Paxar Americas, Inc.; a Subsidiary of Paxar Corporation; Sayer, PA; Notice of Revised Determination on Reconsideration of Alternative Trade Adjustment Assistance

By letter dated December 9, 2005, a company official requested administrative reconsideration regarding Alternative Trade Adjustment Assistance (ATAA) applicable to workers of the subject firm. The negative determination was signed on November 10, 2005, and was published in the **Federal Register** on December 6, 2005 (70 FR 72654).

The workers of Paxar Americas, Inc., a subsidiary of Paxar Corporation, Sayer, Pennsylvania, were certified eligible to apply for Trade Adjustment Assistance (TAA) on November 10, 2005.

The initial ATAA investigation determined that the skills of the subject worker group are easily transferable to other positions in the local area.

In the request for reconsideration, the company official provided new information confirming that the skills of the workers at the subject firm are not easily transferable in the local commuting area.

Additional investigation has determined that the workers possess skills that are not easily transferable. A significant number or proportion of the worker group are age fifty years or over. Competitive conditions within the industry are adverse.

# Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that the requirements of Section 246 of the Trade Act of 1974, as amended, have been met for workers at the subject firm.

In accordance with the provisions of the Act, I make the following certification:

All workers of Paxar Americas, Inc., a subsidiary of Paxar Corporation, Sayer, Pennsylvania, who became totally or partially separated from employment on or after October 4, 2004 through November 10, 2007, are eligible to apply for trade adjustment assistance under Section 223 of the Trade Act of 1974 and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

Signed in Washington, DC, this 30th day of December 2005.

#### Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.

## Mine Safety and Health Administration

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Roof Control Plan

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95)[44 U.S.C. 3506 (c)(2)(A)]. The program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the extension of the information collection related to the 30 CFR Sections:

75.215—Longwall mining systems; 75.220—Roof control plan; 75.221—Roof control plan information;

75.222—Roof control plan-approval criteria; and

75.223—Evaluation and revision of roof control plan.

DATES: Interested parties should submit comments on or before March 13, 2006. ADDRESSES: Send comments to U.S. Department of Labor, Mine Safety and Health Administration, John Rowlett, Director, Management Services Division, 1100 Wilson Boulevard, Room 2134, Arlington, VA 22209–3939. Commenters are encouraged to send their comments on a computer disk, or via E-mail to Rowlett.John@dol.gov,

along with an original printed copy. Mr. Rowlett can be reached at (202) 693–9827 (voice), or (202) 693–9801 (facsimile). Because of potential delays in receipt and processing of mail, respondents are strongly encouraged to submit comments electronically to ensure timely receipt. We cannot guarantee that comments mailed will be received before the comment closing date.

## FOR FURTHER INFORMATION CONTACT: Contact the employee listed in the ADDRESSES section of this notice. SUPPLEMENTARY INFORMATION:

### I. Background

Section 302(a) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 846, requires that a roof control plan and revisions thereof suitable to the roof conditions and mining system of each coal mine be first approved by the Secretary of Labor (Secretary) before implementation by the operator. The plan must show the type of support and spacing approved by the Secretary, and the plan must be reviewed at least every 6 months by the Secretary.

Under 30 CFR 75.221, the information required to be submitted and approved in the roof control plan includes the following: (1) The name and address of the company; (2) the name, address, mine identification number, and location of the mine; (3) the name and title of the company official responsible for the plan; (4) a description of the mine strata; (5) a description and drawings of the sequence of installation and spacing of supports for each method of mining used; (6) the maximum distance that an ATRS system is to be set beyond the last row of permanent support (if appropriate); (7) specifications and installation procedures for liners or arches (if appropriate); (8) drawings indicating the planned width of openings, size of pillars, method of pillar recovery, and the sequence of mining pillars; (9) a list of all support materials required to be used in the roof, face and rib control system; (10) the intervals at which test holes will be drilled (if appropriate); and (11) a description of the methods to be used for the protection of persons. Under 30 CFR 75.215, the roof control plan for each longwall mining section is required to specify the methods that will be used to maintain a safe travelway out of the section through the tailgate side of the longwall and the procedures that will be followed if a ground failure prevents travel out of the section through the tailgate side of the longwall.
