

Energy Limited, 3400, 205–5th Avenue, SW., Calgary, Alberta T2P 2V7 or call (403) 770–4824.

Specifically, Regent and Sword request the Commission to issue an order: (1) Transferring Regent's NGA section 3 authorization to Sword for the operation and maintenance of facilities for the importation of natural gas from the Province of Alberta, Canada, into Glacier County, Montana; and (2) authorizing the assignment of Regent's March 19, 2003, Presidential Permit for the operation and maintenance of facilities at the Alberta, Canada/Montana import point.

The import facilities consist of (1) a gas meter station in LSD 8–4–1–16 W4M in the Province of Alberta; (2) a 4-inch (114.3 mm) diameter pipeline located directly south of this meter station across the Canada-United States border at Section 1 T37N R5W, extending a distance of approximately 2,300 feet. The pipeline crosses the International Boundary for a distance of 30 feet (the Coutts Gas Export Pipeline) and interconnects with a 4-inch (114.3 mm) diameter pipeline (the Connector Pipeline) operated by Regent Resources Inc., a Montana incorporated company that is a wholly owned subsidiary of Regent Resources Ltd. The Connector Pipeline connects with an existing North Western-operated gathering system in northern Montana at SE. ¼ Section 8, Township 37N, Range 4W downstream of the North Western-operated North Moulton compressor station.

Regent and Sword state that the border facilities will remain in place and operation following the requested transfer and assignment. Regent and Sword also state that there are no current third party service agreements associated with the Regent pipeline, although Sword would be prepared to offer transportation services to any other shipper.
