

February 6, 2006. In addition, the FAA also announced its intention to hold public meetings. See the **Federal Register** of November 7, 2005 (70 FR 67388; Nov. 7, 2005).

### Purpose of the Public Meetings

The purpose of the public meetings is for the FAA to hear the public's views and obtain information relevant to the final rule under consideration. The FAA will consider comments made at the public meetings before making a final decision on issuance of the final rule.

In the economic analysis to the August 4, 2005 NPRM, the FAA requested information from the public. If you have not already submitted data to the FAA on these areas, you may do so at the public meetings. The FAA requests that all comments be accompanied by full documentation.

In addition to the information sought in the NPRM, the FAA seeks information on the following questions. Again, the FAA requests that all comments be accompanied by full documentation.

- What has been the effect of the airspace restrictions on aircraft owners that relocated outside the Washington, DC Air Defense Identification Zone (ADIZ)? What has been the loss of income for those aircraft owners?
- What has been the loss in time and revenue of pilots flying longer routes to avoid the DC ADIZ or curtailing their flying because of the DC ADIZ?
- What is the percentage of reduction in overall flying because of the existence of the DC ADIZ?

### Participation at the Public Meetings

If you wish to present an oral statement at the January 12, 2006 public meetings, you should submit your request to the FAA no later than January 5, 2006.

If you wish to present an oral statement at the January 18, 2006 public meetings, you should submit your request to the FAA no later than January 11, 2006.

Your requests should be submitted as described under **FOR FURTHER INFORMATION CONTACT** and should include a written summary of oral remarks to be presented and an estimate of time needed for the presentation. Requests received after the dates specified above will be scheduled if there is time available during the meetings; however, the speakers' names may not appear on the written agendas. To accommodate as many speakers as possible, the amount of time allocated to each speaker may be less than the amount of time requested. See "Public Meeting Procedures" below.

The FAA will have available a projector and a computer capable of accommodating Word and PowerPoint presentations from a compact disk (CD) or USB memory device. Persons requiring any other kind of audiovisual equipment should notify the FAA when requesting to be placed on the agenda.

Sign and oral interpretation can be made available at the meeting, as well as an assistive listening device, if requested 10 calendar days before the meeting.

### Public Meeting Procedures

A panel of representatives from the FAA and other government agencies will be present. An FAA representative will facilitate the meetings in accordance with the following procedures:

(1) The meetings are designed to facilitate the public comment process. The meetings will be informal and non-adversarial. No individual will be subject to cross-examination by any other participant. Government representatives on the panel may ask questions to clarify statements and to ensure an accurate record. Any statement made during the meetings by a panel member should not be construed as an official position of the government.

(2) There will be no admission fees or other charges to attend or to participate in the public meetings. The meetings will be open to all persons, subject to availability of space in the meeting room. The FAA will make every effort to accommodate all persons wishing to attend. The FAA asks that you sign in between 12–1 pm., or 5:30–6:30 p.m., on the day of the meeting you are attending. The FAA will try to accommodate all speakers; however if available time does not allow this, speakers will be scheduled on a first-come-first-served basis. The FAA reserves the right to exclude some speakers, if necessary, to obtain balanced viewpoints. The meetings may adjourn early if scheduled speakers complete their statements in less time than is scheduled for the meetings.

(3) The FAA will prepare agendas of speakers and presenters and make the agendas available at the meetings.

(4) Speakers may be limited to 5–10-minute statements. If possible, the FAA will notify speakers if additional time is available.

(5) The meetings will be recorded by a court reporter. A transcript of the meetings and all material accepted by the panel during the meetings will be included in the public docket, unless protected from disclosure. Each person interested in purchasing a copy of a

transcript should contact the court reporter directly. Information on how to purchase a transcript will be available at the meetings.

(6) The FAA will review and consider all material presented by participants at the public meetings. Position papers or materials presenting views or information related to the draft final rule may be accepted at the discretion of the presiding officer and will be subsequently placed in the public docket. The FAA requests that presenters at the meetings provide at least 10 copies of all materials for distribution to the panel members. Presenters may provide other copies to the audience at their discretion.

(7) Each person presenting comments is asked to submit data to support the comments. The FAA will protect from disclosure all proprietary data submitted in accordance with applicable laws.

Issued in Washington, DC, on December 7, 2005.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Parts 61 and 63

[R06–OAR–2005–OK–0003; FRL–8006–8]

### Approval of the Clean Air Section 112(I) Program for Hazardous Air Pollutants and Delegation of Authority to the Oklahoma Department of Environmental Quality

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The Oklahoma Department of Environmental Quality (ODEQ) has submitted updated regulations for receiving delegation of EPA authority for implementation and enforcement of National Emission Standards for Hazardous Air Pollutants (NESHAPs) for all sources (both part 70 and non-part 70 sources). These regulations apply to certain NESHAPs promulgated by EPA, as amended through September 1, 2004. The delegation of authority under this action does not apply to sources in Indian Country. EPA is providing notice proposing to approve the delegation of certain NESHAPs to ODEQ.

**DATES:** Written comments must be received by January 12, 2006.

**ADDRESSES:** Comments may be mailed to Mr. Jeff Robinson, Air Permits Section (6PD-R), Environmental Protection Agency, 1445 Ross Avenue, Suite 1200, Dallas, Texas 75202-2733. Comments may also be submitted electronically or through hand delivery/courier by following the detailed instructions in the **ADDRESSES** section of the direct final rule located in the final rules section of the **Federal Register**.

**FOR FURTHER INFORMATION CONTACT:** Mr. Jeff Robinson, Air Permits Section, Multimedia Planning and Permitting Division (6PD-R), U.S. Environmental Protection Agency, Region, 6, 1445 Ross Avenue, Suite 700, Dallas, Texas 75202-2733, at (214) 665-6435, or at [robinson.jeffrey@epa.gov](mailto:robinson.jeffrey@epa.gov).

**SUPPLEMENTARY INFORMATION:** In the final rules section of this **Federal Register**, EPA is approving ODEQ's request for delegation of authority to implement and enforce certain NESHAPs for all sources (both Part 70 and non-Part 70 sources). The ODEQ has adopted certain NESHAPs into Oklahoma's state regulations. In addition, EPA is waiving its notification requirements so sources will only need to send notifications and reports to ODEQA.

The EPA is taking direct final action without prior proposal because EPA views this is a noncontroversial action and anticipates no adverse comments. A detailed rationale for this approval is set forth in the preamble to the direct final rule. If no adverse comments are received in response to this action rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn, and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be served from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is published in the Rules section of this **Federal Register**.

**Authority:** 42 U.S.C. 7412.

Dated: November 27, 2005.

**Carl E. Edlund,**

*Acting Regional Administrator, Region 6.*

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 122

[FRL-8007-7]

### Correction to the Fall 2005 Regulatory Agenda

**AGENCY:** Environmental Protection Agency.

**ACTION:** Correction.

**SUMMARY:** On October 31, 2005, the Regulatory Plan and the Unified Agenda of the Federal Regulatory and Deregulatory Actions for the Environmental Protection Agency was published in the **Federal Register** (70 FR 65206). The regulatory agenda entry for sequence number 3378, "Oil and Gas Phase II Storm Water Permit Requirements," contains erroneous information. This notice corrects the information that was published in the **Federal Register** (70 FR at 65345) under the headings of Legal Authority, CFR Citation, Abstract, and Timetable.

**FOR FURTHER INFORMATION CONTACT:** Jeff Smith, Office of Wastewater Management, Office of Water, Environmental Protection Agency (4203M) Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-0652; fax number: (202) 564-6431; e-mail address: [smith.jeff@epa.gov](mailto:smith.jeff@epa.gov).

**SUPPLEMENTARY INFORMATION:** The Environmental Protection Agency (EPA) publishes the semiannual regulatory agenda to update the public about: Regulations and major policies currently under development, Reviews of existing regulations and major policies, and Rules and major policymakings completed or canceled since the last Agenda.

The regulatory agenda entry in the proposed rule section for sequence number 3378, "Oil and Gas Phase II Storm Water Permit Requirements" (70 FR 65345) contains erroneous information. The Agency did not intend to express an interpretation of the Energy Policy Act of 2005 in advance of the EPA publishing the proposed rule. This notice corrects the information that was provided under the headings of Legal Authority, CFR Citation, Abstract, and Timetable for the Oil and Gas Phase II Storm Water Permit Requirements action. The following agenda item replaces in its entirety the agenda item that was provided in the EPA's Semiannual Regulatory Agenda for sequence number 3378, Oil and Gas

Phase II Storm Water Permit Requirements:

*Priority:* Substantive, Significant.

*Legal Authority:* CWA 402(p).

*CFR Citation:* 40 CFR 122.26.

*Legal Deadline:* None.

*Abstract:* On Monday, August 8, President Bush signed into law The Energy Policy Act of 2005. Section 323 of this legislation modifies section 502 of the Federal Water Pollution Control Act to define the term "oil and gas exploration, production, processing, or treatment operations, or transmission facilities" to mean "all field activities or operations associated with exploration, production, processing, or treatment operations, or transmission facilities, including activities necessary to prepare a site for drilling and for the movement and placement of drilling equipment, whether or not such field activities or operations may be considered to be construction activities." In order to accommodate the changes in the new law, EPA expects to propose modifications to its current regulations governing construction site storm water discharges for oil and gas activities regulated by the Phase I and Phase II storm water rules.
