Cape Town Treaty Implementation

ACTION: Final rule; confirmation of effective date; approval for collection of public information.

SUMMARY: This document confirms the effective date of the January 3, 2005, final rule amending 14 CFR parts 47 and 49 to comply with the Cape Town Treaty Implementation Act of 2004. This document also confirms the approval by the Office of Management and Budget (OMB) for the collection of public information contained in the final rule.

FOR FURTHER INFORMATION CONTACT: Mr. Mark D. Lash, Civil Aviation Registry, Mike Monroney Aeronautical Center, 6500 South MacArthur Blvd., Oklahoma City, OK 73169, telephone (405) 954-4331.

SUPPLEMENTARY INFORMATION:

Confirmation of Effective Date

The FAA published a final rule, with a request for comment on the information collection requirements, in the **Federal Register** on January 3, 2005 (70 FR 240). This final rule revised the regulations concerning registering aircraft and recording security documents as directed by Section 4 of the Cape Town Treaty Implementation Act of 2004. The Cape Town Treaty (the Treaty) establishes a new International Registry for registering interests against certain aircraft and aircraft engines. These amendments enable persons to send information to the International Registry concerning certain aircraft and aircraft engines by making the FAA Aircraft Registry the U.S. authorizing entry point to the International Registry.

When published, the final rule indicated that these amendments become effective concurrent with the date the Treaty enters into force with respect to the United States. Under the terms of the Treaty, it enters into force three months after the eighth country deposits formal instruments with the International Institute for the Unification of Private Law depositary in Rome. FAA advised that it would publish a document announcing the effective date of this final rule. As of January 1, 2006, eight countries, including the United States, have deposited instruments of ratification. Thus, the Treaty enters into force with respect to the United States and the final rule becomes effective on March 1, 2006.

OMB Approval for the Collection of Public Information

When published, the final rule indicated that the FAA had submitted the information requirements associated with this final rule to OMB with a request for clearance. The effective date for the collection of this public information should be concurrent with the date the Treaty enters into force with respect to the United States, once approved by OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection is 2120-0697. Notwithstanding any other provisions of law, no person is subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number.

OMB Control Number: 2120-0697.

OMB Approval Date: 03/29/05.

OMB Expiration Date: 03/31/08.

Title: FAA Entry Point Filing Form—International Registry.

Form Number: AC Form 8050-135.

Respondents: Law firms, technical level personnel (paralegals), and the public.

Number of Respondents: 15,000.

Estimated Time per Response: 30 minutes.

Needs and Uses: Public Law 108-297 designates the FAA Aircraft Registry as the U.S. entry point for authorizing the transmission of information relating to civil aircraft of the United States, aircraft for which a United States identification has been assigned (but only with respect to notices of prospective assignments, interests, and sales), and aircraft engines, to the International Registry. It also provides for the filing of notices of prospective

interests. To transmit certain types of interests or prospective interests to the International Registry, interested parties must file a completed FAA Entry Point Filing Form—International Registry, AC Form 8050-135, with the FAA Civil Aviation Registry. Upon receipt of the completed form, the FAA Civil Aviation Registry will issue the unique authorization code. The FAA did not receive any adverse comments on the proposed information collection, and it was approved by OMB.

BILLING CODE 4160-01-S

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 943

[Docket No. TX-055-FOR]

Texas Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSM), are approving an amendment to the Texas regulatory program (Texas program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). Texas proposed revisions to the Texas Surface Coal Mining and Reclamation Act (TSCMRA) and the Texas Administrative Code (TAC) regarding the State's annual fees that are required from coal mining permit holders. Texas proposed to change the requirement for the current annual fee and to add two new annual fees. Texas intends to revise its program to reduce the economic cost to the coal mining industry as a whole and to require coal mining permit holders that have ceased mining to pay annual fees. **EFFECTIVE DATE:** February 17, 2006.

FOR FURTHER INFORMATION CONTACT: Michael C. Wolfrom, Director, Tulsa Field Office. Telephone: (918) 581-6430. E-mail: mwolfrom@osmre.gov.

SUPPLEMENTARY INFORMATION:

- I. Background on the Texas Program
- II. Submission of the Amendment
- III. OSM's Findings
- IV. Summary and Disposition of Comments
- V. OSM's Decision

VI. Procedural Determinations

I. Background on the Texas Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, "a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act." See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Texas program effective February 16, 1980. You can find background information on the Texas program, including the Secretary's findings, the disposition of comments, and the conditions of approval, in the February 27, 1980, **Federal Register** (45 FR 12998). You can find later actions on the Texas program at 30 CFR 943.10, 943.15, and 943.16.

II. Submission of the Amendment

By letter dated October 6, 2005 (Administrative Record No. TX-660), Texas sent us an amendment to its program under SMCRA (30 U.S.C. 1201 *et seq.*). Texas sent the amendment at its own initiative.

We announced receipt of the proposed amendment in the November 29, 2005, **Federal Register** (70 FR 71441). In the same document, we opened the public comment period and provided an opportunity for a public hearing or meeting on the adequacy of the amendment. We did not hold a public hearing or meeting because no one requested one. The public comment period ended on December 29, 2005. We received comments from one industry group.

III. OSM's Findings

Following are the findings we made concerning the amendment under SMCRA and the Federal regulations at 30 CFR 732.15 and 732.17. We are approving the amendment as described below. Any revisions that we do not specifically discuss below concern nonsubstantive wording or editorial changes.

A. TSCMRA Section 134.055. Annual Fee

Section 134.055 of Texas' statute currently requires each permit holder to pay an annual fee for each acre of land in the permit area on which the permit holder actually conducted operations
