**DEPARTMENT OF COMMERCE****International Trade Administration****[A-570-899]****Notice of Amended Preliminary Determination of Sales at Less Than Fair Value: Certain Artist Canvas from the People's Republic of China**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** December 15, 2005.

**FOR FURTHER INFORMATION CONTACT:** Jon Freed or Michael Holton, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC, 20230; telephone: (202) 482-3818 or 482-1324, respectively.

**SUMMARY:** On November 7, 2005, the Department of Commerce ("the Department") published its affirmative preliminary determination in this proceeding. *See Notice of Preliminary Determination of Sales at Less Than Fair Value: Certain Artist Canvas from the People's Republic of China*, 70 FR 67412 (November 7, 2005) ("*Preliminary Determination*"). While the Department did not receive any allegations of ministerial errors in the *Preliminary Determination*, the Department inadvertently stated an inaccurate manufacturer/producer name in the provided combination rate, and inadvertently failed to include one combination rate.

In the *Preliminary Determination*, the Department stated it would calculate combination rates for certain respondents that are eligible for a separate rate in this investigation. Thus, we granted Jiangsu Animal By-products Import & Export Group Corp. ("Jiangsu By-products") (*i.e.*, a separate rate applicant) a separate rate and calculated a combination rate for Jiangsu By-products. However, in our Weighted-

Average Dumping Margins section, the Department inadvertently stated an inaccurate manufacturer/producer name in the provided combination rate for Jiangsu By-products, and inadvertently failed to include one combination rate for Jiangsu By-products. Therefore, we are correcting the Weighted-Average Dumping Margins section to include the additional combination rate and to correct the manufacturer/producer name.

**SUPPLEMENTARY INFORMATION:****Scope**

The products covered by this investigation are artist canvases regardless of dimension and/or size, whether assembled or unassembled, that have been primed/coated, whether or not made from cotton, whether or not archival, whether bleached or unbleached, and whether or not containing an ink receptive top coat. Priming/coating includes the application of a solution, designed to promote the adherence of artist materials, such as paint or ink, to the fabric. Artist canvases (*i.e.*, pre-stretched canvases, canvas panels, canvas pads, canvas rolls (including bulk rolls that have been primed), printable canvases, floor cloths, and placemats) are tightly woven prepared painting and/or printing surfaces. Artist canvas and stretcher strips (whether or not made of wood and whether or not assembled) included within a kit or set are covered by this proceeding.

Artist canvases subject to this investigation are currently classifiable under subheadings 5901.90.20.00 and 5901.90.40.00 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Specifically excluded from the scope of this investigation are tracing cloths, "paint-by-number" or "paint-it-yourself" artist canvases with a copyrighted preprinted outline, pattern, or design, whether or not included in a painting set or kit.<sup>1</sup> Also excluded are stretcher strips, whether or not made from wood, so long as they are not incorporated into artist canvases or sold as part of an artist canvas kit or set. While HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

**Amended Preliminary Determination**

As a result of our correction to the *Preliminary Determination*, we have determined that the following

<sup>1</sup> Artist canvases with a non-copyrighted preprinted outline, pattern, or design are included in the scope, whether or not included in a painting set or kit.

weighted-average percentage dumping margins apply to imports of certain artist canvas from the PRC exported by Jiangsu By-products.

#### International Trade Commission Notification

In accordance with section 733(f) of the Act, we have notified the International Trade Commission ("ITC") of our amended preliminary determination. On August 31, 2005, United States Steel Corporation ("U.S. Steel"), a domestic producer of the subject merchandise, made a timely request that the Department conduct an administrative review of Siderca S.A.I.C. ("Siderca"). On September 28, 2005, in accordance with section 751(a) of the Tariff Act of 1930, as amended ("the Act"), the Department published in the **Federal Register** a notice of initiation of this antidumping duty

administrative review. *See Notice of Initiation of Antidumping Duty and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 70 FR 56631 (September 28, 2005).

On October 13, 2005, the Department issued its antidumping duty questionnaire to Siderca. On November 7, 2005, Siderca submitted a letter to the Department, certifying that the company made no shipments or entries for consumption in the United States of the subject merchandise during the POR. Additionally, Siderca also provided certification to the Department that the company's U.S. affiliate, Tenaris Global Services U.S.A. Corporation ("Tenaris"), also did not sell, enter, or import subject merchandise for consumption into the United States during the POR.

#### Scope of the Order

The antidumping duty order on imports from Argentina, covers small diameter seamless carbon and alloy standard, line, and pressure pipes ("seamless pipes") produced to the American Standard for Testing and Materials ("ASTM") standards A-335, A-106, A-53, and American Petroleum Institute ("API") standard API 5L specifications and meeting the physical parameters described below, regardless of application. The scope of this order also includes all products used in standard, line, or pressure pipe applications and meeting the physical parameters described below, regardless of specification. For purposes of this order, seamless pipes are seamless carbon and alloy (other than stainless) steel pipes, of circular cross-section, not more than 114.3 mm (4.5 inches) in outside diameter, regardless of wall thickness, manufacturing process (hot-finished or cold-drawn), end finish (plain end, beveled end, upset end, threaded, or threaded and coupled), or surface finish. These pipes are commonly known as standard pipe, line pipe, or pressure pipe, depending upon the application. They may also be used in structural applications. Pipes produced in non-standard wall thicknesses are commonly referred to as
