

resolving the problem that is the subject of the waiver. (10 CFR 430.27(m))

On July 5, 2005, Liebherr filed a petition for waiver regarding the DOE refrigerator and refrigerator-freezer test procedures. Liebherr's petition seeks a waiver from the DOE test procedure because, Liebherr asserts, its line of combination wine storage-freezers are not accurately categorized by any of the current DOE classes. Liebherr has submitted a modified test procedure to be used for rating its combination wine storage-freezers. Liebherr proposes to calculate the energy consumption of these products by using the current test procedure outlined in 10 CFR Part 430, Subpart B, Appendix A1 for refrigerator/freezers with the following exception. The current methodology outlined in Appendix A1 states that the unit's energy consumption is to be based on either the freezer compartment temperature or the refrigerator compartment temperature. However, the units produced by Liebherr do not include a refrigerator compartment, but do include a section solely dedicated for the purpose of wine storage, which is not convertible so that it may be used for any other purpose; therefore, Liebherr asserts, it is inappropriate to measure the energy consumption of these units in accordance with the refrigerator-freezer test procedure. Liebherr proposes to combine portions of the refrigerator-freezer test procedure with portions of the AHAM household wine chiller energy test procedure.

The Department is publishing Liebherr's petition for waiver in its entirety. The petition contains no confidential information. The Department solicits comments, data, and information with respect to the petition. Any person submitting written comments must also send a copy of such comments to the petitioner. 10 CFR 430.27(b)(1)(iv).

Issued in Washington, DC, on January 6, 2006.

Douglas L. Faulkner,

Acting Assistant Secretary, Energy Efficiency and Renewable Energy.

July 5th, 2005

Mr. Michael G. Raymond, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Mail Station EE-41, Forrestal Building, 1000 Independence Avenue, SW., Washington DC 20585-0121.

Petition by Liebherr Hausgeräte for a Waiver. Energy Conservation Standards in 10 CFR Part 430, for the Liebherr Wine/ freezer Models "WF 1051" and "WFI 1051"

1. Description of Applicant

Liebherr Hausgeräte is part of the Liebherr Group, an international group with a workforce of over 21,000 employees and

more than 80 companies worldwide, including the United States of America.

Further information can be found at <http://www.liebherr.com>.

Liebherr Hausgeräte has specialized in the manufacture of high quality refrigerators, freezers and wine storage appliances. It is headquartered in Ochsenhausen, Germany. The marketing of Liebherr products in the U.S. started in the 2nd quarter of 2004. Right now, Liebherr Hausgeräte is only manufacturing under the Liebherr brand name for products sold in the United States.

2. Background and General Information

Liebherr is requesting relief for a product which consists of a combination of a wine storage compartment on top and freezer compartment on the bottom, Liebherr models WF 1051 and WFI 1051.

Liebherr understands that DOE is not willing to prevent manufacturers of coming to the market with new innovative products which will enhance consumers well being and satisfaction. The market for wine storage has been growing substantially over the last years and is expected to continue growing in the future.

Currently, there is not a current DOE standards for a wine/freezer combination, thus the current evaluation standards would not measure the energy consumption in a representative manner.

3. Petition for a Waiver

On behalf of Liebherr-Hausgeräte GmbH, P.O. Box 1161, 88411 Ochsenhausen, Germany, I wish to submit a petition for a waiver with respect to the Department of Energy, energy efficiency standards under 10 CFR 430.27.

The appliances WF 1051 and WFI 1051 are a combination of a wine storage compartment and a freezer compartment in the bottom. The wine compartment can reach 45° F, which is the ideal drinking temperature for some white wines. But the unit goes as high as 64° F so that we can bring red wines to ideal drinking temperature as well. The wine connoisseurs recommend an average of 55–57° F for long term storage of any kind of wine.

Both models feature wooden wine racks which are not suitable for the storage of fresh food. We also do not offer any optional glass shelves or plastic racks to replace them. So the wine compartment could not be used as a regular refrigerator.

The models WF 1051 and WFI 1051 do not fit into the current standards. To evaluate the models in a representative manner of its true energy consumption characteristics the standard temperature of single wine coolers (55° F) for the wine storage compartment and the standard temperature (5° F) for the freezer compartment should be used. Therefore, the energy consumption is defined by the higher of the two values calculated by the following two formulas (according to 10 CFR part 430, subpart B, Appendix A1):

—Energy consumption of the wine compartment:

$$E_{\text{wine}} = ET1 + [(ET2-ET1) \times (55^\circ \text{F} - TW1) / (TW2-TW1)]$$

—Energy consumption of the freezer:

$$E_{\text{freezer}} = ET1 + [(ET2-ET1) \times (5^\circ \text{F} - TF1) / (TF2-TF1)].$$

The total adjusted volume of the models WF 1051 and WFI 1051 is 11.14 ft³. Using the standard temperature of 55° F for the wine compartment the annual energy use of the models WF 1051 and WFI 1051 is 475 kWh/a. According to current DOE standards, these models are classified as refrigerator-freezer with automatic defrost with bottom-mounted freezer without through-the-door ice service.

Respectfully submitted,

Marc Perez, Liebherr-Canada Ltd., 1015 Sutton Drive, Burlington ON L7L 5Z8, Canada.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL06-24-000]

City of Anaheim, CA; Notice of Filing

January 6, 2006.

Take notice that on December 29, 2005, the City of Anaheim, California (Anaheim) submitted its third annual revision of its Transmission Revenue Balancing Account Adjustment filed on December 7, 2005. Anaheim stated the corrections are reflected in Exhibit ANA-1 and Exhibit ANA-2 as well as in the revised Appendix I.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant and all the parties in this proceeding.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public

Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. Eastern Time on January 12, 2006.

Magalie R. Salas,

Secretary.

ANR Pipeline Company; Notice of Compliance Filing

January 6, 2006.

Take notice that on December 22, 2005, ANR Pipeline Company (ANR) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets, to be effective on December 16, 2005:

Substitute Nineteenth Revised Sheet No. 2
Substitute Original Sheet No. 19A
Substitute Second Revised Sheet No. 24
Substitute Second Revised Sheet No. 28
Substitute Third Revised Sheet No. 34
Substitute Third Revised Sheet No. 41
Substitute Fourth Revised Sheet No. 42D
Substitute Fourth Revised Sheet No. 44
Substitute Third Revised Sheet No. 45J
Substitute Third Revised Sheet No. 57
Substitute Fourth Revised Sheet No. 64
Substitute Fifth Revised Sheet No. 68
Substitute Second Revised Sheet No. 68D.01
Substitute Eighth Revised Sheet No. 92
Substitute Fifth Revised Sheet No. 195
Substitute Third Revised Sheet No. 196
Substitute Original Sheet No. 196.01

Any person desiring to protest this filing must file in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). Protests to this filing will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Such protests must be filed in accordance with the provisions of section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing a protest must serve a copy of that document on all the parties to the proceeding.

The Commission encourages electronic submission of protests in lieu

of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.
