

personnel must oversee all marking, trenching, and backfilling operations.

Furthermore, PHMSA reminds pipeline operators that although excavation is not explicitly addressed in 49 CFR parts 192 and 195, excavation is considered a covered task under the pipeline operator qualifications regulations (49 CFR 192.801–809 and 195.501–509). These regulations require that pipeline operators and contractors be qualified to perform pipeline excavation activities. A qualified individual is one who has been evaluated and can perform assigned covered tasks and can recognize and react appropriately to abnormal conditions.

In particular, PHMSA recommends pipeline operators review the adequacy of covered tasks involving line locating, one-call notifications, and inspection of excavation activities. Operators should also review the adequacy of required training, evaluation and qualification methods for each of these covered tasks to ensure that each employee and contractor is qualified to perform that task.

Authority: 49 U.S.C. Chapter 601; 49 CFR 1.53.

Issued in Washington, DC, on January 10, 2005.

Theodore L. Willke,

Deputy Associate Administrator for Pipeline Safety.
