mountains Skipper

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), propose to designate critical habitat for the Laguna Mountains skipper (*Pyrgus ruralis lagunae*), pursuant to the Endangered Species Act of 1973, as amended (Act). In total, approximately 6,662 acres (ac) (2,696 hectares (ha)) fall within the boundaries of the proposed critical habitat in two units that are divided into a total of seven subunits on Laguna and Palomar Mountains in San Diego County, California. Five subunits are occupied. Two subunits are not known to be currently occupied or occupied at

the time of listing, but are connected to occupied habitat, were historically occupied, and also contain physical and biological features essential to the conservation of the species.

DATES: We will accept comments from all interested parties until February 13, 2006. We must receive requests for public hearings, in writing, at the address shown in the **ADDRESSES** section by January 27, 2006.

ADDRESSES: If you wish to comment, you may submit your comments and materials—identified by RIN 1018-AU50—concerning this proposal by any one of several methods:

1. You may submit written comments and information to Jim Bartel, Field Supervisor, U.S. Fish and Wildlife Service, Carlsbad Fish and Wildlife Office, 6010 Hidden Valley Rd., Carlsbad, CA 92011.

2. You may hand-deliver written comments to our Office, at the above address.

3. You may fax your comments to 760-431-9624.

4. You may send comments by electronic mail (e-mail) to FW8pchskipper@fws.gov. Please see the Public Comments Solicited section below for file format and other information about electronic filing.

5. Federal Rulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Comments and materials received, as well as supporting documentation used in the preparation of this proposed rule, will be available for public inspection, by appointment, during normal business hours at the Carlsbad Fish and Wildlife

Office, 6010 Hidden Valley Rd., Carlsbad, CA 92011 (telephone 760-431-9440).

FOR FURTHER INFORMATION CONTACT: Field Supervisor, Carlsbad Fish and Wildlife Office, 6010 Hidden Valley Rd., Carlsbad, CA 92011, (telephone 760/431-9440; facsimile 760/431-9624).

SUPPLEMENTARY INFORMATION:

Public Comments Solicited

We intend that any final action resulting from this proposal will be as accurate and as effective as possible. Therefore, comments or suggestions from the public, other concerned governmental agencies, the scientific community, industry, or any other interested party concerning this proposed rule are hereby solicited. Comments particularly are sought concerning:

(1) The reasons any habitat should or should not be determined to be critical habitat as provided by section 4 of the Act (16 U.S.C. 1531 *et seq.*), including whether the benefit of designation will outweigh any threats to the species due to designation;

(2) Specific information on the amount and distribution of Laguna Mountains skipper habitat, and which areas should be included in the designations that were occupied at the time of listing that contain the features that are essential for the conservation of the species and why, and which areas not occupied at the listing are essential to the conservation of the species and why;

(3) Land use designations and current or planned activities in the subject areas
