Typically, Transportation Counselors assist Department of State and other Embassy employees with making shipping arrangements for unaccompanied baggage, household effects, and privately owned motor vehicles. Transportation Counselors in DOS Washington have full access to record fields related to transporting the effects of DOS and other Embassy employees. Transportation Counselors at DOS Dispatch Agencies have limited access to certain record fields. Transportation Counselors at other U.S. Government agencies are provided with limited information from certain record fields as needed. Transportation Counselors at U.S. Missions abroad (i.e., DOS general services officers and locally engaged staff in the shipping section) have read-only access to the "status tracking" portion of ILMS. Shipping Contractors are provided with limited information in certain record fields, such as delivery address and telephone number. System Administrators are Department personnel and contractors who operate, support, and maintain the system of records (ILMS). Systems used exclusively by the military are covered in the Chairman, Joint Chiefs of Staff (CJCS) Master Positioning, Navigation, and Timing Plan (MPNTP). The FRP includes the introduction, policies, operating plans, system selection considerations, and research and development sections. The companion document entitled Federal Radionavigation Systems (FRS) contains information on government roles and responsibilities, user requirements, and systems descriptions, and is published separately from the FRP. The FRS is periodically updated as necessary.
