

Panel Decision: The Panel concluded and ordered the Department as follows:

(1) The Panel affirms the Department's decision to deny TAMSA's request for revocation of the antidumping order.

(2) The Panel affirms the decision of the Department as it relates to Hylsa regarding the treatment of export insurance as a direct expense, and in rejecting Hylsa's challenge to the Department's "zeroing practice".

(3) The Panel remands the case as it relates to Hylsa to the Department to recalculate the final antidumping margins by:

1. Recalculating the packing costs by (a) taking into account that the cost for automation was captured as an overhead fixed asset; (b) not averaging the packing costs from cost center 2052 for the entire POR because it is not reasonable; and (c) taking into consideration only the packing costs reported by Hylsa for cost center 2052 and only for the two months in which OCTG products were packed.

2. Recalculating the cost of production by averaging the costs of production for both sizes of pipe and for both months to determine a single average cost given the absence of any basis in the record justifying different production costs based on size.

(4) In the event the recalculation results in a zero or *de minimus* antidumping margin, the Panel directs the Department to address Hylsa's request for revocation of the antidumping order.

The Department was directed to report the results of its remand decision within 45 days of the date of the opinion, or not later than March 13, 2006.

Dated: January 27, 2006.

Caratina L. Alston,

United States Secretary, NAFTA Secretariat.
