

Determination of Sales at Less Than Fair Value: High and Ultra-High Voltage Ceramic Station Post Insulators from Japan, 68 FR 35627 (June 16, 2003); and *Final Determination of Sales at Less Than Fair Value: Live Swine from Canada*, 70 FR 12181 (March 11, 2005).

To be considered corroborated, information must be found to be both reliable and relevant. Unlike other types of information, such as input costs or selling expenses, there are no independent sources for calculated dumping margins. The only sources for calculated margins are administrative determinations. The information upon which the AFA rate we are applying for the current review was calculated during the Less Than Fair Value Investigation. See *Porcelain-on-Steel Cooking Ware from the People's Republic of China; Final Determination of Sales at Less Than Fair Value*, 51 FR 36419 (October 10, 1986) ("*LTFV Investigation*"). Furthermore, the AFA rate we are applying for the current review was applied in reviews subsequent to the *LTFV Investigation* and the Department received no information that warranted revisiting the issue. See, e.g., *Porcelain-On-Steel Cookware from the People's Republic of China; Notice of Final Results of Antidumping Duty Administrative Review*, 62 FR 54825 (October 22, 1997). No information has been presented in the current review that calls into question the reliability of this information. Thus, the Department finds that the information is reliable.

With respect to the relevance aspect of corroboration, the Department will consider information reasonably at its disposal to determine whether a margin continues to have relevance. Where circumstances indicate that the selected margin is not appropriate as AFA, the Department will disregard the margin and determine an appropriate margin. Similarly, the Department does not apply a margin that has been discredited. See *D & L Supply Co. v. United States*, 113 F.3d 1220, 1221 (Fed. Cir. 1997) (the Department will not use a margin that has been judicially invalidated). None of these circumstances are present here. Accordingly, we determine that the highest rate from any segment of this administrative proceeding, 66.65 percent, meets the corroboration criteria established in section 776(c) of the Act that secondary information have probative value.

Preliminary Results of the Review

The Department preliminarily finds that the following margins exist for the

following exporters under review during the period December 1, 2003, through November 30, 2004:

PORCELAIN-ON-STEEL COOKING WARE FROM THE PRC

Manufacturer/Exporter	Weighted-Average Margin (Percent)
PRC-wide Rate	66.65

Case briefs from interested parties may be submitted not later than January 17, 2006, pursuant to 19 CFR 351.309(c). Rebuttal briefs, limited to issues raised in the case briefs, will be due not later than January 24, 2006, pursuant to 19 CFR 351.309(d). Parties who submit case briefs or rebuttal briefs in this proceeding are requested to submit with each argument: (1) a statement of the issue; and (2) a brief summary of the argument. Parties are also encouraged to provide a summary of the arguments not to exceed five pages and a table of statutes, regulations and cases cited. Any interested party may request a hearing within 30 days of publication of this notice.

Interested parties who wish to request a hearing or to participate if one is requested, must submit a written request to the Assistant Secretary for Import Administration, Room B-099, within 30 days of the date of publication of this notice. Requests should include: (1) the party's name, address, and telephone number; (2) the number of participants; and (3) a list of issues to be discussed. See 19 CFR 351.310(c). Issues raised in the hearing will be limited to those raised in case briefs and rebuttal briefs.

The Department will issue the final results of this administrative review, including the results of its analysis of issues raised in any such written briefs or at the hearing, if held, no later than 120 days after the date of publication of this notice.

Assessment of Antidumping Duties

The Department will determine, and CBP shall assess, antidumping duties on all appropriate entries. The Department will issue appropriate assessment instructions directly to CBP within 15 days of publication of the final results of this review.

Cash Deposits

The following cash-deposit requirements will be effective upon publication of the final results for shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results, as

provided by section 751(a)(2)(C) of the Act: (1) For subject merchandise exported by the PRC, including Watex, the cash-deposit rate will be equal to 66.65 percent; (2) the cash-deposit rate for PRC exporters who received a separate rate in a prior segment of the proceeding will continue to be the rate assigned in that segment of the proceeding; (3) for all other PRC exporters of subject merchandise which have not been found to be entitled to a separate rate, the cash-deposit rate will be the PRC-wide rate of 66.65 percent; (4) for all non-PRC exporters of subject merchandise, the cash-deposit rate will be the rate applicable to the PRC exporter that supplied that exporter.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice is in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(4).

Dated: December 15, 2005.

Stephen J. Claeys,

Acting Assistant Secretary for Import Administration.

Antidumping Duty Order: Superalloy Degassed Chromium from Japan

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: Based on affirmative final determinations by the Department of Commerce and International Trade Commission, the Department of Commerce is issuing an antidumping duty order on superalloy degassed chromium from Japan.

EFFECTIVE DATE: December 22, 2005.

FOR FURTHER INFORMATION CONTACT: Janis Kalnins or Mino Hatten, AD/CVD Operations, Office 5, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-1392, or (202) 482-1690, respectively.

SUPPLEMENTARY INFORMATION:

Background

On November 1, 2005, we published the final determination of sales at less than fair value of superalloy degassed chromium from Japan. See *Notice of Final Determination of Sales at Less Than Fair Value: Superalloy Degassed Chromium from Japan*, 70 FR 65886 (November 1, 2005). On December 16, 2005, the International Trade Commission (ITC) notified the Department of Commerce (the Department) of its final determination pursuant to section 735(d) of the Tariff Act of 1930, as amended (the Act), that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act by reason of less-than-fair-value imports of superalloy degassed chromium from Japan. See letter from the ITC to the Secretary of Commerce, Notification of Final Affirmative Determination of Superalloy Degassed Chromium from Japan (Investigation No. 731-TA-1090 (Final)), dated December 16, 2005. Pursuant to section 736(a) of the Act, the Department is publishing an antidumping duty order on the subject merchandise.

Scope of Order

The product covered by this order is all forms, sizes, and grades of superalloy degassed chromium from Japan. Superalloy degassed chromium is a high-purity form of chrome metal that generally contains at least 99.5 percent, but less than 99.95 percent, chromium. Superalloy degassed chromium contains very low levels of certain gaseous elements and other impurities (typically no more than 0.005 percent nitrogen, 0.005 percent sulphur, 0.05 percent oxygen, 0.01 percent aluminum, 0.05 percent silicon, and 0.35 percent iron). Superalloy degassed chromium is generally sold in briquetted form, as "pellets" or "compacts," which typically are 1½ inches x 1 inch x 1 inch or smaller in size and have a smooth surface. Superalloy degassed chromium is currently classifiable under subheading 8112.21.00 of the Harmonized Tariff Schedule of the United States (HTSUS). This order covers all chromium meeting the above specifications for superalloy degassed

chromium regardless of tariff classification.

Certain higher-purity and lower-purity chromium products are excluded from the scope of this order. Specifically, the order does not cover electronics-grade chromium, which contains a higher percentage of chromium (typically not less than 99.95 percent), a much lower level of iron (less than 0.05 percent), and lower levels of other impurities than superalloy degassed chromium. The order also does not cover "vacuum melt grade" (VMG) chromium, which normally contains at least 99.4 percent chromium and contains a higher level of one or more impurities (nitrogen, sulphur, oxygen, aluminum and/or silicon) than specified above for superalloy degassed chromium.

Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

Antidumping Duty Order

In accordance with section 736(a)(1) of the Act, the Department will direct U.S. Customs and Border Protection (CBP) to assess, upon further instruction by the Department, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price (or the constructed export price) of the merchandise for all relevant entries of superalloy degassed chromium from Japan. These antidumping duties will be assessed on (1) all entries of superalloy degassed chromium from Japan entered, or withdrawn from the warehouse, for consumption on or after August 18, 2005, the date on which the Department published its *Notice of Preliminary Determination of Sales at Less Than Fair Value: Superalloy Degassed Chromium from Japan*, 70 FR 48538 (August 18, 2005), and before December 16, 2005, the date on which the Department is required, pursuant to section 733(d) of the Act, to terminate the suspension of liquidation, and (2) on all subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the ITC's notice of final determination in the **Federal Register**. Entries of superalloy degassed chromium from Japan made between December 16, 2005, and the day preceding the date of publication of the ITC's notice of final determination in the **Federal Register** are not liable for the assessment of antidumping duties.

On and after the date of publication of the ITC's notice of final determination in the **Federal Register**, CBP will require, at the same time as

importers would normally deposit estimated duties on this merchandise, cash deposits for the subject merchandise equal to the estimated weighted-average antidumping margins listed below. The all-others rate applies to all entries of the subject merchandise except for entries from the company that is identified below.

Manufacturer or exporter	Weighted-average margin (percent)
JFE Material Co., Ltd. ..	129.32
All Others	129.32

This notice constitutes the antidumping duty order with respect to superalloy degassed chromium from Japan, pursuant to section 736(a) of the Act. Interested parties may contact the Department's Central Records Unit, Room B-099 of the main Commerce building, for copies of an updated list of antidumping duty orders currently in effect.

This order is issued and published in accordance with section 736(a) of the Act and 19 CFR 351.211(b).

Dated: December 16, 2005.

Stephen J. Claeys,
Acting Assistant Secretary for Import Administration.
