**SUPPLEMENTARY INFORMATION:**

*OMB Approval No.:* 2138-0006.

*Title:* Preservation of Air Carrier Records—14 CFR Part 249.

*Form No.:* None.

*Type of Review:* Extension of a currently approved recordkeeping requirement.

*Respondents:* Certificated air carriers and charter operators.

*Number of Respondents:* 120 certificated air carriers, 300 charter operators.

*Estimated Time per Response:* 3 hours per certificated air carrier, 1 hour per charter operator.

*Total Annual Burden:* 660 hours.

*Needs and Uses:* Part 249 requires the retention of records such as: general and subsidiary ledgers, journals and journal vouchers, voucher distribution registers, accounts receivable and payable journals and ledgers, subsidy records documenting underlying financial and statistical reports to DOT, funds reports, consumer records, sales reports, auditors' and flight coupons, air waybills, etc. Depending on the nature of the document, the carrier may be required to retain the document for a period of 30 days to 3 years. Public charter operators and overseas military personnel charter operators must retain documents which evidence or reflect deposits made by each charter participant and commissions received by, paid to, or deducted by travel agents, and all statements, invoices, bills and receipts from suppliers or furnishers of goods and services in connection with the tour or charter. These records are retained for 6 months after completion of the charter program.

Not only is it imperative that carriers and charter operators retain source documentation, but it is critical that we ensure that DOT has access to these

records. Given DOT's established information needs for such reports, the underlying support documentation must be retained for a reasonable period of time. Absent the retention requirements, the support for such reports may or may not exist for audit/validation purposes and the relevance and usefulness of the carrier submissions would be impaired, since the data could not be verified to the source on a test basis.

**AGENCY:** Research & Innovative Technology Administration (RITA), Bureau of Transportation Statistics (BTS), DOT.

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act of 1995, Public Law 104-13, the Bureau of Transportation Statistics invites the general public, industry and other governmental parties to comment on the continuing need for and usefulness of BTS collecting a sample of airline passenger itineraries with the dollar value of the passenger ticket. Certificated air carriers that operated scheduled passenger service with at least one aircraft having a seating capacity of over 60 seats report these data. Comments are requested concerning whether: (a) The collection is still needed by the Department of Transportation; (b) BTS accurately estimated the reporting burden; (c) there are other ways to enhance the quality, utility and clarity of the information collected; and (d) there are ways to minimize reporting burden, including the use of automated collection techniques or other forms of information technology.

Presently, the Department has a Notice of Proposed Rulemaking (70 FR 8140, February 17, 2005) to restructure the Passenger Origin-Destination Survey Report. We are currently reviewing diverse comments on the NPRM which were due July 18, 2005 in preparation

for a final rule. Until such time as we issue a final rule, the existing system for the collection of this data will remain in place to ensure compliance with statutory obligations. Therefore, we are seeking an extension of the rule in its present format. When the rulemaking becomes final the Department will seek Office of Management and Budget approval of the new reporting requirements.

Corman Railroad Company/Tennessee Terminal, LLC*, wherein Richard J. Corman and R.J. Corman Railroad Group, LLC, have concurrently filed a verified notice of exemption to continue in control of RJCK, upon its becoming a Class III rail carrier.
