POSTAL SERVICE

39 CFR Part 111

New Preparation Requirements for Bundles of Mail on Pallets

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: This final rule changes preparation requirements for bundles of Periodicals, Standard Mail, and Package Services flat-size mail or irregular parcels on pallets. The rule gives the conditions under which mailers must prepare an area distribution center, bulk mail center/auxiliary service facility, or sectional center facility pallet with 250 or more pounds of bundles.

DATES: *Effective Date:* May 11, 2006.

FOR FURTHER INFORMATION CONTACT: Julia Carroll, 202-268-2108.

SUPPLEMENTARY INFORMATION: On September 30, 2005, the Postal Service™ published for comment in the *Federal Register* (70 FR 57237) a proposal to change preparation requirements for bundles of mail on pallets.

Bundles of flat-size mailpieces or irregular parcels on pallets are easier and less costly for us to handle than bundles in sacks. In addition, bundles

on pallets maintain their integrity to a greater degree than bundles in sacks. Our new standards will help increase the volume of mail on pallets by revising the requirements for pallet preparation.

Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®) 705.8.5.2 requires mailers who prepare bundles of flat-size mail or bundles of irregular parcels on pallets to prepare a pallet to a required sortation level if a mailing contains 500 or more pounds of bundles.

Under this final rule, after preparing all other pallets at the 500-pound required minimum, if there are 250 or more pounds of bundles labeled to destinations within the ZIP Code range for an area distribution center (ADC), a mailer who prepares bundles of Periodicals flat-size mail or irregular parcels on pallets must prepare the ADC pallet. If there are 250 or more pounds of bundles labeled to destinations within the ZIP Code range for a bulk mail center/auxiliary service facility (BMC/ASF), a mailer who prepares bundles of Standard Mail and Package Services flat-size mail or irregular parcels on pallets must prepare the BMC/ASF pallet. If a mailing does not contain any ADC or BMC/ASF pallets and there are 250 or more pounds for an SCF, the mailer must prepare the SCF pallet.

In addition to these changes, we are removing text in 705.8.5.2 about labeling pallets and optional bundle reallocation, because we cover these topics in detail elsewhere in the DMM.

Comments Received

We requested comments on the proposal by October 31, 2005. We received two comments, one from a publisher and one from a mailing association. Both supported the proposal.

For the reasons discussed above, the Postal Service adopts the following amendments to Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM), incorporated by reference in the Code of Federal Regulations. See 39 CFR 111.1.

b. For bundles of flat-size mailpieces or bundles of irregular parcels on pallets, after preparing all possible pallets under 8.5.2a, when 250 or more pounds of bundles remain for an ADC (Periodicals) or for a BMC/ASF (Standard Mail and Package Services), mailers must prepare the ADC or BMC/ASF pallet, as applicable for the class of mail. Exception: If there are no ADC or BMC/ASF pallets in a mailing and 250 or more pounds remain for an SCF, mailers must prepare the SCF pallet.

c. If bundles remain that cannot be prepared on an ADC, BMC/ASF, or SCF pallet, mailers must place those bundles in sacks (8.9.1).

II. Background and Statutory Findings

EPA published final rules in the **Federal Register** for each chemical/commodity listed. The initial issuance of these final rules announced that EPA,

on its own initiative, under section 408 of the FFDCA, 21 U.S.C. 346a, as amended by the Food Quality Protection Act of 1996 (FQPA) (Public Law 104-170) was establishing time-limited tolerances.

EPA established the tolerances because section 408(l)(6) of the FFDCA requires EPA to establish a time-limited tolerance or exemption from the requirement for a tolerance for pesticide chemical residues in food that will result from the use of a pesticide under an emergency exemption granted by EPA under FIFRA section 18. Such tolerances can be established without providing notice or time for public comment.

EPA received requests to extend the use of these chemicals for this year's growing season. After having reviewed these submissions, EPA concurs that emergency conditions exist. EPA assessed the potential risks presented by residues for each chemical/commodity. In doing so, EPA considered the safety

standard in section 408(b)(2) of the FFDCA, and decided that the necessary tolerance under section 408(l)(6) of the FFDCA would be consistent with the safety standard and with FIFRA section 18.

The data and other relevant material have been evaluated and discussed in the final rule originally published to support these uses. Based on that data and information considered, the Agency reaffirms that extension of these time-limited tolerances will continue to meet the requirements of section 408(l)(6) of the FFDCA. Therefore, the time-limited tolerances are extended until the date listed. EPA will publish a document in the **Federal Register** to remove the revoked tolerances from the Code of Federal Regulations (CFR). Although these tolerances will expire and are revoked on the date listed, under section 408(l)(5) of the FFDCA, residues of the pesticide not in excess of the amounts specified in the tolerance remaining in or on the commodity after that date will not be unlawful, provided the residue is present as a result of an application or use of a pesticide at a time and in a manner that was lawful under FIFRA, the tolerance was in place at the time of the application, and the residue does not exceed the level that was authorized by the tolerance. EPA will take action to revoke these tolerances earlier if any experience with, scientific data on, or other relevant information on this pesticide indicate that the residues are not safe.

Tolerances for the use of the following pesticide chemicals on specific commodities are being extended:

Difenoconazole. EPA has authorized under FIFRA section 18 the use of difenoconazole on sweet corn seed for control of various fungal diseases in Colorado and Idaho. This regulation extends time-limited tolerances for residues of the fungicide difenoconazole, (2S,4R)/(2R,4S)/(2R,4R)/(2S,4S)]1-[2-[4-(4-chlorophenoxy)-2-chlorophenyl]-4-methyl-1,3-dioxolan-2-yl-methyl]-1H-1,2,4-triazole in or on sweet corn seed, forage, and stover at 0.1 part per million (ppm) for an additional 3-year period. These tolerances will expire and are revoked on December 31, 2008. Time-limited tolerances were originally published in the **Federal Register** of September 1, 1999 (64 FR 47680) (FRL-6094-3).

III. Objections and Hearing Requests

Under section 408(g) of the FFDCA, as amended by the FQPA, any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. The EPA procedural regulations which govern the submission of objections and requests for hearings appear in 40 CFR part 178. Although the procedures in those regulations require some modification to reflect the amendments made to the FFDCA by the FQPA, EPA will continue to use those procedures, with appropriate adjustments, until the necessary modifications can be made. The new section 408(g) of the FFDCA provides essentially the same process for persons to "object" to a regulation for an exemption from the requirement of a tolerance issued by EPA under new section 408(d) of the FFDCA, as was provided in the old sections 408 and 409 of the FFDCA. However, the period for filing objections is now 60 days, rather than 30 days.

A. What Do I Need to Do to File an Objection or Request a Hearing?

You must file your objection or request a hearing on this regulation in accordance with the instructions provided in this unit and in 40 CFR part 178. To ensure proper receipt by EPA, you must identify docket ID number EPA-HQ-OPP-2005-0292 in the subject line on the first page of your submission. All requests must be in writing, and must be mailed or delivered to the Hearing Clerk on or before January 20, 2006.

1. *Filing the request.* Your objection must specify the specific provisions in the regulation that you object to, and the grounds for the objections (40 CFR 178.25). If a hearing is requested, the objections must include a statement of the factual issue(s) on which a hearing is requested, the requestor's contentions on such issues, and a summary of any evidence relied upon by the objector (40 CFR 178.27). Information submitted in connection with an objection or hearing request may be claimed confidential by marking any part or all of that information as CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the information that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice.

Mail your written request to: Office of the Hearing Clerk (1900L), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington,

DC 20460-0001. You may also deliver your request to the Office of the Hearing Clerk in Suite 350, 1099 14th St., NW., Washington, DC 20005. The Office of the Hearing Clerk is open from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Office of the Hearing Clerk is (202) 564-6255.

2. *Copies for the Docket.* In addition to filing an objection or hearing request with the Hearing Clerk as described in Unit III.A., you should also send a copy of your request to the PIRIB for its inclusion in the official record that is described in **ADDRESSES**. Mail your copies, identified by docket ID number EPA-HQ-OPP-2005-0292, to: Public Information and Records Integrity Branch, Information Technology and Resource Management Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001. In person or by courier, bring a copy to the location of the PIRIB described in **ADDRESSES**. You may also send an electronic copy of your request via e-mail to: *opp-docket@epa.gov*. Please use an ASCII file format and avoid the use of special characters and any form of encryption. Copies of electronic objections and hearing requests will also be accepted on disks in WordPerfect 6.1/8.0 file format or ASCII file format. Do not include any CBI in your electronic copy. You may also submit an electronic copy of your request at many Federal Depository Libraries.

B. When Will the Agency Grant a Request for a Hearing?

A request for a hearing will be granted if the Administrator determines that the material submitted shows the following: There is a genuine and substantial issue of fact; there is a reasonable possibility that available evidence identified by the requestor would, if established resolve one or more of such issues in favor of the requestor, taking into account uncontested claims or facts to the contrary; and resolution of the factual issue(s) in the manner sought by the requestor would be adequate to justify the action requested (40 CFR 178.32).

IV. Statutory and Executive Order Reviews

This final rule establishes time-limited tolerances under section 408 of the FFDCA. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). Because this rule has been exempted from review

under Executive Order 12866 due to its lack of significance, this rule is not subject to Executive Order 13211, *Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001). This final rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, or impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4). Nor does it require any special considerations under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994); or OMB review or any Agency action under Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note). Since tolerances and exemptions that are established under section 408(l)(6) of the FFDCA in response to an exemption under FIFRA section 18, such as the tolerances in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) do not apply. In addition, the Agency has determined that this action will not have a substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999). Executive Order 13132 requires EPA to develop an accountable process to ensure “meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications.” “Policies that have federalism implications” is defined in the Executive order to include regulations that have “substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.” This final rule directly regulates growers, food

processors, food handlers and food retailers, not States. This action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of section 408(n)(4) of the FFDCA. For these same reasons, the Agency has determined that this rule does not have any “tribal implications” as described in Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 6, 2000). Executive Order 13175, requires EPA to develop an accountable process to ensure “meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications.” “Policies that have tribal implications” is defined in the Executive order to include regulations that have “substantial direct effects on one or more Indian tribes, on the relationship between the Federal Government and the Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.” This rule will not have substantial direct effects on tribal governments, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified in Executive Order 13175. Thus, Executive Order 13175 does not apply to this rule.

V. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the **Federal Register**. This final rule is not a “major rule” as defined by 5 U.S.C. 804(2).

Congressional Review Act

The Commission will send a copy of this Second Report and Order, in a report to be sent to Congress and the General Accounting Office pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A).

Summary of the Report and Order

1. The Commission modified its rules to advance the date on which new television receivers with screen sizes 13-24" and certain other TV receiving devices such as VCRs and digital video recorders must include the capability to receive broadcast digital television signals from the current date of July 1, 2007 to March 1, 2007. The Commission also amended its rules to apply the digital television reception capability requirement to new receivers with screen sizes smaller than 13" on this same schedule. The DTV reception requirement, which also often is termed the "DTV tuner requirement," is being implemented under an approach that applies it first to large screen receivers and then progressively to smaller screen receivers and other devices over a period of several years. The modifications made herein affect the final step of this phase-in plan. With these changes, the scheduled implementation plan will provide for all new TV receiver equipment to include digital reception capability as of March 1, 2007.

2. This action follows the Commission's previous decision in the *Report and Order and Further Notice of Proposed Rulemaking (R&O/FNPRM)*, 70 FR 38800 and 38845, July 6, 2005, in this proceeding to advance the date on which 100 percent of TV receivers with screen sizes 25-36" must include digital reception capability to March 1, 2006. In this regard, the Commission continues to believe that it is essential that DTV reception capability be provided to consumers in new TV receivers as rapidly as possible in order to promote an expeditious completion of the transition from analog to digital broadcast television service. Consistent with that objective, our goal in this
