E. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Make sure to submit your comments by the deadline in this notice.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action and the pesticide petition number in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation related to your comments.

II. What Action is the Agency Taking?

EPA is printing a summary of a pesticide petition received under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, proposing the amendment of a regulation in 40 CFR part 180 for residues of the antimicrobial *Listeria* in or on food commodities when used in accordance with good manufacturing practices as the active ingredient in an antimicrobial pesticide formulation provided that the substance is applied on a semi-permanent or permanent food contact surface (other than being applied on food packaging) with adequate draining before contact with food. EPA has determined that the pesticide petition contains data or information regarding the elements set forth in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support

granting of the pesticide petition. Additional data may be needed before EPA rules on the pesticide petition.

Pursuant to 40 CFR 180.7(f), a summary of the petition prepared by the petitioner is available on EPA's Electronic Docket at <http://www.regulations.gov/>. To locate this information on the home page of EPA's Electronic Docket, select "Quick Search" and type the OPP docket ID number "EPA-HQ-OPP-2005-0315" in the search field. Once the search has located the docket, clicking on the "Docket ID" will bring up a list of all documents in the docket for the pesticide including the petition summary.

Amendment to an Existing Exemption from the Requirement of a Tolerance

PP 4G6938. Intralytix, Inc., 323 W. Camden St., Baltimore, MD 21201, proposes to establish a temporary exemption from the requirement of a tolerance for residues of the antimicrobial, LMP-102, *Listeria* specific bacteriophages, in or on food commodities when used in accordance with good manufacturing practices as the active ingredient in an antimicrobial pesticide formulation provided that the substance is applied on a semi-permanent or permanent food contact surface (other than being applied on food packaging) with adequate draining before contact with food. Because this petition is a request for a temporary exemption from the requirement of a tolerance, an analytical method is not required at this time.
