1. On page 72170, Schedule C, Table 1, the entries for Midwest region and South region are corrected to read as follows:

	Included	Excluded
Midwest Region	1.022	1.013

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; 5-Year Review of Florida Scrub-Jay

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces a 5-year review of the Florida scrub-jay (*Aphelocoma coerulescens*) under section 4(c)(2) of the Endangered Species Act of 1973, as amended (Act). The purpose of reviews conducted under this section of the Act is to ensure that the classification of species as threatened or endangered on the List of Endangered and Threatened Wildlife and Plants (50 CFR 17.11 and 17.12) is accurate. The 5-year review is an

assessment of the best scientific and commercial data available at the time of the review.

DATES: To allow us adequate time to conduct this review, information submitted for our consideration must be received on or before April 17, 2006. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: You may submit data, information, and comments by any of the following methods:

1. You may submit written comments and information to the Field Supervisor, Jacksonville Ecological Services Office, 6620 Southpoint Drive South, Suite 310, Jacksonville, FL 32216.

2. You may hand-deliver written comments to our Office, at the above address.

3. You may send comments by electronic mail (e-mail) to floridascrubjay@fws.gov. Include "Florida Scrub-Jay Five-Year Review" in the subject line of the message.

4. You may fax your comments to 904/232-2404.

FOR FURTHER INFORMATION CONTACT: Dawn Zattau, Jacksonville Field Office at telephone (904) 232-1067.

SUPPLEMENTARY INFORMATION: Under the Act (16 U.S.C. 1533 *et seq.*), the Service maintains a list of endangered and threatened wildlife and plant species at 50 CFR 17.11 (for animals) and 17.12 (for plants) (collectively referred to as the List). Section 4(c)(2)(A) of the Act requires that we conduct a review of listed species at least once every 5 years. Then, on the basis of such reviews, under section 4(c)(2)(B), we determine whether or not any species should be removed from the List (delisted), or reclassified from endangered to threatened or from threatened to endangered. Delisting a species must be supported by the best scientific and commercial data available and only considered if such data substantiate that the species is neither endangered nor threatened for one or more of the following reasons: (1) The species is considered extinct; (2) the species is considered to be recovered; and/or (3) the original data available when the species was listed, or the interpretation of such data, were in error. Any change in Federal classification would require a separate rulemaking process. The regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species currently under active review. This notice announces our active review of the Florida scrub-jay that is currently listed as threatened.
