

investigation as to claims 1–5, 7–9, and 15–17 of the '913 patent against respondents Motoman and Yaskawa, claims 1–2, 4, 7–9, 15, and 17 against respondents Behr and Dürr, and claims 1–9 and 15–17 against newly added respondents Dürr Systems, Inc., Dürr Systems GmbH, and Dürr Special Material Handling GmbH. On June 16, 2005, the Commission determined not to review Order No. 9.

On August 23, 2005, the ALJ issued an ID, Order No. 15, which granted complainant's motion for summary determination regarding the economic prong of the domestic industry requirement of section 337. On September 12, the Commission determined not to review Order No. 15.

An evidentiary hearing was held from September 16–23, 2005.

The claims remaining at issue are claims 10–14 and 18–24 of the '913 patent, which claims are asserted against all respondents.

On December 19, 2005, the ALJ issued his final ID and recommended determinations on remedy and bonding. The ALJ found no violation of section 337 based on his findings that respondents' accused products do not infringe any of the asserted claims of the '913 patent; that the asserted claims of the '913 patent are not invalid; that the '913 patent is enforceable; and that a domestic industry exists.

On December 28, 2005, the Commission investigative attorney ("IA"), filed a request for a two-day extension of time to file his response to the petitions for review, and that request was granted by the Chairman.

On December 30, 2005, complainant FANUC filed a petition for review of the final ID, and a separate conditional petition for review of the ID. Additionally, on the same date, respondents Yaskawa, Dürr, and the IA filed petitions for review of the ID. On January 9, 2006, Yaskawa and Dürr filed responses to complainant FANUC's petitions for review, and complainant FANUC filed a response to Yaskawa, Dürr, and the IA's petitions for review. On January 11, 2006, the IA filed a response to complainant FANUC's petition for review.

On January 17, 2006, Yaskawa filed a motion to strike untimely and previously stricken arguments in the response brief of complainant FANUC regarding motor purge tests conducted by Yaskawa. The IA concurs with this motion. On January 27, 2006, FANUC filed a response to Yaskawa's motion to strike. Having considered the motion to strike and the response thereto, the Commission has determined to grant Yaskawa's motion.

Having reviewed the record in this investigation, including the parties' written submissions, the Commission has determined not to review the ALJ's final ID, thereby allowing it to become the Commission's final determination. The Commission has terminated the investigation with a finding of no violation.

This action is taken under the authority of section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, and section 210.42 of the Commission's Rules of Practice and Procedure, 19 CFR 210.42.

Issued: February 3, 2006.

By order of the Commission.

Marilyn R. Abbott,

Secretary of the Commission.
