**I. Background**

The Current Employment Statistics (CES) Survey is a Federal/State program of the Bureau of Labor Statistics. It produces monthly estimates of employment, hours, and earnings based on U.S. nonagricultural establishment payrolls. Information for these estimates is derived from 265,000 reports (representing 135,000 UI accounts and 350,000 individual worksites), as of December 2004. Data will be collected for the reference period of April 12, 2006, and will include the
