

a maximum of 150,000 shares of applicant's common stock may be issued to Non-employee Directors as a group. Under the Plan, no single Non-employee Director may receive options to purchase more than 25,000 shares of applicant's common stock.

4. Under the terms of the Plan, the exercise price of an option will not be less than 100% of the current market value of, or if no such market value exists, the current net asset value per share of, applicant's common stock on the date of the issuance of the option.⁴ Options granted under the Plan will expire ten years from the date of grant and may not be assigned or transferred other than by will or the laws of descent and distribution. In the event of the death or disability of a Non-employee Director during such director's service, all such director's unexercised options will immediately become exercisable and may be exercised for a period of three years following the date of death (by such director's personal representative) or one year following the date of disability, but in no event after the respective expiration dates of such options. In the event of the termination of a Non-employee Director for cause, any unexercised options will terminate immediately. If a Non-employee Director's service is terminated for any reason other than by death, disability, or for cause, the options may be exercised within one year immediately following the date of termination, but in no event later than the expiration date of such options.

5. Applicant's officers and employees, including employee directors are eligible or have been eligible to receive options under applicant's six other stock option plans under which Non-employee Directors are not entitled to participate (the "Employee Plans"). Non-employee Directors have participated in applicant's prior Disinterested Director stock option plan under which options for all available shares have been granted (such plan together with the Employee Plans, the "Other Plans"). The maximum number of applicant's voting securities that would result from the exercise of all outstanding options issued or options issuable to the directors, officers, and employees under the Other Plans and the Plan would be 12,240,580 shares, or approximately 10.3% of the 118,913,029 shares of applicant's common stock outstanding as of December 30, 2005.

⁴ Under the Plan, "current market value" (defined as "fair market value") is generally the closing sales price of applicant's shares as quoted on the Nasdaq National Market, or alternatively, on the exchange where applicant's shares are traded, on the day the option is granted.

Applicant has no outstanding warrants, options, or rights to purchase its voting securities, other than the options granted or to be granted to its directors, officers, and employees under the Other Plans and the Plan.

Applicant's Legal Analysis

1. Section 63(3) of the Act permits a BDC to sell its common stock at a price below current net asset value upon the exercise of any option issued in accordance with section 61(a)(3) of the Act. Section 61(a)(3)(B) of the Act provides, in pertinent part, that a BDC may issue to its non-employee directors options to purchase its voting securities pursuant to an executive compensation plan, provided that: (a) The options expire by their terms within ten years; (b) the exercise price of the options is not less than the current market value of the underlying securities at the date of the issuance of the options, or if no market exists, the current net asset value of the voting securities; (c) the proposal to issue the options is authorized by the BDC's shareholders, and is approved by order of the Commission upon application; (d) the options are not transferable except for disposition by gift, will or intestacy; (e) no investment adviser of the BDC receives any compensation described in section 205(a)(1) of the Investment Advisers Act of 1940, except to the extent permitted by clause (b)(1) or (b)(2) of that section; and (f) the BDC does not have a profit-sharing plan as described in section 57(n) of the Act.

2. In addition, section 61(a)(3) of the Act provides that the amount of the BDC's voting securities that would result from the exercise of all outstanding warrants, options, and rights at the time of issuance may not exceed 25% of the BDC's outstanding voting securities, except that if the amount of voting securities that would result from the exercise of all outstanding warrants, options, and rights issued to the BDC's directors, officers, and employees pursuant to an executive compensation plan would exceed 15% of the BDC's outstanding voting securities, then the total amount of voting securities that would result from the exercise of all outstanding warrants, options, and rights at the time of issuance will not exceed 20% of the outstanding voting securities of the BDC.

3. Applicant represents that the terms of the Plan meet all the requirements of section 61(a)(3)(B) of the Act. Applicant states that the Board is actively involved in the oversight of applicant's affairs and that it relies extensively on the judgment and experience of its Board. In

addition to their duties as Board members generally, applicant states that the Non-employee Directors provide guidance and advice on operational issues, underwriting policies, credit policies, asset valuation and strategic direction, as well as serving on committees. Applicant believes that the Plan will provide significant at-risk incentives to Non-employee Directors to remain on the Board and devote their best efforts to ensure applicant's success. Applicant states that the options will provide a means for the Non-employee Directors to increase their ownership interests in applicant, thereby ensuring close identification of their interests with those of applicant and its stockholders. Applicant asserts that by providing incentives such as options, applicant will be better able to maintain continuity in the Board's membership and to attract and retain the highly experienced, successful and dedicated business and professional people who are critical to applicant's success as a BDC.

4. Applicant states that the maximum number of voting securities that would result from the exercise of all outstanding options issued or options issuable to the directors, officers, and employees under the Other Plans and the Plan would be 12,240,580 shares, or approximately 10.3% of applicant's common stock outstanding as of December 30, 2005, which is below the percentage limitations in the Act. Applicant asserts that, given the relatively small amount of common stock issuable upon the exercise of the options under the Plan, the exercise of options would not, absent extraordinary circumstances, have a substantial dilutive effect on the net asset value of applicant's common stock.
