FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

January 19, 2006.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law No. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have

practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before April 3, 2006. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit your all Paperwork Reduction Act (PRA) comments by e-mail or U.S. postal mail. To submit your comments by e-mail send them to PRA@fcc.gov. To submit your comments by U.S. mail, mark them to the attention of Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street, SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s) send an e-mail to PRA@fcc.gov or contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0466.

Title: Sections 73.1201, 74.783 and

74.1283, Station Identification.

Form Number: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions; State, local and tribal government.

Number of Respondents: 2,900.

Estimated Time per Response: 10 minutes—2 hours.

Frequency of Response: Recordkeeping requirement; On occasion reporting requirement; Third party disclosure requirement.

Total Annual Burden: 3,966 hours.

Total Annual Cost: \$80,000.

Privacy Impact Assessment: No impact(s).

Needs and Uses: 47 CFR 73.1201(a) requires television broadcast licensees to make broadcast station identification announcements at the beginning and ending of each time of operation, and hourly, as close to the hour as feasible, at a natural break in program offerings. Television and Class A television broadcast stations may make these announcements visually or aurally.

47 CFR 73.1201(b) requires the licensees' station identification to consist of the station's call letters

immediately followed by the community or communities specified in its license as the station's location. The name of the licensee, the station's frequency, the station's channel number, as stated on the station's license, and/or the station's network affiliation may be inserted between the call letters and station location. Digital Television (DTV) stations choosing to include the station's channel number in the station identification must use the station's major channel number and may distinguish multicast program streams. For example, a station with major channel number 26 may use 26.1 to identify a High Definition Television (HDTV) program service and 26.2 to identify a Standard Definition Television (SDTV) program service. No other insertion between the station's call letters and the community or communities specified in its license is permissible.

47 CFR 74.783(b) requires licensees of television translators whose station identification is made by the television station whose signals are being rebroadcast by the translator, must secure agreement with this television licensee to keep in its file, and available to FCC personnel, the translator's call letters and location, giving the name, address and telephone number of the licensee or service representative to be contacted in the event of malfunction of the translator.

47 CFR 74.783(e) permits any low power television (LPTV) station to request a four-letter call sign after receiving its construction permit. All initial LPTV construction permits will continue to be issued with a five-character LPTV call sign. LPTV respondents are required to use the on-line electronic system. To enable these respondents to use this on-line system, the Commission eliminated the requirement that holders of LPTV construction permits submit with their call sign requests a certification that the station has been constructed, that physical construction is underway at the transmitter site, or that a firm equipment order has been placed.

47 CFR 74.1283(c)(1) requires FM translator stations whose station identification is made by the primary station to furnish current information on the translator's call letters and location. This information is kept in the primary station's files. This information is used to contact the translator licensee in the event of malfunction of the translator.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0512.

Title: ARMIS Annual Summary Report.

Report No.: FCC Report 43-01.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 126.

Estimated Time per Response: 88 hours.

Frequency of Response: Annual reporting requirement.

Total Annual Burden: 11,088 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission is submitting this information collection to OMB as a revision in order to obtain the full three-year clearance from them. The Commission has revised this information collection because five mid-sized carriers reached the revenue threshold, two mid-sized carriers were eliminated because they fell below the revenue threshold and one carrier was sold. The Commission has also deleted one row in the ARMIS Annual Summary Report (FCC Report 43-01). FCC Report 43-01 facilitates the annual collection of the results of accounting, rate base, and cost allocation requirements prescribed in Parts 32, 36, 64, 65 and 69 of the Commission's rules. ARMIS was implemented to facilitate the timely and efficient analysis of revenue requirements, rates of return and price caps; to provide an improved basis for audits and other oversight functions; and to enhance the Commission's ability to quantify the effects of alternative policy. The FCC Report 43-01 contains financial and operating data and is used to monitor the incumbent local exchange carriers and to perform routine analyses of cost and revenues.

OMB Control No.: 3060-0513.

Title: ARMIS Joint Cost Report.

Report No.: FCC Report 43-03.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 82.

Estimated Time per Response: 50 hours.

Frequency of Response: Annual reporting requirement.

Total Annual Burden: 4,100 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission is submitting this information collection to OMB as a revision in order to obtain the full three-year clearance from them. The Commission has revised this information collection due to the addition of two rows for Account 6623. The Commission uses an indexed revenue threshold to determine which carriers are required to file the ARMIS reports. The revenue threshold is currently \$125 million. In this submission, the Commission also revised the number of carriers filing this ARMIS report from 83 to 82 to reflect one carrier that was sold and will no longer file this report. The ARMIS Joint Cost Report, FCC Report 04-03, contains financial and operating data. The Report details the incumbent local exchange carriers (ILECs) regulated and nonregulated cost and revenue allocations by study area pursuant to Part 64 of the Commission's rules.

OMB Control No.: 3060-0978.

Title: Section 20.18, 911 Service, Fourth Report and Order.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 4,000 respondents; 32,000 responses.

Estimated Time per Response: 2 hours.

Frequency of Response: Quarterly reporting requirement and third party disclosure requirement.

Total Annual Burden: 32,000 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission is seeking an extension (no change in reporting requirements) for this information collection in order to obtain the full three-year clearance from OMB.

The Commission's Fourth Report and Order took steps to ensure persons with hearing and speech disabilities using text telephone (TTY) devices will be able to make 911 emergency calls over digital wireless systems. The Fourth Report and Order established June 30, 2002, as the deadline by which digital wireless service providers must be capable of transmitting 911 calls made using TTY devices. In order to monitor the development and implementation of this capability within carrier networks, the Commission imposes quarterly reporting requirements on carriers which may be fulfilled by reporting through an industry forum that has been actively involved in resolving TTY/digital compatibility problems. The Commission will use this information submitted in the quarterly TTY reports
