In order to fill a request for reproduction or loan of items the library must have the name, mailing address, phone number, and patron ID number of the respondent initiating the request, and depending on the method of delivery, may require a fax number, e-mail address, or Ariel IP address. The collected information is used to deliver the material to the respondent, bill for and track payment of applicable fees, monitor the return to NAL of loaned material, identify and locate the requested material in NAL collections, and determine whether the respondent consents to the fees charged by NAL.

Need and Use of the Information: The NAL document delivery staff uses the information collected to identify the protocol for processing the request. The information collected determines whether the respondent is charged or exempt from any charges and what process the recipient uses to make payment if the request is chargeable. The staff also uses the information provided to process/package the reproduction or loan for delivery. Without the requested information NAL has no way to locate and deliver the loan or reproduction to the respondent, and thus cannot meet its mandate to supply agricultural material.
