DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2003-15432]

BNSF Railway Company; Notice of Public Hearing and Extension of Comment Period

The BNSF Railway Company has petitioned the Federal Railroad Administration (FRA) seeking approval to expand the existing waiver, granted on June 23, 2004, to include the area from Fort Worth, Texas, milepost 346.67, to Arkansas City, Kansas, milepost 264.11, on the Fort Worth and Red Rock Subdivisions, a distance of approximately 329 miles. This expansion request is identified as Docket No. FRA-2003-15432.

The FRA had issued a public notice seeking comments of interested parties. After examining the railroad's proposal and the comments received, FRA has determined that a public hearing is necessary before a final decision is made on this proposal. FRA is also extending the comment period to one week beyond the date of the public hearing. If information received at the public hearing warrants the need to extend the comment period even further, a separate notice will be published indicating such extension.

Accordingly, a public hearing is hereby set for 1 p.m. (Eastern Standard Time), on Thursday, February 23, 2006, at the Wyndham Hotel, Vista Ballroom C, 1400 M Street, NW., Washington, DC 20005. Interested parties are invited to present oral statements at the hearing. The hearing will be informal and will be conducted by a representative designated by the FRA, in accordance with Rule 25 of the FRA Rules of Practice (49 CFR part 211.25). The hearing will be a non-adversary proceeding and, therefore, there will be no cross-examination of persons presenting statements. The FRA representative will make an opening

statement outlining the scope of the hearing. After all initial statements have been completed, those persons wishing to make brief rebuttal statements will be given the opportunity to do so in the same order in which they made their initial statements. Additional procedures, if necessary for the conduct of the hearing, will be announced at the hearing.

In addition, FRA is extending the comment period to March 2, 2006. All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number FRA-2003-15432) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

Anyone is able to search the electronic form of all comments received and entered into our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000, (Volume 65, Number 70; Pages 19477-78). The Statement may also be found at <http://dms.dot.gov>.

Issued in Washington, DC, on January 30, 2006.

Federal Transit Administration

Over-the-Road Bus Accessibility Program Grants

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Notice of Availability of Fiscal Year 2006 Funds: Solicitation of Grant Applications.

SUMMARY: The U.S. Department of Transportation (DOT) Federal Transit Administration (FTA) announces the availability of funds in fiscal year (FY) 2006 for the Over-the-Road Bus (OTRB)

Accessibility Program, authorized by Section 3038 of the Transportation Equity Act for the 21st Century (TEA-21). The OTRB Accessibility Program makes funds available to private operators of over-the-road buses to finance the incremental capital and training costs of complying with DOT's over-the-road bus accessibility final rule, 49 CFR Part 37, published in a **Federal Register** notice on September 28, 1998 (63 FR 51670). The authorizing legislation calls for national solicitation of applications, with grantees to be selected on a competitive basis. Federal transit funds are available to intercity fixed-route providers and other OTRB providers at up to 90 percent of the project cost.

In FY 2006, following a one percent rescission, \$5,568,750 was made available for intercity fixed-route service providers and \$1,856,250 was made available for other over-the-road bus service providers.

This announcement is available on the Internet on the FTA Web site at: <http://www.fta.dot.gov>. FTA will announce final selections on the Web site and in the **Federal Register**. A synopsis of this announcement will be posted in the FIND module of the government-wide electronic grants Web site at <http://www.grants.gov>. Applications may be submitted to FTA in hard copy or electronically through the GRANTS.GOV APPLY function.

DATES: Complete applications for Over-the-Road Bus (OTRB) Program grants must be submitted to the appropriate FTA regional office (see Appendix C) by April 3, 2006, or submitted electronically through the <http://grants.gov> Web site by the same date. Anyone intending to apply electronically should initiate the process of registering on the <http://grants.gov> site immediately to ensure completion of registration before the deadline for submission. FTA will announce grant selections in the **Federal Register** when the competitive selection process is complete.

FOR FURTHER INFORMATION CONTACT: The appropriate FTA Regional Administrator (Appendix C) for application-specific information and issues. I. Funding Opportunity Description

A. Authority

The program is authorized under Section 3038 of the Transportation Equity Act for the 21st Century (TEA-21), Pub. L. 105-85 as amended by SAFETEA-LU, Pub. L. 109-59, August 10, 2005.

B. Background

Over-the-road buses are used in intercity fixed-route service as well as other services, such as commuter, charter, and tour bus services. These services are an important element of the U.S. transportation system. TEA-21 authorized FTA's Over-the-road Bus Accessibility Program to assist over-the-road bus operators in complying with the Department's Over-the-Road Bus Accessibility rule, "Transportation for Individuals with Disabilities" (49 CFR Part 37) published in a **Federal Register**

notice on September 28, 1998 (63 FR 51670).

Summary of DOT's Over-the-Road Bus Accessibility Rule

Deadlines for Acquiring Accessible Vehicles. Under the over-the-road bus accessibility rule, all new buses obtained by large (Class I carriers, *i.e.*, those with gross annual operating revenues of \$5.3 million or more), fixed-route carriers after October 30, 2000 must be accessible, with wheelchair lifts and tie-downs that allow passengers to ride in their own wheelchairs. The rule requires 50 percent of the fixed-route carriers' fleets to be accessible by 2006, and 100 percent of the vehicles in their fleets to be accessible by 2012. The buses acquired by small (gross operating revenues of less than \$5.3 million annually) fixed-route providers after October 29, 2001 also are required to be lift-equipped, although they do not have a deadline for total fleet accessibility. Small providers also can provide equivalent service in lieu of obtaining accessible buses. Starting in 2001, charter and tour companies have to provide service in an accessible bus on 48 hours' advance notice. Fixed-route companies must also provide this kind of service on an interim basis until their fleets are completely accessible.

Deadlines for Delivering Accessible Service. The rules for delivering accessible motorcoach service went into effect October 29, 2001 for large fixed-route, charter, tour and other demand-responsive motorcoach companies. The rules went into effect for small operators on October 28, 2002. After these dates, companies must provide service in an accessible coach to a passenger who requests it and gives 48 hours' advance notice. Small companies may provide equivalent service, instead of acquiring accessible coaches. This equivalent service may be provided in an alternate vehicle (*e.g.*, a van), provided that the service allows passengers to travel in their own wheelchairs.

Specifications describing the design features that an over-the-road bus must have to be readily accessible to and usable by persons who use wheelchairs or other mobility aids required by the "Americans with Disabilities Act Accessibility Guidelines for Transportation Vehicles: Over-the-Road Buses" rule (36 CFR part 1192) were published in another **Federal Register** notice on September 28, 1998.

C. Purpose

Improving mobility and shaping America's future by ensuring that the transportation system is accessible, integrated, and efficient, and offers

flexibility of choices is a key strategic goal of the Department of Transportation. Over-the-road Bus Accessibility projects will improve mobility for individuals with disabilities by providing financial assistance to help make vehicles accessible and training to ensure that drivers and others understand how to use accessibility features as well as how to treat patrons with disabilities.

D. Vehicle and Service Definitions

An "over-the-road bus" is a bus characterized by an elevated passenger deck located over a baggage compartment.

Intercity, fixed-route over-the-road bus service is regularly scheduled bus service for the general public, using an over-the-road bus that: operates with limited stops over fixed routes connecting two or more urban areas not in close proximity or connecting one or more rural communities with an urban area not in close proximity; has the capacity for transporting baggage carried by passengers; and makes meaningful connections with scheduled intercity bus service to more distant points. The application includes six factors that will be reviewed to determine eligibility for the portion of the funding limited to operators that qualify under this definition.

Other over-the-road bus service means any other transportation using over-the-road buses, including local fixed-route service, commuter service, and charter or tour service (including tour or excursion service that includes features in addition to bus transportation such as meals, lodging, admission to points of interest or special attractions). While some commuter service may also serve the needs of some intercity fixed-route passengers, the statute includes commuter service in the definition of "other" service. Commuter service providers should apply for these funds, even though the services designed to meet the needs of commuters may also provide service to intercity fixed-route passengers on an incidental basis. If a service provider can document that more than 50 percent of its passengers are using the service as intercity fixed-route service, the provider may apply for the funds designated for intercity fixed-route operators.

II. Award Information

Federal transit funds are available to intercity fixed-route providers and other OTRB providers at up to 90 percent of the project cost. In FY 2006, after a one percent rescission, \$5,568,750 was made available for intercity fixed-route service providers and \$1,856,250 was made

available for other over-the-road bus service providers. Successful applicants will be awarded grants. Typical grants under this program range from \$25,000 to \$180,000, with most grants being less than \$40,000, for lift equipment for one bus.

III. Eligibility Information

1. Eligible Applicants

Grants will be made directly to operators of over-the-road buses. Intercity, fixed-route over-the-road bus service providers may apply for the \$5,568,750 available to intercity fixed-route providers in FY 2006. Applicants must establish eligibility as intercity fixed-route providers by meeting established criteria on six factors identified in the application. Other over-the-road bus service providers, including operators of local fixed-route service, commuter service, and charter or tour service may apply for the \$1,856,250 available in FY 2006 for these providers. OTRB operators who provide both intercity, fixed-route service and another type of service, such as commuter, charter or tour, may apply for both categories of funds with a single application. Private for-profit operators of over-the-road buses are eligible to be direct applicants for this program. This is a departure from most other FTA programs for which the direct applicant must be a state or local public body. FTA does not award grants to public bodies under this program.

Eligible Projects

Projects to finance the incremental capital and training costs of complying with DOT's over-the-road bus accessibility rule (49 CFR part 37) are eligible for funding. Incremental capital costs eligible for funding include adding lifts, tie-downs, moveable seats, doors and all labor costs associated with work on the vehicle needed to make vehicles accessible. Retrofitting vehicles with such accessibility components is also an eligible expense. Please see Buy America section for further determination of eligibility.

FTA may award funds for costs already incurred by the applicants. Any new wheelchair accessible vehicles delivered since June 8, 1998, the date that the Transportation Equity Act for the 21st Century was effective, are eligible for funding under the program. Vehicles of any age that have been retrofitted with lifts and other accessibility components since June 8, 1998 are also eligible for funding.

Eligible training costs are those required by the final accessibility rule as described in 49 CFR 37.209. These

activities include training in proper operation and maintenance of accessibility features and equipment, boarding assistance, securement of mobility aids, sensitive and appropriate interaction with passengers with disabilities, and handling and storage of mobility devices. The costs associated with developing training materials or providing training for local providers of over-the-road bus services for these purposes are eligible expenses.

FTA will not fund the incremental costs of acquiring used wheelchair accessible OTRBs, as it may be impossible to verify whether or not FTA funds were already used to make the vehicles accessible. Also, it would be difficult to place a value on the accessibility features based upon the depreciated value of the vehicle. FTA wishes to increase the number of wheelchair accessible over-the-road buses available to persons with disabilities throughout the country, and the purchase of used accessible vehicles, whether or not they were previously funded by FTA, does not further this objective.

FTA has sponsored the development of accessibility training materials for public transit operators. FTA-funded Project Action is a national technical assistance program to promote cooperation between the disability community and the transportation industry. Project Action provides training, resources and technical assistance to thousands of disability organizations, consumers with disabilities, and transportation operators. It maintains a resource center with the most up-to-date information on transportation accessibility. Project Action may be contacted at: Project Action, 700 Thirteenth Street NW., Suite 200, Washington, DC 20590. Phone: 1-800-659-6428. Internet address: <http://www.projectaction.org/>.

2. Cost Sharing or Matching

Federal transit funds are available to intercity fixed-route providers and other OTRB providers at up to 90 percent of the project cost. A 10 percent match is required.

IV. Application and Submission Information

1. Address To Request Application Package

This announcement includes all of the information that you need to apply. It is available on the Internet on the FTA Web site at <http://www.fta.dot.gov>. FTA will announce final selections on the Web site and in the **Federal Register**. A synopsis of this announcement will be

posted in the FIND module of the government-wide electronic grants Web site at <http://www.grants.gov>.

2. Content and Form of Application Submission

Guidelines for Preparing Grant Application

FTA is conducting a national solicitation for applications under the OTRB Accessibility program. Grant awards will be made on a competitive basis. The application should provide information on all items for which you are requesting funding in FY 2006. If you use another company's previous application as a guide, remember to modify all elements as appropriate to reflect your company's situation. The application must include a project narrative in the format provided in Appendix A, in addition to Standard Form 424, "Application for Federal Assistance".

Application Content

- Applicant Information
 - This addresses basic identifying information, including:
 - a. Company name.
 - b. Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number.

Every application must:

- a. Provide the Federal amount requested for each purpose for which

funds are sought in the format in Appendix A.

b. Document matching funds, including amount and source.

c. Describe project, including components to be funded, *i.e.*, lifts, tie-downs, moveable seats, etc., and/or training.

d. Provide project time-line, including significant milestones such as date or contract for purchase of vehicle(s), and actual or expected delivery date of vehicles.

e. Address each of the five statutory evaluation criteria described in V.

f. If requesting funding for intercity service, provide evidence that:

1. The applicant provides scheduled, intercity, fixed route, over-the-road bus service that interlines with one or more scheduled, intercity bus operators. (Such evidence includes applicant's membership in the National Bus Traffic Association or participation in separate interline agreements, and participation in interline tariffs or price lists issued by, or on behalf of, scheduled, intercity bus operators with whom the applicant interlines); and

2. The applicant has obtained authority from the Federal Motor Carrier Safety Administration or the Interstate Commerce Commission to operate scheduled, intercity, fixed route service; and as many of the following as are applicable;

3. The applicant is included in Russell's Official National Motor Coach Guide showing that it provides regularly scheduled, fixed route over-the-road bus service with meaningful connections with scheduled intercity bus service to more distant points.

4. The applicant maintains a website showing routes and schedules of its regularly scheduled, fixed route over-the-road bus service and its meaningful connections to other scheduled, intercity bus service.

5. The applicant maintains published schedules showing its regularly scheduled, fixed route over-the-road bus service and its meaningful connections to other scheduled, intercity bus service.

6. The applicant participates in the International Registration Plan (IRP) apportionment program.

- Labor Information

a. Identify any labor organizations that may represent your employees and all labor organizations that represent the employees of any transit providers in the service area of the project. For each local of a nationally affiliated union, the applicant must provide the name of the national organization and the number or other designation of the local union. (For example, Amalgamated Transit

Union local 1258.) Since DOL makes its referral to the national union's headquarters, there is no need to provide a means of contacting the local organization.

b. For each independent labor organization (*i.e.*, a union that is not affiliated with a national or international organization) the local information will be necessary (name of organization, address, contact person, phone, fax numbers).

c. Where a labor organization represents transit employees in the service area of the project, DOL must refer the proposed protective arrangements to each union and to each recipient. For this reason, please provide DOL with a contact person, address, telephone number and fax number for your company and associated union information.

3. Submission Dates and Times

Complete applications for OTRB Accessibility Program grants must be submitted to the appropriate FTA regional office (see Appendix C) April 3, 2006 or submitted electronically through the <http://grants.gov> Web site by the same date. Applicants planning to apply electronically are encouraged to begin the process of registration on the <http://grants.gov> site well in advance of the submission deadline. Registration is a multi-step process, which may take several weeks to complete before an application can be submitted. FTA will announce grant selections when the competitive selection process is complete.

4. Intergovernmental Review

This program is not generally subject to Executive Order (EO) 12372, "Intergovernmental Review of Federal Programs." For more information, contact the State's Single Point of Contact (SPOC) to find out about and comply with the State's process under EO 12372. The names and addresses of the SPOCs are listed in the Office of Management and Budget's home page at <http://www.whitehouse.gov/omb/grants/spoc.html>.

5. Funding Restrictions

Only applications from eligible recipients for eligible activities will be considered for funding (see Section III). Due to funding limitations, applicants that are selected for funding may receive less than the amount requested.

6. Other Submission Requirements

Applicants should submit 3 copies of their project proposal application, consistent with the application format provided at Appendix A, to the

appropriate regional office or apply electronically through the government wide electronic grant application portal at <http://www.grants.gov>.

V. Application Review Information

1. Project Evaluation Criteria

Projects will be evaluated according to the following criteria:

A. The identified need for over-the-road bus accessibility for persons with disabilities in the areas served by the applicant. (20 points)

B. The extent to which the applicant demonstrated innovative strategies and financial commitment to providing access to over-the-road buses to persons with disabilities. (20 points)

C. The extent to which the over-the-road bus operator acquired equipment required by DOT's over-the-road bus accessibility rule prior to the required time-frame in the rule. (20 points)

D. The extent to which financing the costs of complying with DOT's rule presents a financial hardship for the applicant. (20 points)

E. The impact of accessibility requirements on the continuation of over-the-road bus service with particular consideration of the impact of the requirements on service to rural areas and for low-income individuals. (20 points)

Note: These are the statutory criteria upon which funding decisions will be made. In addition to these criteria, FTA may also consider other factors, such as the size of the applicant's fleet and the level of FTA funding that may already have been awarded to applicants in prior years. Applicants will not be considered for funding as intercity fixed-route operators unless they satisfy at a minimum the first two criteria and at least one of criteria three through five listed in Project Information in the application content applicable to intercity fixed-route applicants.

2. Review and Selection Process

Each application is screened by a panel of members represented by FTA headquarters and regional staff. Incomplete or non-responsive applications will be disqualified. Intercity fixed-route service providers must provide evidence that they meet at a minimum the first two criteria and at least one of the next three criteria set forth in Project Information, if funds are requested under this category (see Appendix A, 2, B). Applicants that do not qualify as intercity-fixed route operators may be considered for funding in the "other" category. FTA will make an effort to award every qualified applicant at least one lift. Prior year funding under the program is a factor, however, so depending upon demand,

an applicant that received significant prior year funding may not be selected to receive additional funding.

VI. Award Administration Information

1. Award Notices

FTA will screen all applications to determine whether all required eligibility elements, as described in III. "Eligibility Information" are present. An FTA evaluation team will evaluate each application according to the criteria described in this announcement. FTA will notify all applicants, both those selected for funding and those not selected when the competitive selection process is complete. Projects selected for funding will be published in a **Federal Register** notice. Applicants selected for funding must then apply to the FTA regional office for the actual grant award, sign Certifications and Assurances, and execute a grant contract before funds can be drawn down.

2. Administrative and National Policy Requirements

A. Grant Requirements

Applicants selected for funding must include documentation necessary to meet the requirements of FTA's Nonurbanized Area Formula program (Section 5311 under Title 49, United States Code). Technical assistance regarding these requirements is available from each FTA regional office. The regional offices will contact those applicants selected for funding regarding procedures for making the required certifications and assurances to FTA before grants are made.

The authority for these requirements is provided by the Transportation Equity Act for the 21st Century, Pub. L. 105-178, June 9, 1998, as amended by the TEA-21 Restoration Act 105-206, 112 Stat. 685, July 22, 1998, 49 U.S.C. chapter 53, Title 23, United States Code, DOT and FTA regulations at 49 CFR, and FTA Circulars.

B. Buy America

In the OTRB Accessibility program, FTA's Buy America regulations, 49 CFR Part 661, apply to the incremental capital cost of making vehicles accessible. Those regulations do not apply to associated labor costs. The following discussion relates to the contract between the grantee and the prime contractor.

The "General Requirements" found at 49 CFR 661.5 apply to that portion of the accessibility system being funded. That section requires that all of the manufacturing processes for the product take place in the United States and that all components of the product be made

in the United States. A component is considered domestic if it is manufactured in the U.S.A., regardless of the origin of its subcomponents. The lift, the moveable seats, and the securement devices will all be considered components for purposes of this program; accordingly, as components, each must be manufactured in the United States. Should a recipient choose to request funding for only a specific component, such as the lift or the securement device, then the Buy America requirements would apply only to that item funded by FTA.

Three exceptions to the general requirements can be found at 49 CFR 661.7: first, a waiver may be requested when the application of the regulation is not in the public interest; second, a waiver may be requested if the materials and products being procured are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; and third, a price differential waiver may be requested where the results of competitive procurement show that there is a 25 percent price difference between the domestic and foreign products. FTA approval of a waiver must be received by the recipient of FTA funds prior to the execution of contract.

It should also be noted that FTA has issued a general public interest waiver for all purchases under the Federal "small purchase" threshold, which is currently \$100,000.

This waiver can be found in 49 CFR 661.7, Appendix A(e). In Section 3038(b) of TEA-21, Congress authorized FTA financing of the incremental capital costs of compliance with DOT's OTRB accessibility rule. Consistent with this provision, the small purchase waiver applies only to the incremental cost of the accessibility features FTA is funding. Where more than one bus is purchased, the grantee must consider the incremental cost increase for the entire procurement when determining if the small purchase waiver applies. For example, if \$30,000 is the incremental cost for the accessibility features eligible under this program per bus (regardless of the Federal share contribution), then a procurement of three buses with a total such cost of \$90,000, would qualify for the small purchase waiver. No special application to FTA would be required.

The grantee must obtain a certification from the bus manufacturer that all items included in the incremental cost for which the applicant is applying for funds meet Buy America requirements. The Buy America

regulations can be found at <http://www.fta.dot.gov/library/legal/buyamer/>.

C. Labor Protection

Before FTA may award a grant for capital assistance, 49 U.S.C. 5333(b) requires that fair and equitable arrangements must be made to protect the interests of transit employees affected by FTA assistance. Those arrangements must be certified by the Secretary of Labor as meeting the requirements of the statute. When a labor organization represents a group of affected employees in the service area of an FTA project, the employee protective arrangement is usually the product of negotiations or discussions with the union. The grant applicant can facilitate Department of Labor (DOL) certification by identifying in the application any previously certified protective arrangements that have been applied to similar projects undertaken by the grant applicant, if any. Receiving funds under the OTRB Accessibility program, however, will not require the grantee's employees to be represented by organized labor. Nothing in the labor protection provisions in 49 U.S.C. 5333(b) requires a motorcoach operator to become a union carrier or encourages union organizing in any manner. Upon receipt of a grant application requiring employee protective arrangements, FTA will transmit the application to DOL and request certification of the employee protective arrangements. In accordance with DOL guidelines, DOL notifies the relevant unions in the area of the project that a grant for assistance is pending and affords the grant applicant and union the opportunity to agree to an arrangement establishing the terms and conditions of the employee protections. If necessary, DOL furnishes technical and mediation assistance to the parties during their negotiations. The Secretary of Labor may determine the protections to be certified if the parties do not reach an agreement after good faith bargaining and mediation efforts have been exhausted. DOL will also set the protective conditions when affected employees in the service area are not represented by a union. When DOL determines that employee protective arrangements comply with labor protection requirements, DOL will provide a certification to FTA. The grant agreement between FTA and the grant applicant incorporates by reference the employee protective arrangements certified by DOL.

Applicants must identify any labor organizations that may represent their employees and all labor organizations that represent the employees of any

other transit providers in the service area of the project.

For each local of a nationally affiliated union, the applicant must provide the name of the national organization and the number or other designation of the local union. (*For example*, Amalgamated Transit Union local 1258) Since DOL makes its referral to the national union's headquarters, there is no need to provide a means of contacting the local organization.

However, for each independent labor organization (*i.e.*, a union that is not affiliated with a national or international organization) the local information will be necessary (name of organization, address, contact person, phone, fax numbers).

Where a labor organization represents transit employees in the service area of the project, DOL must refer the proposed protective arrangements to each union and to each recipient. For this reason, please provide DOL with a contact person, address, telephone number and fax number for your company, and associated union information.

DOL issued a **Federal Register** notice addressing the new TEA-21 programs, including the OTRB Accessibility Program, "Amendment to Section 5333(b) Guidelines to Carry Out New Programs Authorized by the Transportation Equity Act for the 21st Century (TEA-21)"; Final Rule, dated July 28, 1999. FTA issued a "Dear Colleague" letter, dated December 5, 2000, addressing DOL processing of grant applications. Attached to the letter is an application checklist, which provides information that DOL must have in order to review and certify FTA grant applications. This letter and attachment can be found at: <http://www.fta.dot.gov/office/public/c0019.html>. The Applicant assures that it will comply with all applicable Federal statutes, regulations, executive orders, FTA circulars, and other Federal administrative requirements in carrying out any project supported by the FTA grant. The Applicant acknowledges that it is under a continuing obligation to comply with the terms and conditions of the grant agreement issued for its project with FTA. The Applicant understands that Federal laws, regulations, policies, and administrative practices might be modified from time to time and affect the implementation of the project. The Applicant agrees that the most recent Federal requirements will apply to the project, unless FTA issues a written determination otherwise. The Applicant must submit the Certifications and Assurances for the FTA Over-the-Road Bus Accessibility Program found at Appendix B.

3. Reporting

Post-award reporting requirements include submission of final Financial Status Report and milestone report, or annual reports for grants remaining open at the end of each Federal fiscal year (September 30). Documentation is required for payment.
