Type of Request: Extension for a currently approved information collection.

Abstract: USDA Rural Development's Office of Community Development administers the rural Empowerment Zones and Enterprise Communities (EZ/EC) program, an initiative designed to provide economically depressed rural areas and communities with real opportunities for growth and revitalization. Its mission: To create self-sustaining, long-term economic development in areas of pervasive

poverty, unemployment, and general distress, and to demonstrate how distressed communities can achieve self-sufficiency through innovative and comprehensive strategic plans developed and implemented by alliances among private, public, and nonprofit entities.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 11 hours per response.

Respondents: Rural Empowerment Zones, Rural Enterprise Communities and Champion Communities.

Estimated Number of Respondents: 110.

Estimated Number of Responses per Respondent: 2.

Estimated Number of Responses: 220.

Estimated Total Annual Burden on Respondents: 2,402 hours.

Copies of this information collection can be obtained from Cheryl Thompson, Regulations and Paperwork Management Branch, Support Services Division at (202) 692-0043.

Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Office of the Secretary, including whether the information will have practical utility; (b) the accuracy of the Office of the Secretary's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments may be sent to Cheryl Thompson, Regulations and Paperwork Management Branch, Support Services Division, U.S. Department of Agriculture, Rural Development, STOP 0742, 1400 Independence Ave., SW., Washington, DC 20250-0742. SUPPLEMENTARY INFORMATION:

Title: National Veterinary Accreditation Program.

OMB Number: 0579-0032.

Type of Request: Extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture is responsible for, among other things, protecting the health of our Nation's livestock and poultry populations by preventing the introduction and spread of serious diseases and pests of livestock and poultry and for eradicating such diseases and pests from the United States when feasible.

To help us accomplish our mission, APHIS' Veterinary Services administers the National Veterinary Accreditation Program. This program certifies private veterinary practitioners to work cooperatively with Federal veterinarians, as well as with State animal health officials, to conduct certain activities for us. Accredited veterinarians are instrumental in increasing our capacity to perform health certifications and conduct extensive disease surveillance and monitoring.

Operating this program requires a number of information gathering activities, including:

- Conducting veterinary accreditation orientation and training.
- Completing animal health certificates.
- Applying and removing official seals.

- Completing test reports.
- Reviewing applications for veterinary accreditation and reaccreditation.
- Recordkeeping.
- Updating information on accredited veterinarians.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.477348 hours per response.

Respondents: Accredited veterinarians, candidates for the National Veterinary Accreditation Program, and State animal health officials who review applications for veterinary accreditation and reaccreditation.

Estimated annual number of respondents: 63,000.

Estimated annual number of responses per respondent: 2.095936.

Estimated annual number of responses: 132,044.

Estimated total annual burden on respondents: 63,031 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 29th day of December 2005.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
