IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that the proposed rule change, as amended, is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.²² In particular, the Commission finds that the proposed rule change is consistent with section 6(b)(5) of the Act,²³ which requires that an exchange have rules designed, among other things, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and in general to protect investors and the public interest.

In addition, the Commission finds that the proposal is consistent with section 12(f) of the Act,²⁴ which permits an exchange to trade, pursuant to UTP, a security that is listed and registered on another exchange.²⁵ The Commission

notes that it previously approved the listing and trading of the Shares on the NYSE.²⁶ The Commission also finds that the proposal is consistent with Rule 12f-5 under the Act,²⁷ which provides that an exchange shall not extend UTP to a security unless the exchange has in effect a rule or rules providing for transactions in the class or type of security to which the exchange extends UTP. Amex rules deem the Shares to be equity securities, thus trading in the Shares will be subject to the Exchange's existing rules governing the trading of equity securities.

The Commission further believes that the proposal is consistent with section 11A(a)(1)(C)(iii) of the Act,²⁸ which sets forth Congress's finding that it is in the public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to assure the availability to brokers, dealers, and investors of information with respect to quotations for and transactions in securities.

The Exchange will cease trading in the Shares if (a) the primary market stops trading the Shares because of a regulatory halt similar to a halt based on Amex Rule 117 and/or halt because dissemination of the IIV and/or underlying spot price has ceased; or (b) the primary market delists the Shares.

In support of this proposed rule change, the Exchange has made the following representations:

1. Amex has appropriate rules to facilitate transactions in this type of security.
2. Amex surveillance procedures are adequate to properly monitor the trading of the Shares on the Exchange.
3. Amex will distribute an Information Circular to its members prior to the commencement of trading of the Shares on the Exchange that explains the terms, characteristics, and risks of trading such shares.
4. Amex will require a member with a customer that purchases newly issued Shares on the Exchange to provide that customer with a product prospectus and will note this prospectus delivery requirement in the Information Circular.
5. Amex will cease trading in the Shares if (a) the primary market stops trading the Shares because of a

security on a national securities exchange unless the security is registered on that exchange pursuant to section 12 of the Act. Section 12(f) of the Act excludes from this restriction trading in any security to which an exchange "extends UTP." When an exchange extends UTP to a security, it allows its members to trade the security as if it were listed and registered on the exchange even though it is not so listed and registered.

regulatory halt similar to a halt based on Amex Rule 117 and/or halt because dissemination of the IIV and/or underlying spot price has ceased; or (b) the primary market delists the Shares.

This approval order is conditioned on Amex's adherence to these representations.

The Commission finds good cause for approving this proposed rule change, as amended, before the thirtieth day after the publication of notice thereof in the **Federal Register**. As noted previously, the Commission previously found that the listing and trading of these Shares on the NYSE is consistent with the Act.²⁹ The Commission presently is not aware of any issue that would cause it to revisit that earlier finding or preclude the trading of these funds on the Exchange pursuant to UTP. Therefore, accelerating approval of this proposed rule change should benefit investors by creating, without undue delay, additional competition in the market for these Shares.

V. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the proposed rule change (SR-Amex-2005-128), as amended, is hereby approved on an accelerated basis.³⁰

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.³¹

Secretary.

December 22, 2005, amended² the proposed rule change described in Items I, II, and III below, which items have been prepared primarily by FICC. FICC filed the proposed rule change pursuant to Section 19(b)(3)(A)(ii) of the Act³ and Rule 19b-4(f)(2) thereunder⁴ whereby the proposal became effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested parties.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

FICC is implementing a surcharge to be imposed on participants of its Mortgage-Backed Securities Division ("MBSD") that submit trade data by batch submission methods.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, FICC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. FICC has prepared summaries, set forth in Sections (A), (B), and (C) below, of the most significant aspects of these statements.⁵

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

Since the inception of FICC's Real-Time Trade Matching ("RTTM") service in 2002, the interactive submission method has grown to encompass an increasing portion of trades being submitted to FICC's MBSD.⁶ The expansion of the use of the interactive trade submission method through RTTM for mortgage-backed securities is a FICC initiative because of the negative effects associated with the use of batch submission methods.⁷ These negative effects include:

(a) Increased risk to the batch submitting participant as it foregoes timely achievement of trade comparison and a legally binding confirmation;

(b) increased risk to the contra side of the batch submitting participant and creation of an operational burden for the contra side in accounting for differing submission methods among its counterparties; and

(c) preclusion of FICC from laying the foundation to further reduce all participant costs through retirement of its proprietary batch trade submission program.

In order to ensure that participants use the RTTM service and submit transaction data on a timely basis and to cover the cost of batch processing, FICC will impose the following fees on participants of MBSD:

(a) Single-batch submitters will be subject to a 50 percent surcharge (with a minimum of \$500) on their post discount trade recording fees as recorded on their monthly bill and

(b) multi-batch submitters will be subject to a 20 percent surcharge (with a minimum of \$500) on their post discount trade recording fees as recorded on their monthly bill.

As an additional incentive for participants to switch to the interactive submission method, the minimum surcharge may be increased to \$1,000 at a later date, anticipated to occur at the beginning of 2007.⁸ FICC also plans to announce a date, anticipated to be December 31, 2007, after which it will no longer support batch submissions.⁹

Surcharge revenue will be paid through to individual interactive messaging submitters pro rata based upon their ratio of trade recording fees to system-wide trade recording fees. FICC reserves the right to waive the surcharge for a particular MBSD participant if it determines in its sole discretion that the participant's classification as a single or multi-batch user in a particular month is due to a non-recurring system or operational problem.

The fees will become effective April 1, 2006.

FICC believes the proposed rule change is consistent with the requirements of Section 17A of the Act¹⁰ and the rules and regulations thereunder applicable to FICC because it

encourages FICC's participants to communicate with the clearing corporation in a manner that will promote the prompt and accurate clearance and settlement of securities transactions.

(B) Self-Regulatory Organization's Statement on Burden on Competition

FICC does not believe that the proposed rule change will have an impact or impose any burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments relating to the proposed rule change have not yet been solicited or received. FICC will notify the Commission of any written comments received by FICC.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing proposed rule change has become effective upon filing pursuant to Section 19(b)(3)(A)(ii) of the Act¹¹ and Rule 19b-4(f)(2)¹² thereunder because the rule establishes a due, fee, or other charge. At any time within sixty days of the filing of the amended proposed rule change,¹³ the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, as amended, is consistent with the Act. Comments may be submitted by any of the following methods:
