National Highway Traffic Safety Administration

Reports, Forms and Recordkeeping Requirements; Agency Information Collection Activity Under OMB Review

AGENCY: National Highway Traffic Safety Administration, DOT. **ACTION:** Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collections and their expected burden. The **Federal Register** Notice with a 60-day comment period was published on December 1, 2005 in Volume 70, Number 230 on pages 72145–72146.

DATES: Comments must be submitted on or before 30 days from the date of publication of this notice.

FOR FURTHER INFORMATION CONTACT:

Donna Glassbrenner, PhD, at the National Highway Traffic Safety Administration, Mathematical Analysis Division, NPO–121, 400 Seventh Street, SW., Room 6125, Washington, DC 20590. Dr. Glassbrenner can also be reached at (202) 366–3962.

SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration

Title: National Survey of the Use of Booster Seats.

OMB Number: 2127–0644.

Type of Request: 3-year extension of approval for information collection.

Abstract: The National Survey of the Use of Booster Seats is being conducted to respond to the Section 14(i) of the Transportation Recall Enhancement, Accountability, and Documentation (TREAD) Act of 2000. The Act directs the Department of Transportation to reduce the deaths and injuries among children in the 4-to-8 year old age group that are caused by failure to use a

booster seat by 25 percent. Conducting the National Survey of the Use of Booster Seats will provide the Department with invaluable information on who is and is not using booster seats, helping the Department better direct its outreach programs to ensure that children are protected to the greatest degree possible when they ride in motor vehicles. The OMB approval for this survey is scheduled to expire on March 31, 2006. NHTSA seeks an extension to this approval in order to continue to obtain this important survey data, saving more children and helping to comply with the TREAD Act requirement.

Affected Public: Motorists in passenger vehicles at gas stations, fast food restaurants, and other types of sites frequented by children during the time in which the survey is conducted.

Estimated Total Annual Burden: 320 hours.

Number of Respondents: Approximately 4,800 adult motorists will respond to survey questions about the children in their vehicle.

ADDRESSES: Send comments within 30 days to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725–17th Street, NW., Washington, DC 20503, Attention: NHTSA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A comment to OMB is most effective if OMB receives it within 30 days of publication.

Issued in Washington, DC, February 2006. Joseph Carra,

Associate Administrator for the National Center for Statistics and Analysis, NHTSA. [FR Doc. 06–1360 Filed 2–13–06; 8:45 am] BILLING CODE 4910–59–P

National Highway Traffic Safety Administration

Petition for Exemption From the Vehicle Theft Prevention Standard; Ford Motor Company

AGENCY: National Highway Traffic Safety Administration (NHTSA) Department of Transportation (DOT). **ACTION:** Grant of petition for exemption.

SUMMARY: This document grants in full the petition of Ford Motor Company, (Ford) in accordance with § 543.9(c)(2) of 49 CFR Part 543, *Exemption from the Theft Prevention Standard*, for the Focus vehicle line beginning with model year (MY) 2006. This petition is granted because the agency has determined that the antitheft device to be placed on the line as standard equipment is likely to be as effective in reducing and deterring motor vehicle theft as compliance with the partsmarking requirements of the Theft Prevention Standard.

DATES: The exemption granted by this notice is effective beginning with model year (MY) 2006.

FOR FURTHER INFORMATION CONTACT: Ms. Carlita Ballard, Office of International Policy, Fuel Economy and Consumer Programs, NHTSA, 400 Seventh Street, SW., Washington, DC 20590. Ms. Ballard's telephone number is (202) 366–0846. Her fax number is (202) 493– 2290.

SUPPLEMENTARY INFORMATION: In a petition dated October 7, 2005, Ford requested exemption from the partsmarking requirements of the theft prevention standard (49 CFR Part 541) for the MY 2006 Focus vehicle line. The petition requested exemption from parts-marking pursuant to 49 CFR Part 543, *Exemption from Vehicle Theft Prevention Standard*, based on the installation of an antitheft device as standard equipment for an entire vehicle line.

Under § 543.5(a), a manufacturer may petition NHTSA to grant exemptions for one line of its vehicle lines per year. In its petition, Ford provided a detailed description and diagram of the identity, design, and location of the components of the antitheft device for the Focus vehicle line. Ford will install its antitheft device, the SecuriLock Passive Anti-Theft Electronic Powertrain Immobilizer System (SecuriLock) as standard equipment on the Ford Focus vehicle line beginning with MY 2006. Features of the antitheft device will include an electronic key, ignition lock, and a passive immobilizer.
