Regulatory History

We did not publish a notice of proposed rulemaking (NPRM) for this

amendment. Under 5 U.S.C. 553(b)(B), the Coast Guard finds that this technical amendment is exempt from notice and comment rulemaking requirements because the amendment only makes non-substantive address changes. These changes will have no substantive effect on the public; therefore, it is unnecessary to publish an NPRM.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. The MSC left its previous location on December 9, 2005, and correspondence should be directed to the new address.

Background and Purpose

The office of the United States Coast Guard Marine Safety Center will change locations resulting in the need for an address change in the Code of Federal Regulations. This rule also changes the abbreviated designation of the Marine Safety Center from "G-MSC" to "MSC" throughout chapters I of title 33 and title 46.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security (DHS). Because this amendment makes only address changes, we expect the economic impact to be so minimal that a full Regulatory Evaluation under the regulatory policies and procedures of DHS is unnecessary.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

It is not expected that this amendment will have a significant economic impact on any small entities. Therefore, the Coast Guard certifies under 5 U.S.C. 605(b) that this technical amendment will not have a significant economic impact on a substantial number of small entities.

Collection of Information

This amendment calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this amendment under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this amendment will not result in such an expenditure, we do discuss the effects of this amendment elsewhere in this preamble.

Taking of Private Property

This amendment will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This amendment meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this amendment under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This amendment is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This amendment does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the

Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this amendment under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action?" under that order because it is not a "significant regulatory action?" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This amendment does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Commandant Instruction M16475.ID, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(a), of the Instruction from further environmental documentation. Paragraph (34)(a) excludes regulatory actions that are editorial or procedural, such as those updating addresses. Under figure 2–1, paragraph (34)(a), of the Instruction, an Environmental Analysis Check List and

a Categorical Exclusion Determination are not required for this technical amendment.

BILLING CODE 4910–15–P

POSTAL SERVICE

39 CFR Part 111

New Preparation Requirements for Bundles of Mail on Pallets

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: This final rule changes preparation requirements for bundles of Periodicals, Standard Mail, and Package Services flat-size mail or irregular parcels on pallets. The rule gives the conditions under which mailers must prepare an area distribution center, bulk mail center/auxiliary service facility, or sectional center facility pallet with 250 or more pounds of bundles.

DATES: *Effective Date:* May 11, 2006.

FOR FURTHER INFORMATION CONTACT: Julia Carroll, 202–268–2108.

SUPPLEMENTARY INFORMATION: On September 30, 2005, the Postal Service™ published for comment in the *Federal Register* (70 FR 57237) a proposal to change preparation requirements for bundles of mail on pallets.

Bundles of flat-size mailpieces or irregular parcels on pallets are easier and less costly for us to handle than bundles in sacks. In addition, bundles

on pallets maintain their integrity to a greater degree than bundles in sacks. Our new standards will help increase the volume of mail on pallets by revising the requirements for pallet preparation.

Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®) 705.8.5.2 requires mailers who prepare bundles of flat-size mail or bundles of irregular parcels on pallets to prepare a pallet to a required sortation level if a mailing contains 500 or more pounds of bundles.

Under this final rule, after preparing all other pallets at the 500-pound required minimum, if there are 250 or more pounds of bundles labeled to destinations within the ZIP Code range for an area distribution center (ADC), a mailer who prepares bundles of Periodicals flat-size mail or irregular parcels on pallets must prepare the ADC pallet. If there are 250 or more pounds of bundles labeled to destinations within the ZIP Code range for a bulk mail center/auxiliary service facility (BMC/ASF), a mailer who prepares bundles of Standard Mail and Package Services flat-size mail or irregular parcels on pallets must prepare the BMC/ASF pallet. If a mailing does not contain any ADC or BMC/ASF pallets and there are 250 or more pounds for an SCF, the mailer must prepare the SCF pallet.

In addition to these changes, we are removing text in 705.8.5.2 about labeling pallets and optional bundle reallocation, because we cover these topics in detail elsewhere in the DMM.

Comments Received

We requested comments on the proposal by October 31, 2005. We received two comments, one from a publisher and one from a mailing association. Both supported the proposal.

For the reasons discussed above, the Postal Service adopts the following amendments to Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM), incorporated by reference in the Code of Federal Regulations. See 39 CFR 111.1.

8.5.2 Required Preparation

[Revise 8.5.2 to require ADC, BMC/ASF, or SCF pallets at 250 pounds of bundles, as follows:]

The following standards apply to Periodicals, Standard Mail, and Package Services, except Parcel Post mailed at BMC Presort, OBMC Presort, DSCF, and DDU rates.

a. Mailers must prepare a pallet to the required sortation level(s) for the class of mail when a mailing contains 500 or more pounds of bundles, sacks, or parcels or 72 linear feet or six layers of letter trays for the destination.

b. For bundles of flat-size mailpieces or bundles of irregular parcels on pallets, after preparing all possible pallets under 8.5.2a, when 250 or more pounds of bundles remain for an ADC (Periodicals) or for a BMC/ASF (Standard Mail and Package Services), mailers must prepare the ADC or BMC/ASF pallet, as applicable for the class of mail. Exception: If there are no ADC or BMC/ASF pallets in a mailing and 250 or more pounds remain for an SCF, mailers must prepare the SCF pallet.

c. If bundles remain that cannot be prepared on an ADC, BMC/ASF, or SCF pallet, mailers must place those bundles in sacks (8.9.1).
