Food and Drug Administration [FDA 225-05-3001]

Memorandum of Understanding Between the United States Food and Drug Administration and the United States General Services Administration

AGENCY: Food and Drug Administration, HHS.
ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is providing notice of a memorandum of understanding (MOU) between the U.S. Food and Drug Administration and the U.S. General Services Administration (GSA) (collectively the Parties or individually a Party). The purpose of

OMB No.: New Collection.

Description: This study is designed to determine how local welfare offices implement sanction policies in the Temporary Assistance for Needy Families program. This study will survey local welfare staff to gather in-depth qualitative information on how workers interpret the policies and apply them in specific instances. The results of this study should give the Administration for Children and Families (ACF) a better understanding of possible outcomes of various sanction policies, which in turn will help ACF design a research program to study the effect of sanctions.

Respondents: A maximum of 324 welfare staff in local welfare offices.

this MOU is to set forth an agreement between GSA and FDA regarding the roles, responsibilities, and financial commitments of each Party relating to FDA's agreement to coordinate, with GSA and its contractors, removal of a mercury-contaminated laboratory waste plumbing system; and GSA's agreement to coordinate, with FDA and its contractors, its scheduled hazmat removal and demolition work at Federal Office Building 8. It is the Parties' mutual desire to accomplish both actions in such a manner that controls and reduces the overall cost to the taxpayer.

DATES: The agreement became effective January 9, 2006.
