Tariff of Tolls
AGENCY: Saint Lawrence Seaway Development Corporation, DOT.
ACTION: Notice of proposed rulemaking.

and presently administer the St. Lawrence Seaway Tariff of Tolls in their respective jurisdictions. The Tariff sets forth the level of tolls assessed on all commodities and vessels transiting the facilities operated by the SLSDC and the SLSMC. The SLSDC is revising its regulations to reflect the fees and charges levied by the SLSMC in Canada starting in the 2006 navigation season, which are effective only in Canada. An amendment to increase the minimum charge per lock for those vessels that are not pleasure craft or subject in Canada to tolls under items 1 and 2 of the Tariff for full or partial transit of the Seaway will apply in the U.S. (See **SUPPLEMENTARY INFORMATION.**)

DATES: Any party wishing to present views on the proposed amendment may file comments with the Corporation on or before March 16, 2006.

SUPPLEMENTARY INFORMATION: The Saint Lawrence Seaway Development Corporation (SLSDC) and the St. Lawrence Seaway Management Corporation (SLSMC) of Canada, under international agreement, jointly publish and presently administer the St. Lawrence Seaway Tariff of Tolls (Schedule of Fees and Charges in Canada) in their respective jurisdictions.

The Tariff sets forth the level of tolls assessed on all commodities and vessels transiting the facilities operated by the SLSDC and the SLSMC. The SLSDC is proposing to revise 33 CFR 402.8, "Schedule of Tolls", to reflect the fees and charges levied by the SLSMC in Canada beginning in the 2006 navigation season. Additionally, the SLSDC is proposing to revise 33 CFR 402.3 and 33 CFR 402.4 to provide interpretations of two charges for vessels carrying new cargo on the Welland Canal and the MLO Section of the Seaway. With one exception, the changes affect the tolls for commercial vessels and are applicable only in Canada. The collection of tolls by the SLSDC on commercial vessels transiting the U.S. locks is waived by law (33 U.S.C. 988a(a)). Accordingly, no notice or comment is necessary on these amendments.

The SLSDC is proposing to amend 33 CFR 402.8, "Schedule of Tolls", to increase the minimum charge per vessel per lock for full or partial transit of the Seaway from \$20.00 to \$20.40. This charge is for vessels that are not pleasure craft or subject in Canada to the tolls under items 1 and 2 of the Tariff. This increase is due to higher operating costs at the locks.

Regulatory Evaluation

This proposed regulation involves a foreign affairs function of the United

Regulatory Flexibility Act Determination

I certify this proposed regulation will not have a significant economic impact on a substantial number of small entities. The St. Lawrence Seaway Regulations and Rules primarily relate to commercial users of the Seaway, the vast majority of whom are foreign vessel operators. Therefore, any resulting costs will be borne mostly by foreign vessels.

Environmental Impact

This proposed regulation does not require an environmental impact statement under the National Environmental Policy Act (49 U.S.C. 4321, et reg.) because it is not a major Federal action significantly affecting the quality of the human environment.

Federalism

The Corporation has analyzed this proposed rule under the principles and criteria in Executive Order 13132, dated August 4, 1999, and has determined that this proposal does not have sufficient federalism implications to warrant a Federalism Assessment.

Unfunded Mandates

The Corporation has analyzed this proposed rule under Title II of the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4, 109 Stat. 48) and determined that it does not impose unfunded mandates on State, local, and tribal governments and the private sector requiring a written statement of economic and regulatory alternatives.

Paperwork Reduction Act

This proposed regulation has been analyzed under the Paperwork Reduction Act of 1995 and does not contain new or modified information collection requirements subject to the Office of Management and Budget review.

Vessels, Waterways.

Accordingly, the Saint Lawrence Seaway Development Corporation proposes to amend 33 CFR part 402, Tariff of Tolls, as follows:

PART 402—TARIFF OF TOLLS

1. The authority citation for part 402 continues to read as follows:

Authority: 33 U.S.C. 983(a), 984(a)(4) and 988, as amended; 49 CFR 1.52.

§ 402.3 Interpretation.

* * * * *

(k) *New cargo—MLO Section* means either containerized cargo or cargo which has not moved through the MLO Section in an average annual amount, over the navigation seasons 2001–2002–2003, greater than 10,000 metric tons.

(l) *New cargo—Welland Canal* means either containerized cargo or cargo which has not moved through the Welland Canal in an average annual amount, over the navigation seasons 2001–2002–2003, greater than 10,000 metric tons.

(m) *Passenger* means a person being transported through the Seaway who has a paid fare for passage.

(o) *Seaway* includes all facilities and services authorized under Public Law 358, 83rd Congress, May 13, 1954, enacted by the Congress of the United States, as amended, (33 U.S.C. 981, *et seq.*) and the meaning ascribed to it under the Canada Marine Act.

(p) *Vessel* (“ship” in Canada) means every type of craft used as a means of transportation on water, except a vessel owned or employed by the Manager or the Corporation.

3. Section 402.4 is amended by adding paragraphs (d) through (f) to read as follows:

§ 402.4 Tolls.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 261

[SW FRL-8031-5]

Hazardous Waste Management System; Identification and Listing of Hazardous Waste; Proposed Exclusion

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule and request for comment.

SUMMARY: EPA is proposing to grant a petition submitted by Bayer Material Science LLC (Bayer) to exclude (or delist) a certain solid waste generated by its Baytown, Texas, facility from the lists of hazardous wastes.

EPA used the Delisting Risk Assessment Software (DRAS) in the evaluation of the impact of the petitioned waste on human health and the environment.

EPA bases its proposed decision to grant the petition on an evaluation of waste-specific information provided by the petitioner. This proposed decision, if finalized, would exclude the petitioned waste from the requirements of hazardous waste regulations under the Resource Conservation and Recovery Act (RCRA).

If finalized, EPA would conclude that Bayer's petitioned waste, spent carbon, is non-hazardous. The spent carbon from the facility's waste water treatment plant, before treatment, would be listed under the hazardous waste codes K027, K104, K111, and K112. Long- and short-term threats to human health and the environment from the spent carbon as generated are minimized.

DATES: EPA will accept comments until March 16, 2006. EPA will stamp comments received after the close of the comment period as late. These late comments may not be considered in formulating a final decision. Your requests for a hearing must reach EPA by March 1, 2006. The request must contain the information prescribed in 40 CFR 260.20(d) (hereinafter all CFR cites refer to 40 CFR unless otherwise stated).

ADDRESSES: Please send three copies of your comments. You should send two copies to the Chief, Corrective Action and Waste Minimization Section (6PD-C), Multimedia Planning and Permitting Division, U.S. Environmental Protection Agency Region 6, 1445 Ross Avenue, Dallas, Texas 75202. You should send a third copy to the Texas Commission on Environmental Quality, P.O. Box 13087, Austin, TX 78712. Identify your comments at the top with this regulatory docket number: R6-TXDEL-FY06-Bayer-Spent Carbon. You may submit your comments electronically to Michelle Peace at peace.michelle@epa.gov. You may also submit your comments through <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

You should address requests for a hearing to Ben Banipal, Chief, Corrective Action and Waste Minimization Section (6PD-C), Multimedia Planning and Permitting Division, U.S. Environmental Protection Agency Region 6, 1445 Ross Avenue, Dallas, Texas 75202.

VI. Statutory and Executive Order Reviews

I. Overview Information

A. What action is EPA proposing?

EPA is proposing to grant the delisting petition submitted by Bayer to have its spent carbon (K027, K104, K111, and K112 listed hazardous waste) excluded, or delisted, from the definition of a hazardous waste.

B. Why is EPA proposing to approve this delisting?

Bayer's petition requests a delisting for the spent carbon derived from the treatment of hazardous waste water listed as K027, K104, K111, and K112 be delisted. Bayer does not believe that the petitioned waste meets the criteria for which EPA listed it. Bayer also believes no additional constituents or factors could cause the waste to be hazardous. EPA's review of this petition included
