**SUPPLEMENTARY INFORMATION:**

*Title:* Disaster Food Stamp Program.

*OMB Number:* 0584-0336.

*Expiration Date:* March 31, 2006.

*Type of Request:* Revision of a previously approved collection.

*Abstract:* Pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act and Section 5(h) of the Food Stamp Act of 1977, as amended, the Secretary of Agriculture has the authority to develop an emergency food stamp program to address the temporary food needs of families following a disaster. The information collection under this notice is required to be provided by State agencies in order to receive approval from the Food and Nutrition Service (FNS) to operate an emergency food stamp program as the result of a disaster.

The number of disasters that occur annually and the average number of households affected by disasters cannot be accurately predicted. During the period from calendar year 1996 through calendar year 2004, the number of disasters has ranged from a low of three (in calendar years 2000 and 2001) to highs of 13 and 14 (for calendar years 2003 and 1998 respectively). The information collection under this reporting burden is limited to burden encountered by State agencies in preparing their requests to operate disaster food stamp programs. FNS estimates that approximately 10 hours of State agency personnel time would be required to prepare such requests. Burden associated with the process of applying for food stamp benefits under disaster food stamp programs and the processing of these applications by State and local food stamp personnel are approved under OMB docket #0584-0064. The burden associated with preparing requests to operate disaster food stamp programs varies very little from disaster to disaster and is independent of the scope of the disaster with major disasters requiring little additional document preparation time than relatively minor disasters.

Based on an estimate of eight State agency requests per year to operate disaster food stamp programs and 10 hours of State agency personnel time to prepare each application, we have calculated an estimated burden of 80 hours per year in an average year. This represents a small increase from our 2003 estimate based on a slight increase in the annual average number of disasters. We note that in most years the number of disasters (eight) necessitating the operation of disaster food stamp programs falls below the minimum threshold for which OMB approval of the reporting burden associated with this information collection is required. Since an above average number of disasters may occur in any given year we have elected to submit this information collection to OMB for their approval, and consequently, are requesting public comments associated with the collection.

*Affected Public:* State and local governments.

*Estimated Number of Responses:* 8.

*Estimated Number of Respondents:* 8.

*Estimated Number of Responses per Recipient:* 1.

*Estimated Time per Response:* 10 hours.

*Estimated Total Annual Burden:* 80 hours.

Dated: December 12, 2005.
