SUPPLEMENTARY INFORMATION:**I. Proposed New Systems of Records****A. Systems of Records Adopted From the Department of Health and Human Services (HHS)**

Under provisions of the Social Security Independence and Program Improvements Act of 1994 (Pub. L. 103-296), the Social Security Administration (SSA) became a separate Agency independent of HHS in 1995. Prior to becoming independent of HHS, SSA operated under a number of Privacy Act systems of records that applied HHS-wide to all HHS components, including SSA. Pursuant to section 106(b) of the legislation, we have continued to operate under those systems of records to date. However, because we have acquired the functions that were covered by some of the HHS systems of records, we have adopted these systems of records as our own. We have made conforming changes to the systems of records to identify them as new SSA systems of records. These notices of systems of records are:

1. Safety Management Information System (SSA Accident Injury and Illness Reporting System), 60-0228 (formerly 09-90-0005, Safety Management Information System (HHS) Accident Injury and Illness Reporting System)
2. SSA Parking Management Record System, 60-0230 (formerly 09-90-0023, Departmental Parking Control Policy and Records System)
3. Financial Transactions of SSA Accounting and Finance Offices, 60-0231 (formerly 09-90-0024, Financial Transactions of HHS Accounting and Finance Offices)
4. Central Registry of Individuals Doing Business with SSA (Vendor File), 60-0232 (formerly 09-90-0025, Central Registry of Individuals Doing Business with HHS (Vendor File))
5. Employee Assistance Program (EAP) Records, 60-0234 (formerly 09-90-0010)
6. Employee Development Program Records, 60-0236 (formerly 09-90-0012, Executive Development Records)
7. Employees' Medical Records, 60-0237 (formerly 09-90-0013, Federal Employee's Occupational Health Program Records)
8. Pay, Leave and Attendance Records, 60-0238 (formerly 09-90-0017, Pay, Leave and Attendance Records)
9. Personnel Records in Operating Offices, 60-0239 (formerly 09-90-0018 Personnel Records in Operating Offices)
10. Employee Suggestion Program Records, 60-0241 (formerly 09-90-0036)
11. Administrative Grievances Filed Under Part 771 of 5 CFR, 60-0244 (formerly 09-90-0014, Grievances filed under part 771 of 5 CFR)
12. Negotiated Grievance Procedures, 60-0245 (formerly 09-90-0015, Grievance Records Filed Under Procedures Established by Labor-Management Negotiations)
13. EEO Counselor and Investigator Personnel Records, 60-0250 (formerly 09-

90-0022, Volunteer EEO Support Personnel Records)

14. Claims Under the Federal Tort Claims Act and Military Personnel and Civilian Employees' Claims Act, 60-0259, (formerly 09-90-0062, Administrative Claims)
15. Attorney Applicant Files, 60-0262, (formerly 09-90-0066, OGC Attorney Applicant Files)
16. Litigation Docket and Tracking System, 60-0274 (formerly 09-90-9999, Automated Litigation Tracking System)
17. Civil Rights Complaints Filed by Members of the Public, 60-0275, (formerly 09-90-0051, Complaint Files and Logs)

B. New SSA Privacy Act System of Records

We are combining two separate systems of records, the Administrative Law Judge Docket, 60-0008 and the Hearing Office Master Docket of Claimant Cases, 60-0184, into a single system of records, the Hearing Office Tracking System (HOTS) of Claimant Cases, 60-0010. We will use HOTS for the same purposes for which we used Administrative Law Judge Docket, 60-0008, and Hearing Office Master Docket of Claimant Cases, 60-0184. We are deleting the notices of the two systems of records (see section II.1. below.)

II. Proposed Alterations to Existing SSA Privacy Act Systems of Records

We are making alterations to the following systems of records as discussed below.

1. *Master Files of Social Security Number (SSN) Holders and SSN Applications*, 60-0058. We are expanding the "Categories of records in the system" to indicate that codes pertaining to SSNs assigned under certain conditions are maintained.

2. *Earnings Recording and Self-Employment Income System*, 60-0059.

We are making the following changes:

- Expanding the "Categories of records in the system" to include information about individuals who apply for a certificate of coverage exempting them from coverage and taxes under the social security system of a foreign country, as provided in a Social Security agreement between the United States and that foreign country.

- Expanding the "Purpose(s)" section of the notice of this system of records to reflect that in connection with the issuance of certificates of coverage, information in this system of records is used: (1) To determine whether an individual who requests a certificate of coverage, establishing a foreign coverage exemption under a Social Security agreement, has been issued one or more certificates in the past; and (2) to respond to inquiries concerning a worker's Social Security coverage status

from an appropriate agency in a country which has a Social Security agreement with the United States.

- Adding two new routine use disclosures (see discussion in section III.A., items 1. and A.2. below).

3. *Automated Document Control and Retrieval System, 60-0002.* We are changing the "System name" from Automated Document Control and Retrieval System to Optical System for Correspondence Analysis and Response.

III. Proposed New and Revised Routine Use Disclosures

A. Discussion of Proposed Routine Uses

We are proposing to establish new routine use disclosures of information that will be maintained in the systems of records discussed below.

1. To the Department of Housing and Urban Development (HUD) in accordance with 26 U.S.C. 6103(l)(7), upon written request, tax return information (e.g., information with respect to wages, net earnings from self-employment, and payments of retirement income which have been disclosed to the Social Security Administration), for use by HUD in an initial or periodic review of the income of an applicant or participant in any HUD housing assistance program.

This proposed routine use disclosure is applicable to the Earnings Recording and Self-Employment Income System, 60-0059. Section 6103(l)(7) of the Internal Revenue Code requires the Commissioner of Social Security, upon written request, to disclose tax return information to HUD for the purposes stated above. These disclosures will allow HUD to confirm the accuracy of tenant-reported income when determining applicant and participant eligibility for, and level of, housing assistance benefits.

2. To any source that has, or is expected to have, information that SSA needs in order to establish or verify a person's eligibility for a certificate of coverage under a Social Security agreement authorized by section 233 of the Social Security Act.

This proposed routine use disclosure is applicable to the Earnings Recording and Self-Employment Income System, 60-0059. When determining an individual's eligibility for a certificate of coverage under a Social Security agreement authorized by section 233 of the Social Security Act, SSA must be able to contact appropriate sources, as necessary, for information relating to the issuance of certificates of coverage.

3. To contractors and other Federal agencies, as necessary, for the purpose of assisting the Social Security

Administration (SSA) in the efficient administration of its programs. We will disclose information under this routine use only in situations in which SSA may enter into a contractual or similar agreement with a third party to assist in accomplishing an agency function relating to this system of records.

This proposed routine use disclosure is applicable to the Financial Transactions of SSA Accounting and Finance Offices, 60-0231, and the Central Registry of Individuals Doing Business with SSA (Vendor File), 60-0232. SSA occasionally contracts out certain of its functions when this would contribute to effective and efficient operations. SSA must be able to give a contractor whatever information the Agency can legally provide in order for the contractor to fulfill its duties. In these situations, safeguards are provided in the contract prohibiting the contractor from using or disclosing the information for any purpose other than that described in the contract.

4. To Federal, State, and local law enforcement agencies and private security contractors, as appropriate, information necessary:

- To enable them to protect the safety of Social Security Administration (SSA) employees and customers, the security of the SSA workplace and the operation of SSA facilities; or
- To assist investigations or prosecutions with respect to activities that affect such safety and security or activities that disrupt the operation of SSA facilities.

This proposed routine use disclosure is applicable to the Assignment and Correspondence Tracking (ACT) System, 60-0001. We will disclose information under the routine use to law enforcement agencies and private security contractors when the information is needed to investigate, prevent, or respond to activities that jeopardize the security and safety of SSA customers, employees or workplaces or that otherwise disrupt the operation of SSA facilities. Information would also be disclosed to assist in the prosecution of persons charged with violating Federal or local law in connection with such activities.

5. To the Office of the President for the purpose of responding to an individual pursuant to an inquiry received from that individual or from a third party on his/her behalf.

This proposed routine use disclosure is applicable to the Assignment and Correspondence Tracking (ACT) System, 60-0001. We will disclose information under this routine use only in situations in which an individual may contact the Office of the President,

seeking that Office's assistance in a matter relating to the Assignment and Correspondence Tracking (ACT) System. Information will be disclosed when the Office of the President makes an inquiry and indicates that it is acting on behalf of the individual whose record is requested.

6. To the Department of Treasury to:

- Find out whether or not the individual has a delinquent tax account for the purpose of determining the individual's creditworthiness for the loan in question under the Internal Revenue Code (26 U.S.C. 6103(l)(3)(A)-(C)), and

- Assist SSA in recovering the collection of delinquent administrative debts through Administrative Wage Garnishment (AWG) (31 U.S.C. 3720D) via the Treasury Cross Servicing program as authorized by the Debt Collection Improvement Act of 1996.

This proposed routine use is a revision of existing routine use numbered 11 that is applicable to the system of records entitled Financial Transactions of SSA Accounting and Finance Offices, 60-0231. The revised routine use will allow the disclosure of information to the Department of Treasury to assist SSA in collecting delinquent administrative debts from the wages of debtors in the private sector.

7. To the Secretary of Health and Human Services or to any State, the Commissioner shall disclose any record or information requested in writing by the Secretary for the purpose of administering any program administered by the Secretary, if records or information of such type were so disclosed under applicable rules, regulations and procedures in effect before the date of enactment of the Social Security Independence and Program Improvements Act of 1994.

This proposed routine use in compliance with section 704(e)(1)(B) of the Social Security Independence and Program Improvements Act of 1994, which mandates certain disclosures to HHS components. This routine use is applicable to the following systems of records:

- Optical System for Correspondence Analysis and Response, 60-0002
- Storage of Hearing Records: Tape Cassettes and Audiograph Discs, 60-0006
- Listing and Alphabetical Name File (Folder) of Vocational Experts, Medical Experts, and Other Health Care Professional and/or Non-Health Care Professional Experts (Medicare), 60-0012
- Records of Usage of Medical Experts, Vocational Experts, and Other

Health Care Professional and/or Non-Health Care Professional Experts (Medicare), 60-0013

- National Disability Determination Services (NDDS) File, 60-0044
- Disability Determination Service Consultants File, 60-0046
- Completed Determination Record—Continuing Disability Determinations, 60-0050
- Master Files of Social Security Number (SSN) Holders and SSN Applications, 60-0058
- Earnings Recording and Self-Employment Income System, 60-0059

- Public Inquiry Correspondence File, 60-0078
- Master Beneficiary Record, 60-0090
- Supplemental Security Income Record and Special Veterans Benefits, 60-0103
- Non-Contributory Military Service Reimbursement System, 60-0118
- Disability Insurance and Supplemental Security Income Demonstration Projects and Experiments System, 60-0218
- Representative Disqualification/Suspension Information System, 60-0219
- Vocational Rehabilitation Reimbursement Case Processing System, 60-0221
- Master Representative Payee File, 60-0222
- Personnel Records in Operating Offices, 60-0239
- Plans for Achieving Self-Support (PASS) Management Information System, 60-0255 (formerly 05-009)
- Social Security Administration's Customer PIN/Password (PPW) Master File System, 60-0290

B. Compatibility of Proposed Routine Uses

The Privacy Act (5 U.S.C. 552a(b)(3)) and our disclosure regulations (20 CFR part 401) permit us to disclose information under a published routine use for a purpose which is compatible with the purpose for which we collected the information. Section 401.150(c) of SSA's regulations permits us to disclose information under a routine use where necessary to assist in carrying out SSA programs or other government programs that have the same purposes as SSA programs. Section 401.120 of SSA's regulations provides that we will disclose information when a law specifically requires the disclosure. The proposed routine uses are appropriate and meet the relevant statutory and regulatory criteria.

IV. Housekeeping Revisions to Systems of Records

1. *Commissioner's Correspondence File, 60-0001*. We are changing the "System name" from Commissioner's Correspondence File to Assignment and Correspondence Tracking System (ACT) and revising the language in the "Categories of individuals covered by the system" to read "Any individual or entity" rather than "person or group."

2. *Extramural Surveys (Statistics) System, 60-0199 and the Disability Insurance and Supplemental Security Income Demonstration Projects and Experiments System, 60-0218*. - Revising the "Categories of records in the system" to clarify that in addition to the names and titles of persons making or reviewing the determination on a claim, we also maintain the SSNs of the DDS personnel;

- Clarifying the language in the "Purpose(s)" section to read as follows: The records are used primarily for processing Social Security Title II disability insurance (DI) and Title XVI Supplemental Security Income (SSI) disability for detecting and correcting deficiencies and problems involved in case processing, to track case movement through the DDS, to respond to inquiries on case status, and to provide recurring and one-time management information; and

- Updating the "Policies and practices for storing, retrieving, accessing, retaining and disposing of records in the system" section to reflect current storage, retention, and disposal practices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Each DDS maintains its own records and the method of storage may vary from State to State and within the FDDS. Generally, the information is on a file card maintained in a standard card file cabinet. However, some States may use an automated format.

RETRIEVABILITY:

Records are retrieved by consultant's surname.

SAFEGUARDS:

Only authorized SSA and DDS personnel have access to these records. Personal information other than the name of the consultant is subject to the disclosure restrictions of 5 U.S.C. 552(b)(6), 21 U.S.C. 1175, and 42 U.S.C. 1306. Access http://www.socialsecurity.gov/foia/bluebook/app_g.htm for additional information relating to SSA data security measures.

RETENTION AND DISPOSAL:

DDS policy as to retention and disposal varies from State to State and within the FDDS, but generally, the file is destroyed upon death, retirement or relocation of the consultant.

SYSTEM MANAGER(S) AND ADDRESS(ES):

Social Security Administration, Associate Commissioner, Office of Disability Determinations, 6401 Security Boulevard, Baltimore, Maryland 21235.

NOTIFICATION PROCEDURES:

An individual can determine if this system contains a record about him/her by providing name and address to the DDS Administrator, c/o the State in which he or she resides and/or information is likely to be maintained (contact the system manager at the address above or access http://www.socialsecurity.gov/foia/bluebook/app_b.htm for address information).

An individual requesting notification of records in person should provide the same information, as well as provide an identity document, preferably with a photograph, such as a driver's license or some other means of identification. If an individual does not have any identification documents sufficient to establish his/her identity, the individual must certify in writing that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense.

If notification is requested by telephone, an individual must verify

his/her identity by providing identifying information that parallels information in the record to which notification is being requested. If it is determined that the identifying information provided by telephone is insufficient, the individual will be required to submit a request in writing or in person. If an individual is requesting information by telephone on behalf of another individual, the subject individual must be connected with the Social Security Administration (SSA) and the requesting individual in the same phone call. SSA will establish the subject individual's identity (his/her name, Social Security number, address, date of birth and place of birth, along with one other piece of information, such as mother's maiden name) and ask for his/her consent in providing information to the requesting individual.

If a request for notification is submitted by mail, an individual must include a notarized statement to SSA to verify his/her identity or must certify in the request that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense. These procedures are in accordance with SSA Regulations (20 CFR 401.40(c)).

RECORD ACCESS PROCEDURES:

Same as Notification procedures. Requesters also should reasonably specify the record contents being sought. These access procedures are in accordance with SSA Regulations (20 CFR 401.40(c)).

CONTESTING RECORD PROCEDURES:

Same as Notification procedures. Requesters also should reasonably identify the record, specify the information they are contesting and the corrective action sought, and the reasons for the correction, with supporting justification showing how the record is incomplete, untimely, inaccurate or irrelevant. These procedures are in accordance with SSA Regulations (20 CFR 401.65(a)).

RECORD SOURCE CATEGORIES:

Information is obtained mostly from the consultant. Observations of DDS personnel about the consultant, such as the individual's general promptness in filing reports, may occasionally be found in a consultant's file.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records in this system are maintained in paper form (e.g., Forms SS-5 (Application for an SSN card), and system generated forms); magnetic media (e.g., magnetic tape and disc with on-line access); in microfilm and microfiche form and on electronic files (e.g., NUMIDENT and Alpha-Index).

RETRIEVABILITY:

Records of SSN holders are indexed by both SSN and name. Records of applications that have been denied because the applicant submitted fraudulent evidence, or that are being verified because the evidence is suspected to be fraudulent, are indexed either by the applicant's name plus month and year of birth, or by the applicant's name plus the eleven-digit reference number of the disallowed application.

SAFEGUARDS:

Safeguards for automated records have been established in accordance with the Systems Security Handbook. This includes maintaining the magnetic

tapes and discs within a secured enclosure attended by security guards. Anyone entering or leaving this enclosure must have a special badge issued only to authorized personnel.

For computerized records electronically transmitted between Central Office and Field Office locations (including organizations administering SSA programs under contractual agreements), safeguards include a lock/unlock password system, exclusive use of leased telephone lines, a terminal-oriented transaction matrix, and an audit trail. All microfilm, microfiche, and paper files are accessible only by authorized personnel who have a need for the records in the performance of their official duties.

Expansion and improvement of SSA telecommunications systems has resulted in the acquisition of terminals equipped with physical key locks. The terminals also are fitted with adapters to permit the future installation of data encryption devices and devices to permit the identification of terminal users. Access http://www.socialsecurity.gov/foia/bluebook/app_g.htm for additional information relating to SSA data security measures.

RETENTION AND DISPOSAL:

Most paper forms are retained only until they have been filmed and verified for accuracy. They then are destroyed by shredding. Electronic, as well as updated microfilm and microfiche records, are retained indefinitely. All tape, discs, microfilm and microfiche files are updated periodically. Out-of-date magnetic tapes and discs are erased. Out-of-date microfiches are disposed of by shredding.

SSA will establish the subject individual's identity (his/her name, SSN, address, date of birth and place of birth, along with one other piece of information, such as mother's maiden name) and ask for his/her consent in providing information to the requesting individual.

If a request for notification is submitted by mail, an individual must include a notarized statement to SSA to verify his/her identity or must certify in the request that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense. A record is maintained under each individual's Social Security number (SSN). However, if the individual has filed on another person's SSN, only a short "pointer" record is maintained. Personal and general data about the claim is maintained under the SSN of that claim. There are three types of data in each CAN:

Account data: This includes the primary insurance amount, insured status of the SSN holder (if no monthly benefits are payable), data relating to the computation (use of military service credits, railroad retirement credits, or coverage credits earned under the Social Security system of a foreign country when the claim is based on a totalization agreement), and, if only survivor's benefits have been paid, identifying data about the SSN holder (full name, date of birth, date of death and verification of date of death).

Payment data: This includes the payee's name and address, data about a financial institution (if benefits are sent directly to the institution for deposit), the monthly payment amount, the amount and date of a one-time payment of past due benefits, and, where appropriate, a scheduled future payment.

Beneficiary data: This includes personal information (name, date of birth, sex, date of filing, relationship to the SSN holder, other SSNs, benefit amount and payment status), and, if applicable, information about a representative payee, data about disability entitlement, worker's compensation offset data, estimates and report of earnings, or student entitlement information.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosure pursuant to 5 U.S.C. 552a(b)(12) may be made to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 as amended (31 U.S.C. 3701, *et seq.*) or the Social Security Domestic Employment Reform Act of 1994, Public Law 103-387, 42 U.S.C. 404(f). The purpose of this disclosure is to aid in the collection of outstanding debts owed to the Federal Government, typically, to provide an incentive for debtors to repay

delinquent Federal Government debts by making these part of their credit records.

Disclosure of records is limited to the individual's name, address, SSN, and other information necessary to establish the individual's identity; the amount, status, and history of the claim and the agency or program under which the claim arose. The disclosure will be made only after the procedural requirements of 31 U.S.C. 3711(e) has been followed.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in magnetic media (e.g., magnetic tape and magnetic disk) and in microform and paper form.

RETRIEVABILITY:

Records in this system are indexed and retrieved by SSN.

SAFEGUARDS:

Safeguards for automated records have been established in accordance with the Systems Security Handbook. All magnetic tapes and disks are within an enclosure attended by security guards. Anyone entering or leaving this enclosure must have special badges which are issued only to authorized personnel. All microform and paper files are accessible only by authorized personnel and are locked after working hours.

For computerized records, electronically transmitted between SSA's central office and field office locations (including organizations administering SSA programs under contractual agreements), safeguards include a lock/unlock password system, exclusive use of leased telephone lines, a terminal oriented transaction matrix, and an audit trail. Access http://www.socialsecurity.gov/foia/bluebook/app_g.htm for additional information relating to SSA data security measures.

RETENTION AND DISPOSAL:

Primary data storage is on magnetic disk. A new version of the disk file is generated each month based on changes to the beneficiary's record (adjustment in benefit amount, termination, or new entitlements). The prior version is written to tape and retained for 90 days in SSA's main data processing facility and is then sent to a secured storage facility for indefinite retention.

Selected records also are retained on magnetic disk for on-line query purposes. The query files are updated monthly and retained indefinitely. Microform records are disposed of by

shredding or the application of heat after periodic replacement of a complete file.

Paper records are usually destroyed after use, by shredding, except where needed for documentation of the claims folder. (See the notice for the Claims Folders System, 60-0089 for retention periods and method of disposal for these records).

SYSTEM MANAGER(S) AND ADDRESS(ES):

Associate Commissioner, Office of Retirement and Survivors Insurance Systems, Social Security Administration, 6401 Security Boulevard, Baltimore, MD 21235.

NOTIFICATION PROCEDURES:

An individual can determine if this system contains a record about him/her by writing to the system manager(s) at the above address and providing his/her name, SSN or other information that may be in the system of records that will identify him/her. An individual requesting notification of records in person should provide the same information, as well as provide an identity document, preferably with a photograph, such as a driver's license or some other means of identification. If an individual does not have any identification documents sufficient to establish his/her identity, the individual must certify in writing that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense.

If notification is requested by telephone, an individual must verify his/her identity by providing identifying information that parallels information in the record to which notification is being requested. If it is determined that the identifying information provided by telephone is insufficient, the individual will be required to submit a request in writing or in person. If an individual is requesting information by telephone on behalf of another individual, the subject individual must be connected with SSA and the requesting individual in the same phone call. SSA will establish the subject individual's identity (his/her name, SSN, address, date of birth and place of birth, along with one other piece of information, such as mother's maiden name) and ask for his/her consent in providing information to the requesting individual.

If a request for notification is submitted by mail, an individual must include a notarized statement to SSA to verify his/her identity or must certify in the request that he/she is the person

claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense. These procedures are in accordance with SSA Regulations (20 CFR 401.40(c)).

RECORD ACCESS PROCEDURES:

Same as Notification procedures. Also, requesters should reasonably specify the record contents they are seeking. These procedures are in accordance with SSA Regulations (20 CFR 401.40(c)).

CONTESTING RECORD PROCEDURES:

Same as Notification procedures. Requesters should also reasonably identify the record, specify the information they are contesting and the corrective action sought, and the reasons for the correction, with supporting justification showing how the record is untimely, incomplete, inaccurate or irrelevant. These procedures are in accordance with SSA Regulations (20 CFR 401.65(a)).

RECORD SOURCE CATEGORIES:

Data for the MBR come primarily from the Claims Folders System, 60-0089 and/or are furnished by the claimant/beneficiary at the time of filing for benefits, via the application form and necessary proofs, and during the period of entitlement when notices of events such as changes of address, work, marriage, are given to SSA by the beneficiary; and from States regarding Hospital Insurance third party premium payment/buy-in cases.

(This file does not cover applicants who do not have a Social Security number (SSN).)

CATEGORIES OF IN THE SYSTEM:

This file contains data regarding SSI eligibility; citizenship; residence; Medicaid eligibility; eligibility for other benefits; alcoholism or drug addiction data, if applicable (disclosure of this information may be restricted by 21 U.S.C. 1175 and 42 U.S.C. 290dd-3 and ee-3); income data; resources; payment amounts, including the date and amount of advance payments; overpayment amounts, including identifying characteristics of each overpayment (e.g., name, SSN, address of the individual(s) involved, recovery efforts made and the date of each action and planned future actions); and date and amount of advance payments; living arrangements; case folder location data; appellate decisions, if applicable; SSN used to identify a particular individual, if applicable; information about representative payees, if applicable; and a history of changes to any of the persons who have applied for SSI payments. PURPOSE(S):

SSI records begin in Social Security field offices where an individual or couple files an application for SSI payments. SVB records begin in Social Security field offices and the Veterans Affairs Regional Office where an individual files an application for SVB payments. The SSI and SVB applications contain data which may be used to prove the identity of the applicant, to determine his/her eligibility for SSI or SVB payments and, in cases where eligibility is determined, to compute the amount of the payment. Information from the application, in addition to data used internally to control and process SSI and SVB cases, is used to create the Supplemental Security Income Record (SSR). The SSR also is used as a means of providing a historical record of all activity on a particular individual's or couple's record.

In addition, statistical data are derived from the SSR for actuarial and management information purposes.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in magnetic media (e.g., magnetic tape) and in microform and microfiche form.

RETRIEVABILITY:

Records are indexed and retrieved by SSN.

SAFEGUARDS:

Systems security for automated records has been established in accordance with the Systems Security Handbook. This includes maintaining all magnetic tapes and magnetic disks within an enclosure attended by security guards. Anyone entering or leaving that enclosure must have special badges which are only issued to authorized personnel. All authorized personnel having access to the magnetic records are subject to the penalties of the Privacy Act. The microfiche are stored in locked cabinets, and are accessible to employees only on a need-to-know basis. All SSR State Data Exchange records are protected in accordance with agreements between SSA and the respective States regarding confidentiality, use, and re-disclosure. Access http://www.socialsecurity.gov/foia/bluebook/app_g.htm for additional information relating to SSA data security measures.

RETENTION AND DISPOSAL:

Original input transaction tapes received which contain initial claims and posteligibility actions are retained indefinitely although these are processed as received and incorporated into processing tapes which are updated to the master SSR tape file on a monthly basis. All magnetic tapes appropriate to SSI information furnished to specified Federal, State, and local agencies for verification of eligibility for benefits and under section 1631(e) are retained, in accordance with the Privacy Act accounting requirements, for at least 5 years or the life of the record, whichever is longer.

SYSTEM MANAGER(S) AND ADDRESS(ES):

Associate Commissioner, Office of Disability and Supplemental Security Income Systems (ODSSIS), Social Security Administration, 6401 Security Boulevard, Baltimore, Maryland 21235.

NOTIFICATION PROCEDURES:

An individual can determine if this system contains a record about him/her by writing to or visiting any Social Security field office (FO) and providing his or her name and SSN. (FO addresses and telephone numbers can be found in local telephone directories under Social Security Administration, or by accessing www.ssa.gov/regions/regional.html.) Applicants for SVB who reside in the Philippines should contact Department of Veterans Affairs (DVA), Regional Office, Manila, Philippines. AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 19 of the Occupational Safety and Health Act of 1970 (Pub. L. 91-596, 29 U.S.C. 651, *et seq.*); 5 U.S.C. 7902; 29

CFR part 1960; Executive Order (E.O.) No. 12196 (45 FR 12769 4/26/80).

PURPOSE(S):

The purpose of the system is to comply with the reporting and statistical analyses requirements of section 19 of the Occupational Safety and Health Act (OSHA) of 1970 (Pub. L. 91-596) as amended (29 U.S.C. 668); 5 U.S.C. 7902; 29 CFR Part 1960; E.O. 12196 and such other purposes as are described below. The Safety Management Information System is a SSA-wide system utilized by all organizational components of the Agency. Thus, in addition to the routine uses subsequently noted in this system notice, there may be other ad hoc disclosures within the Agency on an official business "need-to-know" basis. Some of the purposes are the following:

- Establish a written record of the causes of accidents;
- Provide information to initiate and support corrective or preventive action;
- Provide statistical information relating to accidents resulting in occupational injuries; illnesses, and/or property damage;
- Provide management with information with which to evaluate the effectiveness of safety management programs;
- Provide the means for complying with the reporting requirements of section 19 of the Occupational Safety and Health Act of 1970 and such other reporting requirements as may be required by legislative or regulative requirements;
- Provide such other summary descriptive statistics and analytical studies as necessary in support of the function for which the records are collected and maintained including general requests for statistical information without personal identification of individuals;

Information in these records is used by or may be disclosed to:

- The Office of Facilities Management (OFM), Office of the Deputy Commissioner for Finance, Assessment and Management (DCFAM), in the review of accident experience data to determine the adequacy of corrective actions, the effect of codes, standards and guides, the consolidation, summarization and dissemination of accident experience data throughout SSA and other government departments and agencies as needed or required;
- The supervisor, administrative officer or other official initiating an accident report, including each succeeding reviewing official in the chain of command through which the report passes, to insure that corrective

action, as needed and appropriate, is taken; and

- Appropriately appointed Safety Directors, Officers, or others with safety responsibilities within the Agency in the verifying, assembling, analyzing, summarizing and disseminating data concerning the accident in their areas of responsibility and in the initiation of appropriate corrective action.

SYSTEM LOCATION:

Social Security Administration, Room 2-B-4 East Low Rise Building, 6401 Security Boulevard, Baltimore, Maryland 21235.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who are the recipients of Federal Domestic Assistance Grants or of contracts awarded by the Social Security Administration (SSA).

CATEGORIES OF RECORDS IN THE SYSTEM:

An index of names, addresses and Social Security numbers (SSN) of individuals or tax identification numbers (TIN) or employer identification numbers (EIN) of employer business entities doing business with SSA. The Central Registry (Vendor File) (VF) contains banking information, routing and transit numbers (RTAS) and deposit account numbers (DAN) for direct deposit payments for vendors. No other personally identifiable data are maintained. The index is termed public information since data relative to Federal Domestic Assistance and contracts are public information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301.

PURPOSE(S):

This registry is maintained to provide a standard code to uniquely identify entities, including individuals, together with mailing address and other characteristic data, to all principal operating components, agencies, regional offices and staff offices of SSA. The use of a single code per entity in all SSA data systems enhances communications with an entity, as well as diminishing the need to maintain duplicative data and files at various locations. Major categories of entities in the central registry are those awarded contracts and grants under Federal Domestic Assistance programs. Only those persons in SSA with a "need to know" have access to the published registry and to the automated records. The Code Book provides a listing of data processing numbers for grant, contract and financial transactions. These numbers are used to access the name and address of the individual in the Automated Library (Central Registry). The information is used for check preparation, reports, mailings, etc.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Records are maintained in automated form (e.g., disc packs and magnetic tapes) and in paper form (e.g., Hard copy code booklets) at central computer sites.

RETRIEVABILITY:

Records are retrieved by either name, SSN or other characteristic data.

SAFEGUARDS:

Only specified employees have access to the vendor file database. A security profile is maintained in the computer system to limit and monitor access. Authorized employees must have a personal identification number (PIN) and password to access the system and clearance for the proper security profile to access the vendor file. Certain functions, such as "Delete" or "Purge," cannot be performed unless the vendor file systems administrator implements the function. Access <http://www.socialsecurity.gov/foia/bluebook/>

app_g.htm for additional information relating to SSA data security measures.

RETENTION AND DISPOSAL:

Records are purged from the automated file every two years; only persons actively dealing with SSA remain on file. Code Books are replaced each year. Inactive books are destroyed.

SYSTEM MANAGER(S) AND ADDRESS(ES):

Social Security Administration, Office of Finance, Division of Administrative Payments, Social Security Administration, 2-B-4 East Low Rise Building, 6401 Security Boulevard, Baltimore, Maryland 21235.

NOTIFICATION PROCEDURES:

An individual can determine if this system contains a record about him/her by writing to the system manager(s) at the above address and providing his/her name, SSN or other information that may be in the system of records that will identify him/her. An individual requesting notification of records in person should provide the same information, as well as provide an identity document, preferably with a photograph, such as a driver's license or some other means of identification. If an individual does not have any identification documents sufficient to establish his/her identity, the individual must certify in writing that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense.

If notification is requested by telephone, an individual must verify his/her identity by providing identifying information that parallels information in the record to which notification is being requested. If it is determined that the identifying information provided by telephone is insufficient, the individual will be required to submit a request in writing or in person. If an individual is requesting information by telephone on behalf of another individual, the subject individual must be connected with SSA and the requesting individual in the same phone call.

SSA will establish the subject individual's identity (his/her name, SSN, address, date of birth and place of birth, along with one other piece of information, such as mother's maiden name) and ask for his/her consent in providing information to the requesting individual.

If a request for notification is submitted by mail, an individual must include a notarized statement to SSA to verify his/her identity or must certify in

the request that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense. These procedures are in accordance with SSA Regulations (20 CFR 401.40(c)).

RECORD ACCESS PROCEDURES:

Same as Notification procedures. Requesters should also reasonably specify the record contents being sought. These procedures are in accordance with SSA Regulations (20 CFR 401.40(c)).

CONTESTING RECORD PROCEDURES:

Same as Notification procedures. Also, requesters should reasonably identify the record, specify the information they are contesting and corrective action sought, and the reasons for the correction, with supporting justification showing how the record is incomplete, inaccurate, untimely or irrelevant. These procedures are in accordance with SSA Regulations (20 CFR 401.65(a)).

RECORD SOURCE CATEGORIES:

Grant and Contract documents. Names, SSNs, TINs, RTAS, DANs and addresses are provided by the individual when applying for a grant or contract from the SSA.

The record is also used to document, when appropriate, where the employee or family member has been referred for treatment or rehabilitation and the progress in such treatment.

Anonymous information from these records is also needed for the purpose of preparing statistical reports and analytical studies in support of the EAP's management.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure may be made for routine uses as indicated below.

1. To contractors if the Social Security Administration contracts with private firms, individuals, or other groups such as a Federal Employee Assistance Program (EAP) consortium for the purpose of providing the EAP functions. The contractor shall be required to maintain Privacy Act safeguards with respect to such records. The contractors will surrender to the EAP all of these records as well as any new records at the time of contract termination.

2. To the Department of Justice (DOJ), a court or other tribunal, or another party before such tribunal, when:

- (a) The Social Security Administration (SSA), or any component thereof; or

- (c) Any SSA employee in his/her individual capacity where DOJ (or SSA, where it is authorized to do so) has agreed to represent the employee; or
- (d) The United States or any agency thereof where SSA determines that the litigation is likely to affect SSA or any of its components, is a party to the litigation or has an interest in such litigation, and SSA determines that the use of such records by DOJ, a court or other tribunal, or another party before such tribunal, is relevant and necessary to the litigation, provided, however, that in each case, SSA determines that such disclosure is compatible with the purpose for which the records were collected.

3. To a congressional office in response to any inquiry from that office made at the request of the subject of the record.

4. To a court or other tribunal, or a party before the same, where the records are covered by the Confidentiality of Alcohol and Drug Abuse Patient Records regulations (42 CFR part 2). Any disclosure of such patient records must be pursuant to a qualified service organization agreement that meets the requirements of 42 CFR part 2 and must also comply with all other aspects of these regulations. The Employee Assistance Program Administrators in each program location must personally approve any disclosure made under this routine use based on his or her determination that it is compatible with the purpose for which the records were collected.

5. To student volunteers, individuals working under a personal services contract, and other workers who technically do not have the status of Federal employees, when they are performing work for the Social Security Administration (SSA), as authorized by law, and they need access to personally identifiable information in SSA records

in order to perform their assigned Agency functions.

6. To the General Services Administration and the National Archives Records Administration (NARA) under 44 U.S.C. 2904 and 2906, as amended by the NARA Act of 1984, information which is not restricted from disclosure by Federal law for the use of those agencies in conducting records management studies.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in automated form (e.g., computer readable media, hard drives, floppy disks, and Compact Disc-Read Only Memory (CD-ROM)) and in paper form (e.g., folders, index cards).

RETRIEVABILITY:

Records are retrieved by a case code number. These numbers are cross-indexed by name of employee or family member.

SAFEGUARDS:

1. *Authorized Users:* Access to these records is limited to the EAP Administrators who work directly with employees and family members in each program location and their immediate staffs (including staff counselors, staff secretaries, contract or consortia counselors and secretaries). All EAP Administrators, whether or not they directly provide clinical services, may access the records for the purposes of program evaluation, destroying records at the end of their period of maintenance, and transferring records from one contractor to another.

2. *Physical Safeguards:* All records are stored in a metal filing cabinet equipped with at least a combination lock, and preferably a locking bar. This file cabinet is in a secured area, accessible only to the EAP staff, and is locked when not in use. Computer readable information is maintained in discrete systems and/or is password protected. Computers are also stored in secured areas, accessible to only the EAP staff. These records are always maintained separate from any other system of records.

3. *Procedural Safeguards:* All persons having access to the records shall have previous training in the proper handling of records covered by the Privacy Act and 42 CFR part 2 (Confidentiality of Alcohol and Drug Abuse Patient Records). These restrict disclosures to unique situations, such as medical emergencies, except when the employee or family member has consented in

writing. Furthermore, employees and family members who utilize the EAP will be informed in writing of the confidentiality provisions; and secondary disclosure of information is prohibited without employee consent.

Access http://www.socialsecurity.gov/foia/bluebook/app_g.htm for additional information relating to SSA data security measures.

RETENTION AND DISPOSAL:

Records are retained until three years after the employee or family member has ceased contact with the EAP or until any litigation is resolved. However, if an employee has been terminated from SSA employment, records are retained for at least three years after the official date of termination and until any litigation is resolved. Files are then destroyed.

SYSTEM MANAGER(S) AND ADDRESS(ES):

Social Security Administration, Director, Center for Employee Services, Office of Personnel, Office of Human Resources, 6401 Security Boulevard, Baltimore, Maryland 21235.

NOTIFICATION PROCEDURES:

Upon receiving a request, the EAP Administrator shall weigh the need for disclosure against the potential injury to the patient, to the physician-patient relationship, and to the treatment services. The EAP Administrator will then determine the extent to which any disclosure of all or any part of the record is necessary (42 CFR part 2 does not compel disclosure).

An individual can determine if this system contains a record about him/her by writing to the system manager(s) at the above address and providing his/her name, SSN or other information that may be in the system of records that will identify him/her. An individual requesting notification of records in person should provide the same information, as well as provide an identity document, preferably with a photograph, such as a driver's license or some other means of identification. If an individual does not have any identification documents sufficient to establish his/her identity, the individual must certify in writing that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense.

If notification is requested by telephone, an individual must verify his/her identity by providing identifying information that parallels information in the record to which notification is being

requested. If it is determined that the identifying information provided by telephone is insufficient, the individual will be required to submit a request in writing or in person. If an individual is requesting information by telephone on behalf of another individual, the subject individual must be connected with SSA and the requesting individual in the same phone call. SSA will establish the subject individual's identity (his/her name, SSN, address, date of birth and place of birth, along with one other piece of information, such as mother's maiden name) and ask for his/her consent in providing information to the requesting individual.

If a request for notification is submitted by mail, an individual must include a notarized statement to SSA to verify his/her identity or must certify in the request that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense. These procedures are in accordance with SSA Regulations (20 CFR 401.40(c)).

RECORD ACCESS PROCEDURES:

Same as Notification procedures. Requesters should also reasonably specify the record contents being sought. These procedures are in accordance with SSA Regulations (20 CFR 401.40(c)).

CONTESTING RECORD PROCEDURES:

Same as Notification procedures. Also, requesters should reasonably identify the record, specify the information they are contesting and the corrective action sought, and the reasons for the correction, with supporting justification showing how the record is incomplete, untimely, inaccurate or irrelevant. These procedures are in accordance with SSA Regulations (20 CFR 401.65(a)).

RECORD SOURCE CATEGORIES:

Information in this system of records is: (1) Supplied directly by the individual, or (2) supplied by a member of the employee's family, or (3) derived from information supplied by the individual, or (4) supplied by sources to whom the employee and/or family member has been referred for assistance, or (5) supplied by SSA officials, or (6) supplied by EAP counselors.

An individual can determine if this system contains a record about him/her by writing to the system manager(s) at the above address and providing his/her name, SSN or other information that may be in the system of records that will identify him/her. An individual requesting notification of records in person should provide the same information, as well as provide an identity document, preferably with a photograph, such as a driver's license or some other means of identification. If an individual does not have any identification documents sufficient to establish his/her identity, the individual must certify in writing that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense.

If notification is requested by telephone, an individual must verify his/her identity by providing identifying information that parallels information in the record to which notification is being requested. If it is determined that the identifying information provided by telephone is insufficient, the individual will be required to submit a request in writing or in person. If an individual is requesting information by telephone on behalf of another individual, the subject individual must be connected with SSA and the requesting individual in the same phone call. SSA will establish the subject individual's identity (his/her name, SSN, address, date of birth and place of birth, along with one other piece of information, such as mother's maiden name) and ask for his/her consent in providing information to the requesting individual.

If a request for notification is submitted by mail, an individual must include a notarized statement to SSA to verify his/her identity or must certify in the request that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense. These procedures are in accordance with SSA Regulations (20 CFR 401.40(c)).

RECORD ACCESS PROCEDURES:

Same as Notification procedures. Requesters should also reasonably specify the record contents being sought. This procedure is in accordance with SSA Regulations (20 CFR 401.40(c)).

CONTESTING RECORD PROCEDURES:

Same as Notification procedures. Also, requesters should reasonably identify the record, specify the information they are contesting and the corrective action sought, and the reasons for the correction, with supporting justification showing how the record is incomplete, inaccurate, untimely or irrelevant. This procedure is in accordance with SSA Regulations (20 CFR 401.65(a)).

RECORD SOURCE CATEGORIES:

Information in this system of records is obtained from individuals to whom the record pertains, SSA or other officials, official documents relating to appointments and case assignments as counselors and investigators, correspondence from specific persons or organizations, formal reports submitted by the individual in the performance of official volunteer work.

The computer terminals used to access the records are kept in rooms that are locked during non-business hours. Electronic records are protected against unauthorized access by several password oriented systems which produce an audit trail of all attempts (successful and unsuccessful) to access the records. Access http://www.socialsecurity.gov/foia/bluebook/app_g.htm for additional information relating to SSA data security measures.

SSA will establish the subject individual's identity (his/her name, SSN, address, date of birth and place of birth, along with one other piece of information, such as mother's maiden name) and ask for his/her consent in providing information to the requesting individual.

If a request for notification is submitted by mail, an individual must include a notarized statement to SSA to verify his/her identity or must certify in the request that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense. SYSTEM NUMBER: 60–0290

SYSTEM NAME:

Social Security Administration's Customer PIN/Password (PPW) Master File System, Social Security Administration, Deputy Commissioner for Disability and Income Security Programs.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Social Security Administration, Office of Systems, 6401 Security Boulevard, Baltimore, Maryland, 21235.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Social Security Administration (SSA) customers (applicants, beneficiaries and other customers) who elect to conduct transactions with SSA in an electronic business environment that requires the PPW infrastructure. This may include customers who elect to block PPW access to SSA electronic transactions by requesting SSA to disable their PPW capabilities.

CATEGORIES OF RECORDS IN THE SYSTEM:

The information maintained in this system of records is collected from customers who elect to conduct transactions with SSA in an electronic business environment that requires the PPW infrastructure. The information maintained includes identifying information such as the customer's name, Social Security number (SSN) (which functions as the individual's personal identification number (PIN) and mailing address. The system also maintains the customer's Password Request Code (PRC), the password itself and the authorization level and associated data (e.g., effective date of authorization).

We also maintain transactional data elements necessary to administer and maintain the PPW infrastructure. These include access profile information such as blocked PINs, failed access data, effective date of password and other data linked to the required authentication processes for Internet and automated telephone system applications. The information on this

system may also include archived transaction data and historical data.

SSA will also use the data in the proposed system for management information purposes in order to effectively administer the PPW infrastructure used to conduct electronic business with SSA customers. Because we will maintain and retrieve data from the proposed system of records by the customer's SSN (which acts as the individual's PIN), the database will constitute a "system of records" under the Privacy Act.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 205(a) of the Social Security Act (42 U.S.C. 405), 5 U.S.C. 552a(e)(10), and the Government Paperwork Elimination Act.

PURPOSE(S):

The Customer PPW Master File System maintains information collected for use in connection with SSA's implementation of a PIN/Password system that allows Social Security program applicants, beneficiaries, and other customers to conduct business with SSA in an electronic business environment. The system of records is designed to permit entry and retrieval of information associated with maintaining a PPW infrastructure that supports SSA's electronic initiatives requiring a PPW entry process.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure may be made for routine uses as indicated below:

1. To the Office of the President for the purpose of responding to an individual pursuant to an inquiry received from that individual or from a third party on his or her behalf.

2. To a congressional office in response to an inquiry from that office made at the request of the subject of a record.

3. To the Department of Justice (DOJ), a court or other tribunal or another party before such tribunal when:

(a) The Social Security Administration (SSA), or any component thereof; or

(b) Any SSA employee in his/her official capacity; or

(c) Any SSA employee in his/her individual capacity where DOJ (or SSA where it is authorized to do so) has agreed to represent the employee; or

(d) The United States or any agency thereof where SSA determines that the litigation is likely to affect the operations of SSA or any of its components, is a party to the litigation or has an interest in such litigation, and

SSA determines that the use of such records by DOJ, a court or other tribunal, or another party before such tribunal, is relevant and necessary to the litigation, provided, however, that in each case, SSA determines that such disclosure is compatible with the purpose for which the records were collected.

4. To contractors and other Federal agencies, as necessary, for the purpose of assisting the Social Security Administration (SSA) in the efficient administration of its programs. We will disclose information under this routine use only in situations in which SSA may enter into a contractual or similar agreement with a third party to assist in accomplishing an agency functions relating to this system of records.

5. To the General Services Administration and the National Archives Records Administration (NARA) under 44 U.S.C. 2904 and 2906, as amended by the NARA Act of 1984, information which is not restricted from disclosure by Federal law for the use of those agencies in conducting records management studies.

6. To the Secretary of Health and Human Services or to any State, the Commissioner shall disclose any record or information requested in writing by the Secretary for the purpose of administering any program administered by the Secretary, if records or information of such type were so disclosed under applicable rules, regulations and procedures in effect before the date of enactment of the Social Security Independence and Program Improvements Act of 1994.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Data are stored in electronic and paper form.

RETRIEVABILITY:

Records in this system are indexed and retrieved by SSN (which acts as the individual's PIN).

SAFEGUARDS:

Security measures include computer firewall technology, data encryption and other systems security measures to ensure that the PPW system is protected from inappropriate access. The existing SSA firewall architecture ensures that customers are limited only to electronic transactions the Agency determines and will not be able to access SSA's other systems or data.

Security measures also include the use of access codes to enter the database and storage of the electronic records in secured areas which are accessible only to employees who require the information in performing their official duties. The paper records that result from the data base site are kept in locked cabinets or in otherwise secure areas. Contractor personnel having access to data in the system of records are required to adhere to SSA rules concerning safeguards, access, and use of, the data. SSA personnel having access to the data on this system are informed of the criminal penalties of the Privacy Act for unauthorized access to or disclosure of information maintained in this system of records. Access http://www.socialsecurity.gov/foia/bluebook/app_g.htm for additional information relating to SSA data security measures.

RETENTION AND DISPOSAL:

PPW information maintained in this system is retained until notification of the death of the account holder plus seven years. Means of disposal is appropriate to storage medium (e.g., deletion of individual records from the data base when appropriate or shredding of paper records that are produced from the system).

SSA will establish the subject individual's identity (his/her name, SSN, address, date of birth and place of birth, along with one other piece of information, such as mother's maiden name) and ask for his/her permission in providing access by telephone to the requesting individual.

If a request for notification is submitted by mail, an individual must include a notarized statement to SSA to verify his/her identity or must certify in the request that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense.
