Approval and Promulgation of Air Quality Implementation Plans; Montana; Revisions to the Administrative Rules of Montana; Proposed Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a State Implementation Plan (SIP) revision submitted by the State of Montana on August 25, 2004. The revisions are to the Administrative Rules of Montana and correct internal references to state documents; correct references to, or update citations of, Federal documents; and make minor editorial changes. In the "Rules and Regulations" section of this **Federal**

A detailed rationale for the approval is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

Maine: Proposed Determination of Adequacy for the State Municipal Solid Waste Landfill (MSWLF) Permitting Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to approve the State of Maine's permit program for municipal solid waste landfills (MSWLF's) and to approve the State's approach of not allowing conditionally exempt small quantity generator (CESQG) hazardous waste to be sent to non-municipal, non-hazardous waste disposal units. Elsewhere in today's **Federal Register**, EPA is publishing a direct final rule that determines the adequacy of the State of Maine's municipal solid waste permitting program without a prior proposal because we believe this action is not controversial and do not expect comments that oppose it. Unless we get relevant written comments which oppose this determination of adequacy during the comment period, the decision will take effect. If we receive comments that oppose this action, we will publish a document in the **Federal Register** withdrawing this rule before it takes effect and this separate document in this proposed rules section of the direct final **Federal Register** will serve as the proposal to determine the adequacy of the State Municipal Solid Waste Landfill permitting program.

ACTION: Proposed rule; request for comments.

SUMMARY: In 1989, NMFS issued a final rule enacting the Fish and Seafood Promotion Act of 1986 (Act), as it pertains to Seafood Marketing Councils (Councils), for one or more species of fish or fish products. That rule, along with a large number of other rules and regulations unused or little used, was stricken from the Code of Federal Regulations (CFR) as part of a government-wide Presidential regulatory reform effort.
